WORLD'S LARGEST SEED HOUSE
SELLING DIRECT TO FARMERS

BERRY SEED COMPANY

Established 1895 **CLARINDA, IOWA** 41ST Year

SAVE MONEY on QUALITY SEEDS EVERY POUND GUARANTEED TO GROW

J. F. SINN
President Berry
Seed Co.

A farmer by birth and early training. Connected with our Company for over 30 years.

Recognized as one of the foremost men in the seed business. He makes it his business to see that you get more seed value for your money.

He is always at your service, and glad to help.

DEAR FRIEND:

Another year is unfolding before us. Agriculture has made much progress the past year and the year of 1936 looks most promising for the farmer. Crops have been better and prices received very satisfactory in most cases. The farmers are coming back rapidly and have much more money to spend and are far more prosperous than their city cousins.

The production and distributing of seed is ever becoming a more difficult problem. We have perfected our facilities for handling so that we can give better service than ever before. As our business grows, our organization also becomes more expert and efficient so as to give our customers the best there is to be had in the seed line.

See Crops again this year, are far short of normal. A few items such as Timothy and Blue Grass, the crops were large so prices are ridiculously low. Other crops, Clover, Alfalfa, Alsike and Sweet Clover were short. Markets on these crops dropped to lower levels than production justified owing to the low market on Timothy. However, markets are now advancing. Many seedsmen have waited too long to buy and are now trying to accumulate supplies. We bought freely at the low levels and have a big stock laid in at rock-bottom prices. This accounts for the unusual bargains we can offer on high grade seed. The demand for Clover is phenomenal. Much higher markets are in the making. I want to urge my friends to buy now at the low prices quoted in this catalog. You will never have an opportunity of buying to better advantage.

We have reduced our prices very materially on Garden Seeds and Nursery Stock. Our values in the entire seed line are outstanding and seldom duplicated. We can save you money and guarantee every pound to grow. You are dealing with one of the best friends the farmer ever had when you send your order to the Berry Seed Company.

Seed Corn is another item very scarce and greatly in demand. Our stocks are complete, all guaranteed and priced very low. Don't delay buying or pay more money for seed not so good. Let us take care of your complete seed order. You will save money and be surprised at the fine quality we deliver.

I feel in writing this page that every prospective customer that I can persuade to send their order to Berry Seed Company, that I have made another friend. I have been on the job for over thirty years and have built up the largest mail order business in the world on farm seeds and this has been accomplished by having the lowest prices, quality considered, and giving the most value for the dollar.

These outstanding values are set forth in this catalog. Read it and act to your best interest. This will mean your order. I will pledge myself not to disappoint you. Samples and advice are always free. Write me when you think of seeds. I will be expecting to hear from you favorably.

Your friend,

Greens Fork, Ind.
Dear Sirs: Have bought several thousand dollars worth of seed from you. Have always found them prompt and reliable and have saved myself and neighbors several hundred dollars, always obtained seed of high germination.
D. W. HARRIS

Springville, Iowa
Gentlemen: The Marvellous Mixture of grass seed that I have been buying from you for several years is the best. I have been getting good returns for my money, and can heartily recommend to others desiring good seed.

Yours truly,
C. F. BUTLER

Mount Clare, W. Va.
Dear Sirs: I have been using your farm and garden seeds for some years and find them real money savers. Your descriptions and recommendations are accurate and reliable. Your courtesy and efficient service to all who wish to get the best seeds at a minimum cost. For purity and vitality your seeds are unsurpassed.
Truly yours, G. W. CONLEY

New Berlin, Ill.
Gentlemen: I have been buying seeds from Berry's for 24 years. I have lately club ordered my seeds, including my farm-er friends to order with me. I have bought over \$18,800 of seeds from you in one year. Not one farmer returned a bushel. Always better than expected. I always save from \$4.00 to \$7.00 per bushel by ordering from you. I find your World Brand the very best buy.
J. W. GERHARDT

Hummelstown, Pa.
Dear Sirs: I have found your seeds OK and you have saved me lots of money. Your Honest John Alfalfa has given me wonderful results. I sent you a photo showing the fine big growth. I am well satisfied with all dealings I have had with you.
Yours truly,
DANIEL BEHRENS

41 YEARS SELLING DIRECT TO FARMERS

The GREAT ALFALFA BARGAIN for 1936

LOT
HONEST JOHN
 FOR FINE STANDS
 BIG CROPS ~ LOW COST
Only \$6.90 per bu.
 60 lbs per bu.
GENUINE HARDY CORN BELT STOCK

Good, re-cleaned, hardy seed priced extremely low. Absolutely the lowest figure at which you can buy dependable seed of this character. U.S. Verified origin. Good purity and germination. Double re-cleaned. A little off colored. Grows good. Produces beautiful stands of vigorous growing alfalfa. Equal in hardiness to any common. If you do not object to a little lack of uniformity so long as it is cleaned and can produce hardy stands, then this is the seed for you.

We sell many carloads of this seed. It has given most astonishing performance. The berries run a bit smaller which means more seeds per pound. That's one reason why customers tell us their stands were "thick as hair on a dog's back." Those who have used it ask for Honest John when they want more alfalfa. Neighbors ask for it because they have seen what it did for others. It will start you with this great money crop in a satisfactory way and at very low cost.

Honest John is making us thousands of friends and convincing them that it pays to buy-by-mail from Berry's. Let us save you money.

TWO OUTSTANDING ALFALFA VALUES. BUY NOW!

GENUINE MINNESOTA GROWN

FROM THE "ORIGINAL" GRIMM FIELD STATE-SUPER HARDY STOCK

Direct from the home of the original Grimm field, Minnesota, where Lyman's seed is grown, and contains a little North Dakota seed, U.S. Verified origin tags give positive evidence as to origin. Grown where the most damaging extremes of weather kill out the weaker plants and leave only the most rugged ones to produce seed. There is no harder Grimm obtainable.

Wherever conditions cause much trouble with winter killing Grimm should be used. Here is a lot of fine quality seed that is priced to make it an extraordinary value. It was secured at a low figure in making a quantity purchase. You can share in these savings by acting promptly.

This is seed for critical trade—strictly a fine quality lot. Nice color. Smooth uniform berries 99% pure, including 3% crop seed which is principally Red Clover. Strong germination. A vigorous grower. We'll gladly send you a sample. Compare it with the best grades. Consider the super hardy character of our seed. Your saving on this lot will run around \$2.00 a bushel.

This is not our lowest priced seed. Other lots are described on page 39, 41 and back cover. They are all fine values but this is such an outstanding bargain that we give it our special recommendation for all who want a strictly quality lot of Genuine Minnesota Grimm.

See how clean it is. Note the heavy clover content. We want you to see with your own eyes what a great value this Marvelous Mixture is. The fifty percent of clovers are Medium Red Clover, Alsike, Alfalfa and Sweet Clover. The balance is Timothy. We are selling this at deep cut prices. Judge its value by its quality. By any standard of comparison it is a great value. Shipment will be like sample and guaranteed to please you. We are pricing this seedling so low that everyone will quickly recognize it as a real bargain. It is one of our leaders for 1936. You can make a big saving on this seed and establish a fine seeding at low cost. Be sure to sow some this year.

Economical to Sow

A quarter of a bushel per acre makes a fine seeding. Costs a dollar an acre. Where can you get a seeding so rich in clover at so low a cost? Provides 40 to 45 clover seeds for every square foot. Maintains a stand for several years. Heaviest producer of all our mixtures. Yields enormous crops of hay. Can be pastured heavily. It is easy to establish a field of alfalfa after growing Marvelous. It is a great crop and our price on such seed is drastically low.

Profitable to Grow

Marvelous Mixture brings you plenty of clover at low cost. The Timothy supports the clovers enabling them to grow taller and more leafy. The growth becomes a dense mat of clovers and grass. Soil erosion is checked. The land is enriched with nitrogen. Sow on winter grain, with spring grain or later without any nurse crop. Harrow seed in lightly and roll if possible. It grows in a wide range of soils and climates.

Start This Money Maker

You too will become enthused over its wonderful production and fine feeding value. It is easy to grow and accomplishes marvelous results. We sell thousands of bushels of this seed and our present low prices will unquestionably break all sales records in our history. Let us save you money and help you get started with a highly satisfactory seedling.

A Few Who Speak for Thousands

It is the experience of our customers that gives our Marvelous Mixture its strongest endorsement. It is the heaviest producer we have ever developed. High in feeding value. Rich in soil building elements. Suitable for hay and pasture. Low in seeding costs. It makes an ideal combination for thousands of farmers.

Saves 50% at Berry's

Stratford, Wisc.

Dear Sirs:

I was more than pleased with the seeds I bought from the Berry Seed Co. Never had a finer stand of hay. Sowed Marvelous Mixture this spring, and the seedling looks very good. I feel I saved about half by buying from this Co.

Yours truly, THEO. ROGGENBAUER.

Yield and Quality Fine

Catawba, W. Va.

Dear Sirs:

I have been using your Marvelous Mixture of grass seed for more than eight years with satisfaction. The quality and yield has never disappointed me, and can heartily recommend to others desiring good seed.

Yours truly, WILLIE L. ROBE.

Good Stands—Big Yields

Hillsdale, Wis.

Gentlemen:

We have been using Marvelous Mixture grass seed on our farm near Blue River, Wis., for a number of years and have been well pleased with the results. Have had the best stand and best yield of any seed sown for several years.

Yours truly, G. L. POUND.

Splendid Hay—Lots of It

Martinsville, Ind..

Berry Seed Co.

Dear Sirs:

I find your Marvelous Mixture makes splendid hay and I got 21 loads off of 9 acres first cutting and 11 loads of fine Alfalfa this year in second cutting. In 1928 I bought one bushel of Kansas Grown World Brand Alfalfa, and it is still fine field of hay and thick as ever, so I have been using your seed ever since.

(Signed) W. L. COLEMAN.

Marvelous Satisfies

Kent, Ohio.

Dear Sirs:

I had good results with your Marvelous Mixture, very heavy crop and good quality. Your Marvelous Mixture is my choice. There is no guesswork about this seed. I have recommended it to a good many friends and neighbors.

Yours truly, J. B. SMITH.

MEDIUM
RED CLOVER

LOT
LEADER
98½% PURE
INCLUDING A LITTLE ALFALFA SEED

PER
BU. \$ **11.30** 60
LBS.

We Challenge the World With This Value

**HIGH
PURITY**

Carefully analyzed. 98-99 pure including a little alfalfa. Practically weed free.

**STRONG
GERMINATION**

Berries are big, plump and full of vitality. Germination quick, strong and high.

This is the seed for you folks who want extra fine quality. It has that beautiful bright lustrous shine and those big plump kernels packed with vitality. Seed that is clean and produced from a hardy type of plants. Lot Leader has everything you could ask for. No matter how critical you may be this seed will please you. Here's a sample enclosed so you may see exactly what you will receive on an order.

Priced Exceedingly Low

You will find few lots equal to this from every standpoint of high quality but you will find plenty prices that are higher. "How can we sell it at such a bargain figure?" The answer is simple. Early last fall we located this seed that had been produced on some old alfalfa fields. The few volunteer alfalfa plants produced seed. This seed can not be separated. There is only around 6 or 7 per cent in it. While it doesn't hurt the clover, still it reduces the percentage of pure clover. That's why we secured it at a sharply reduced price. The buyers of the seed are getting the advantage of this big savings.

Very Popular Seeding

We have had such seed before. It gave wonderful satisfaction. Our customers like a little alfalfa in their clover. Many have started pure alfalfa stands following it. This seed is hardy anywhere in the nation. It is a bargain extraordinary because it combines fine high quality at low cost. The price holds good until the lot is sold. Better not delay in getting some of it.

**HARDY
STRAIN**

Hardy anywhere in U. S. All northern grown. Contains no Pacific Coast. Imported or southern seed.

**BEAUTIFUL
COLOR**

Fine appearing seed. Bright live colors. The kind that takes prizes at seed shows.

A GREAT VALUE at a BARGAIN

Berry's leadership in the Sweet Clover seed business has been acknowledged for many years. This lot is a challenge to all doubters. We guarantee it absolutely as the greatest value in the nation for 1936. Priced to save you real money.

This isn't our lowest priced grade of Sweet Clover. Pages 32 to 34 and 36 have lots and grades at lower figures. But, this Lot Pearl is a bargain such as is seldom offered. It has high purity, good color and nice sized berries. It is scarified quick germinating seed. While not quite fancy enough in color to make our Extra Fancy grade it is sound and reliable seed.

Some dealers will sell this quality as their best grade. When it comes to practical results it will perform with the best. You can make this very substantial saving because we sorted out this seed that is so thoroughly dependable even though slightly off in color.

Don't compare this with cheap seed you may find elsewhere. Compare with the best. We'll gladly send you samples. Or we will ship it with the understanding that if you don't consider it the greatest value in the nation today you can return it and get your money back. We have been Sweet Clover specialists for years and are nationally recognized as being large handlers. This Lot Pearl is the greatest value in our stocks this year.

Fine Quality
**WHITE SWEET

PHALARIS

for HAY AND PASTURE

**BIG
YIELDER
RICH
FEEDING
VALUES**

NEW LOW PRICES

**GROWS
ON VERY
WET LAND
GREAT
DROUGHT
RESISTER**

The grass that is sweeping the nation. Throughout the northern half especially farmers are turning to this crop that has given such sensational performance. A grass that lives for many years yet is easily eradicated by plowing. A grass that will grow under water and on wet boggy land yet is a wonderful drought resister. Heavier in production and higher in feeding value than other grasses. Forms a dense sod. Stops soil washing. Great for hay and pasture. The growth is very leafy. In a dry year on upland loam soil at Iowa State College it outyielded Timothy, Orchard Grass, Bromus and all similar grasses. It almost doubled the yield of Bromus which was second best.

Small lots, postpaid, 1 lb., 60c; 5 lbs., \$2.50; 10 lbs., \$4.25. Not prepaid, 10 lbs., \$3.75; 25 lbs., \$8.90; 50 lbs., \$17.60; 100 lbs., \$35.00.

It is no wonder Reed Canary Grass is becoming so popular and wide spread in usage. It does what no other grasses can do. It is just the crop that tens of thousands of acres need. This year our price is the lowest ever made only about a third of last year's price. All new crop, recleaned high germinating seed. Requires about 6 lbs. per acre. Sow on a fine seed bed, cover lightly and roll if possible. May be sown with a nurse crop early. Also sown alone later on land where weed growth has been checked by discing and harrowing.

Ask for our free circular giving detailed information. Buy seed now for present low prices.

KENTUCKY BLUE GRASS

Prices Low—Sow Liberally

This is the year to seed Kentucky Blue Grass heavily. Thin stands are expensive luxuries that few farmers can afford. The return from your acres is too small. Only heavy stands will show a profit. It takes plenty of seed to make good stands. This year the quality of our Northern grown seed is extra good. It is heavier and better filled and cleaner. You'll never get finer quality. At the same time our prices are about half of last year's figures. Now is the time to thicken up your old stands and make liberal seedings of new pasture.

Kentucky Blue Grass is a "natural" grass in most sections. It is adapted to a wide range of soils and climate. Its feeding value is higher than most grasses. It withstands terrific abuse. Good seed will produce thicker stand and more luxuriant growth. To thicken old stands, disc the land with knives set straight. Broadcast seed and harrow. For new seedings have seed bed firm, harrow very lightly after seeding and roll if possible. Either winter or spring grain may be used as a nurse crop.

Buy your seed early for markets are showing much strength. Small lots, postpaid: 1 lb., 30c; 5 lbs., \$1.35; 10 lbs., \$2.50. Not prepaid: 25 lbs., \$3.60; 50 lbs., \$7.10; 100 lbs., \$14.00.

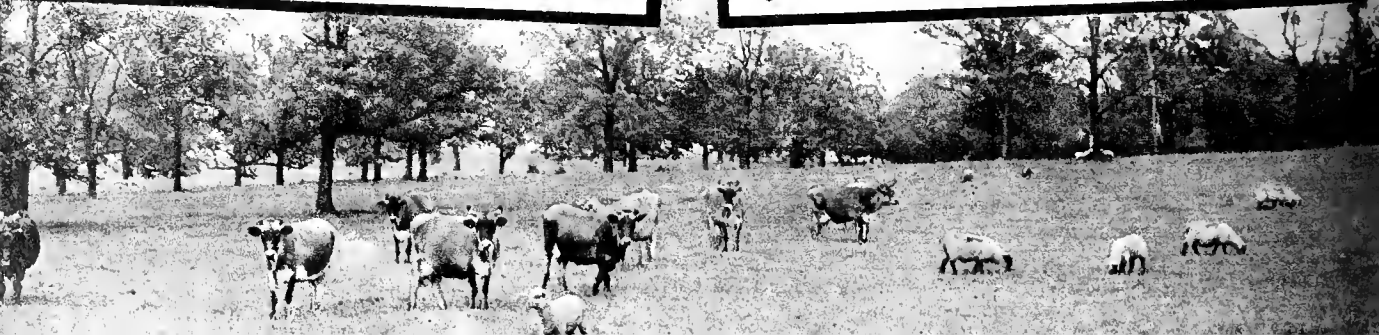

WINTER BLUE GRASS

Poa Bulbosa

This grass has habits just the reverse of other grasses. Produces seed, or rather bulbets in the spring. Becomes dormant in the summer. Begins to grow in the fall. Continues its growth during fall, winter and early spring. Then seeds and becomes dormant again. Severe cold weather will check its growth but will not injure it. The heavier it is pastured the better it seems to grow. The feeding value is unusually high any analysis of hay showing 8.26 crude protein and 2.08 fat for Poa Bulbosa as compared with 1.90 Protein and 0.70 fat for Kentucky Blue Grass.

Instead of true seed it produces little bulbs in the seed head. There are also bulbs on the roots. Sow in the spring on a well prepared seed bed and harrow lightly. Some merely broadcast without any preparation or covering. Sow 7 to 8 lbs. per acre. Lighter seedings may be made. Stands will thicken up. This grass is a native of Europe. Has been widely grown in northwest United States. Its use is spreading rapidly. Grass is adapted to wide variety of soils. Now being used on many Federal soil conservation projects. Crop is good seed producer. Should be a big money maker especially for those starting early.

Postpaid, 1 lb., 55c; 5 lbs., \$2.50; 10 lbs., \$4.75. Not Prepaid: 25 lbs., \$8.75; 50 lbs., \$16.75; 100 lbs., \$33.00.

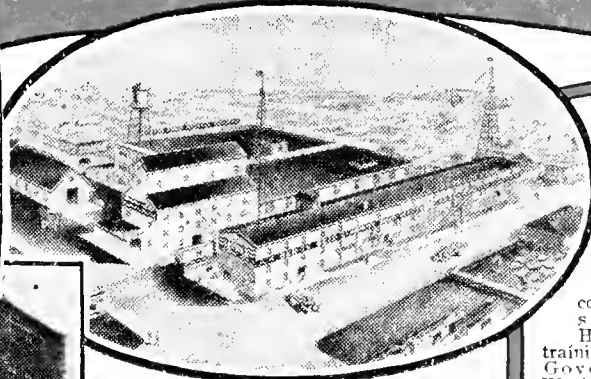

BANKS

that VOUCH for US

Here is a list of the banks with whom we do business. Anyone of these will tell you that we are reliable. Your own banker can refer to his credit rating books and he will tell you the same thing. Continental Illinois Bank and Trust Company, Chicago, Ill. Terminal National Bank, First National Bank, Drovers National Bank, Chicago, Ill. Bank of Manhattan Trust Company, New York, N. Y. Iowa—Des Moines National Bank, Des Moines Ia. Omaha National Bank, Omaha, Neb. Citizens State Bank, Page County State Bank, Clarinda, Iowa

LOWEST PRICES

from WORLD'S LARGEST SEED HOUSE SELLING DIRECT to YOU!

Our Clarinda plant and main offices are shown above and our Chicago plant on the left. These large buildings, equipped with modern machinery, make possible our excellent service, high quality and low prices.

TESTED QUALITY

Mr. L. C. Jorgenson is one of the country's best seed analysts. He secured his training from U. S. Government at Washington, D. C.

Prompt Shipment—Quick Arrival

Our entire policy of business is to take care of every customer's order so he or she will be satisfied in every way. Both our Clarinda and Chicago plants are organized and equipped to get shipments out promptly. Freight service is improved and shipments roll to destination in short order.

We guarantee that all shipments will arrive safely and in good condition. If there is any sign of loss or damage just have your agent mark it on the freight bill, send the bill to us and we will promptly adjust the matter. Address all letters, orders and correspondence to Clarinda. We have no office at Chicago.

Service on Seeding Problems

Perhaps you may be undecided as to what you should sow. You may desire further information on some crops. Possibly you have a farming problem that is hard to solve. If so, write to us. We may be able to help you. Our secretary, Mr. Joe Faassen, has made quite a study of farm crops. He is always glad to help whenever he can. His services are at your disposal. Feel free to write at any time.

Recleaned Seed

It will pay you to fully understand that our scientifically recleaned and specially processed seed is distinctly a superior product. When some dealers talk about recleaned seed they mean it has been run over a fanning mill with a couple of screens in it. That will help, of course, but much greater care and attention must be given to the average seed to make it desirable to sow.

In our cleaning plants we have some machines that are used just to get one particular kind of weed seed. Our equipment is modern, efficient, and we can do cleaning and special processing that is absolutely impossible for the average concern. You could afford to pay us a premium for such seed and still have much more economical and satisfactory seed. We do not charge you a premium, however, but give you scientifically recleaned seed at prices that are lower than many are asking for inferior quality. Judge seed by quality. Quality makes the value and our low prices make unbeatable bargains.

GUARANTEE

We guarantee everything in this catalog to be as represented. We guarantee that our prices are lowest, considering quality. If upon receipt of your order you are not entirely satisfied you can return it and your money, plus transportation charges, will be promptly refunded. Or you can keep it 60 days and have the seed tested in order to satisfy yourself that the quality is good and that you have saved money and secured a big bargain. Then if you are not pleased you can return it, and have all money refunded. You must be satisfied and we guarantee to save you money.

We also guarantee to replace, free of charge, any garden or flower seed that fails to grow on account of poor germination. Our nursery stock is guaranteed to arrive in good live planting condition or it will be replaced free of charge. Our guarantee protects the buyer and is lived up to, so it means just what it says.

BERRY SEED CO.,
Clarinda, Iowa.

You are entitled to know, as a buyer of seed, that what you buy is not sold by guess work. We have a government trained analyst who has had 19 years of experience in testing seeds. He examines purchases, samples and records their purity and germination tests after the seed has been cleaned.

Thus we know that the seed we ship has the ability to produce good stands and that our customers secure good value for their money.

We pass up a good deal of the seed that is offered to us because of undesirable quality. It is to our interest to ship our customers the kind of seed that will make them want to come back again. It is to your interest to use that kind of seed. We will save you money on it. Let us supply you with it.

**PLANT the BEST
QUALITY SEED
for BIGGEST
CROPS and PROFITS**

40 Years of KNOWING SEEDS

SAFEGUARDS BERRY CUSTOMERS

KNOWING ORIGIN KNOWING QUALITY

Our 40 years of experience have taught us to know what sections produce seed with noxious weeds. They are to be avoided, yet seed produced in such sections is sold to someone. We know when climatic conditions are most favorable for the development of hardiness, which is such an important characteristic in many seeds. The information that we have about quality, sections, etc., helps us to secure better seed for you. If you could spend just a few hours in seeing how we operate our modern seed business, you would know that we are rendering a real service to our customers.

Our buyers are schooled by experience to judge quality quite accurately. Yet even they find it difficult to estimate the loss of weight in cleaning seed. That will run from 5% to over 50%. Only the most accurate testing shows the actual quality. If experienced buyers find this difficult how much more so it must be for farmers who buy seed once or twice a year. We know weed seeds and detect them readily while the occasional buyer will overlook most of them. The buying of country run or improperly cleaned seed is the riskiest purchase any farmer can make.

KNOWING PRODUCTION KNOWING CLEANING

We can secure our seed to better advantage when we know how crops are turning out all over the nation. That enables us to have lower costs on our seed and hence lower prices to you. Therefore we study this closely.

For example, this year Red Clover seed is short in most sections. We bought considerable seed early in selected producing territory. Now markets have already advanced \$2.00 and promises to go higher. The same is

true on Alsike. Sweet Clover is short. Timothy has advanced about \$1.00 per hundred from the low point. We have stocks to protect early buyers and urge you to order early.

It is necessary to have a big investment in buildings and machinery in order to make quality seed even out of good country run seed. We have modern equipment but more than that is necessary. You must know how to operate this machinery. What screens are to be used. At what speed should the machine be run. How should the air blast be regulated. How fast can the seed be fed to the machine, etc. It takes more than a machine to make

good seed.

The above are just a few of the facts to show that our seed service means something to you and why it safeguards your buying.

BERRY'S

TESTED GRADES

WORLD BRAND EXCELS

We prepare most of our Grass and Clover seeds in different grades. The difference is largely a matter of color and size of berries. This enables us in our

better grades to give you a much finer quality than the seedman who mixes all lots together and offers only one or two grades.

Our World Brand is our extra fancy quality. Into it goes only the finest colored and largest berried seed. The purity and germination tests are the highest. It always represents the finest and is beautiful seed. The farmers who demand only the best are perfectly satisfied with this grade. They find nothing better, yet our prices save them money.

There is true economy in such stock. It produces strong, vigorous plants. Requires a minimum amount of seed. Gives assurance of clean fields and is surest to make a stand.

In grasses, grains and forage crops where only one grade is offered it is all World Brand. We have customers who for a quarter of a century found this grade their best friend. They do not ask for samples for experience has taught them that they will receive the best when they order Berry's World Brand.

By buying Berry's Tested grades or special lots you simplify seed buying because you can always tell what character of stock you will receive on your order.

FIT YOUR NEEDS AND MAKE BUYING EASY

DEALER'S FANCY

A high grade. Not quite so extra fine appearing as our World Brand, yet equal to what is quite generally sold as the best. It has nice color and size and good purity and germination. This grade is made to please those who wish a good dependable quality at a considerable saving in price.

PLANET BRAND

This extra choice grade gives very good service. The color is not quite so bright and the berries a bit smaller. It gives good stands at low cost. The saving in purchase price fully compensates the somewhat less handsome looks.

STAR BRAND

This is our cheapest grade. Not always available in all lines. Made up of smaller berried seed. Not always so high in germination per 100 seeds, but there are so many more seeds in a pound that it produces good stands. The price is always low and it satisfies.

SPECIAL LOTS

Sometimes we secure some lots which do not fit into our regular grades or which are purchased at special prices that permit an extra bargain to be offered. Such lots are listed by special names, such as Bed Rock Grimm Alfalfa.

DIRECT BUYING

The Sensible
Thing to Do

You Save Money on all Seeds

We eliminate extra profits. Our seed comes largely direct from the producing sections to our plant. From one section comes Red Clover, another Alfalfa, another Sudan, Sweet Clover, Timothy, Rape, etc. We reclean and assemble these stocks so that you can get at one place all the different kinds of seed you may need. All of this seed is scientifically cleaned, graded and tested. You get it in the way you want it and at a decided saving in price.

We have saved the American farmer thousands of dollars on our guaranteed quality seeds. We can save you good money this year. Join that mighty caravan of farmers that is turning this year to the World's Largest Seed House—selling farm seeds direct to farmers. Quality counts.

**CUTS OFF
THE
MIDDLEMAN
AND
SAVES YOU
20% To 30%**

**KEEP THIS EXTRA
PROFIT for YOURSELF**

HIGHER PRICES SURE to COME

We urge all of our friends to purchase their farm seeds early this year. There is a shortage in supplies of many lines of seed. The general trend of markets is toward higher levels.

Our stocks of seed at the time this catalog goes to press are quite large. We will be able to take care of early orders at prices given in this book. These quotations are made so low that we know the seed will move rapidly.

We see no opportunity of replacing the seed at the prices of last fall. Therefore it is necessary to quote prices subject to change after our original stocks are sold out.

There will be no changes unless conditions make it absolutely necessary and then our prices will be guaranteed to save you money on the basis of existing markets.

To assure yourself of the biggest savings, order just as soon as you can. Please do not think this is high pressure sales talk. We are simply trying to help you make an extra saving.

OUR PRICES THE NATION'S LOWEST

By lowest prices we mean, lowest considering quality. It is easy for anyone to make a low price. That in itself means very little. Some low priced seed might be expensive as a gift. Quality is the only true basis of value. On a quality basis you will find our prices lowest. Compare and see for yourself. Some people judge quality by price. They reason that the higher the price the better the quality. Such reasoning is just as faulty as to consider that a low price always means a bargain. We want to supply you with the kind of seed that will make you want to come back again.

Freight Rates Reasonable

All grass and clover seeds go at the third class rate which is a low classification. Grains go at fourth class which is still lower. After adding freight you will find your savings large. Try to make your order total 100 lbs. or more. The minimum charge on any shipment is the rate per 100 lbs. On shipments of less than 30 lbs. express is as cheap or cheaper than freight.

Parcel Post Rates

Any package up to 70 lbs. in weight and not exceeding 100 inches in length and girth combined can be sent by parcel post. If you want anything shipped by parcel post that is not quoted post-paid be sure to remit to cover postage. First find the zone you are in and then figure the amount of postage from the following table:

	1st Lb. Costs	All Additional Pounds
Zone 1	8c	1c
Zone 2	8c	1c
Zone 3	9c	2c
Zone 4	10c	3½c
Zone 5	11c	5½c
Zone 6	12c	7c

For example, a 10-lb. package to the 3rd zone costs 9c for the first pound and 2c a pound for the next nine pounds. 9 + 18 = 27c total. For short distances or for small packages parcel post is cheaper. Otherwise express. Freight, of course, is cheapest excepting on packages of 35 lbs. or less.

HOW TO ORDER

It is easy to order by mail. Use our regular order blank form if you have one. If not, you can use any kind of paper or we will send you order blanks.

Give full name and complete address. Tell where you want the seed shipped to and whether to ship by freight, express or parcel post (see to left for postage rates). If your freight station is different from post office be sure to say so. In case there is no agent at your freight station, then include freight charges in your remittance or let us ship to the nearest station where there is an agent.

Figure up the cost of your order according to latest catalog or price list. If you want farm seeds shipped from Chicago remit Chicago prices as shown in catalog or price list.

Send your remittance with your order. You can send this in the form of a Postal or Express Money order, Bank draft or your own personal check on any going bank where you have funds to cover. Do not send stamps or coin when convenient to remit otherwise. We advise registering letters containing currency.

Address all mail and orders to Clarinda. We have no office at Chicago. Write to Clarinda only. If you are in a big hurry for your seeds mark your order Rush.

BERRY'S

GARDEN SEEDS

Famous for their Tested Quality

GREEN PODDED BUSH BEANS

Prices on any of the following seven varieties, postpaid: Pkt., 5c; ½ lb., 16c; 1 lb., 29c; 3 lbs., 75c; 5 lbs., \$1.10. Not prepaid: 10 lbs., \$1.70.

134 **Burpee's Stringless Green Pod.** The standard of excellence. Used extensively by market gardeners and for canning. Plants sturdy, very prolific. Pods round, fleshy, perfectly stringless and of excellent quality.

132 **New Bountiful.** One of the best early green podded varieties. Grows well on light sandy soil. Vines vigorous and productive. Brittle, meaty and tender, absolutely stringless, and of fine flavor. Ready to pick in six weeks.

133 **Giant Stringless Green Pod.** One of the favorite stringless green podded sorts. Pods round, meaty, brittle. Stringless throughout entire growth. Heavy producer.

135 **Berry's Special or 1000-1.** Popular for canning. Pods long and round, medium green color, flesh crisp and tender and of good quality. Medium early.

136 **Red Valentine.** Plants grow bushy, very productive. Pods brittle, fine grained and tender; good for snapping.

125 **Tennessee Green Pod.** One of the earliest snap beans. Pods long, flat, dark green, of excellent flavor. Plants hardy and productive.

122 **Full Measure.** A well known variety for market and canning purposes. Pods are round, straight, very fleshy, stringless and tender.

WINTER OR BAKE BEANS

Prices on any of the following three varieties, postpaid: Pkt., 5c; ½ lb., 15c; 1 lb., 22c; 3 lbs., 60c; 5 lbs., 90c. Not prepaid: 10 lbs., \$1.35.

150 **Red Kidney.** Dark Red. The old-fashioned baking bean. Produces large flat green pods, well filled with large red kidney-shaped beans, rich in flavor. Matures in 60 days.

147 **White Wonder.** The greatest pea or cornfield bean, heavily productive. Popular for cooking.

148 **Pinto, or Dry Land Bean.** A favorite western bean; suitable for dry climate. Very prolific. Excellent for cooking.

Burpee's Bush Lima Bean

LIMA BEANS

Prices on any of the following three varieties, postpaid: Pkt., 5c; ½ lb., 16c; 1 lb., 29c; 3 lbs., 75c; 5 lbs., \$1.10. Not prepaid: 10 lbs., \$1.70.

137 **Henderson Bush.** The small butter bean known as "Baby Lima." Plants bushy, very productive. Early. Delicious flavor.

139 **Burpee's Bush.** Very early. Plants dwarf, vigorous growers, bearing until frost. Pods large, tasty, finest quality.

145 **King of the Garden.** A pole lima. A strong grower and a heavy yielder. Uniform pods of fine quality.

138 **Fordhook Bush.** The market gardener lima. Very productive. Seed thick and meaty, tender and juicy. Postpaid prices: Pkt., 5c; ½ lb., 20c; 1 lb., 35c; 3 lbs., 90c; 5 lbs., \$1.25. Not prepaid: 10 lbs., \$2.00.

BEAN INOCULATION. Garden Size, 15c; ½ bu., 35c; 1 bu., 50c. Write for quantity prices.

Burpee's Stringless Green Pod

YELLOW POD WAX VARIETIES

Prices on any of the following 14 varieties, postpaid: Pkt., 5c; ½ lb., 16c; 1 lb., 29c; 3 lbs., 75c; 5 lbs., \$1.10. Not prepaid: 10 lbs., \$1.70.

123 **Webber Wax.** Early market garden sort. Plants erect, compact and productive. Pods medium broad, thick-flat, curved. Brittle, stringless when young.

124 **Round Pod Kidney Wax.** Plant large, erect, and very productive. Pods stringless and fiberless.

126 **New Brittle Wax.** An outstanding sort for home use and for the canning trade. Dwarf habit; stringless pods.

127 **Improved Black Wax.** Vigorous and strongly productive. Pods golden yellow, tender, absolutely stringless.

128 **Davis White Wax.** Pods long, thick, flat. Dry beans used for baking.

129 **Wardwells Kidney Wax.** Desirable for home and market garden use. Earliest and most prolific. Pods golden yellow, brittle, stringless.

130 **Berry's Golden Wax.** Plants small, erect, very productive, rust resistant. Pods cream yellow, stringless.

POLE BEANS

140 **Early Golden Cluster.** A vigorous grower. Large pods of good quality.

141 **Kentucky Wonder.** Best known and most popular pole bean. Heavy producer, pods hanging in clusters. Fleshy green pods, very crisp when young.

142 **Lazy Wife.** Medium late, strongly productive. Pods broad and fleshy, stringless, with a buttery flavor.

143 **Dutch Case Knife.** Used as a snap bean when young, for shelling when dry.

144 **Cutshort.** A favorite for planting in corn. Good for snap beans.

146 **Kentucky Wonder Wax.** A fine wax pole bean, very early. Pods golden yellow, with delicious flavor.

149 **Missouri Wonder or Noxall.** The earliest green podded pole or corn hill bean. Pods long, round and tender.

New Brittle Wax

BEETS OF QUALITY

CHOICE TABLE BEETS

151 Crimson Globe. An exceedingly fine table beet, of mid-season maturity. Large globe shaped roots. Flesh purplish-red with moderate zonings. **Postpaid prices:** Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; $\frac{1}{2}$ lb., 40c; 1 lb., 75c; 5 lbs., \$3.25.

152 Long Blood Red. A late variety of good quality and suited for winter storage. Drought resistant. Roots 10 to 15 inches long, dark purplish red, smooth, flesh very sweet. **Postpaid prices:** Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 20c; $\frac{1}{2}$ lb., 35c; 1 lb., 65c; 5 lbs., \$3.00.

153 Improved Extra Early Eclipse. An early variety for truck gardeners and home use. Globe shaped, medium dark red color, with zones of lighter color. A fine pickler: sweet, crisp and of tasty flavor. **Postpaid prices:** Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 20c; $\frac{1}{2}$ lb., 35c; 1 lb., 65c; 5 lbs., \$3.00.

154 Improved Extra Early Blood Turnip. Excels in flavor and appearance. A medium early variety, roots top shaped, dark red, retaining color even when cooked. Sweet and crisp. Matures quickly but is a splendid keeper. **Postpaid prices:** Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; $\frac{1}{2}$ lb., 40c; 1 lb., 75c; 5 lbs., \$3.25.

155 Crosby's Egyptian. An extra early variety preferred by market gardeners, splendid for bunching. Roots globe shaped, slightly flattened, with small tap root. Finest quality, tender and sweet. Flesh purplish-red. **Postpaid prices:** Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 20c; $\frac{1}{2}$ lb., 35c; 1 lb., 65c; 5 lbs., \$3.00.

156 Edmunds Extra Early. Recommended highly for fine quality, earliness. Good for canning. Flesh purplish red with some lighter zoning. **Postpaid prices:** Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 20c; $\frac{1}{2}$ lb., 35c; 1 lb., 65c; 5 lbs., \$3.00.

157 Detroit Dark Red. The outstanding variety for home use, truck gardeners, and canning. Fine quality, tender and sweet. Roots perfectly round. With small tap root, uniform. Flesh dark red with slight zonings. **Postpaid prices:** Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; $\frac{1}{2}$ lb., 40c; 1 lb., 75c; 5 lbs., \$3.25.

167 Early Wonder. Globe shaped with small tap root; tops medium small, erect. Flesh very dark red, and tender. Valuable as market gardener early variety, because of its smooth skin and uniform size. **Postpaid prices:** Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; $\frac{1}{2}$ lb., 40c; 1 lb., 75c; 5 lbs., \$3.25.

158 Swiss Chard. Superior for greens. Upstanding, rapid grower. **Postpaid prices:** Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 20c; $\frac{1}{2}$ lb., 35c; 1 lb., 65c; 5 lbs., \$3.00.

ASPARAGUS

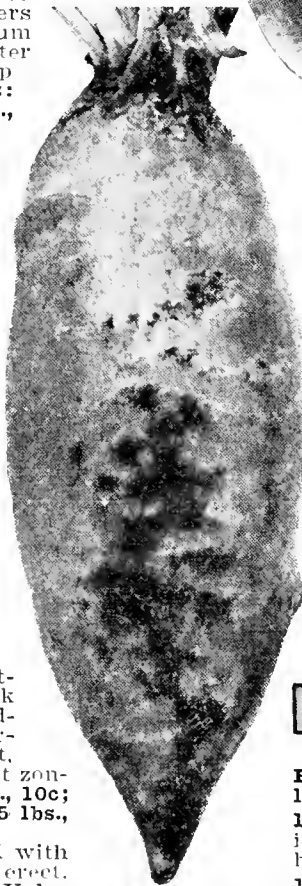

101 Washington Rust Proof. One of the market garden varieties; fine quality. Rust resistant, heavy yielding, with large stalks. **Postpaid prices:** Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; $\frac{1}{2}$ lb., 45c; 1 lb., 80c.

102 Columbian Mammoth White. Grows to a very large size. Very productive variety. **Postpaid prices:** Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 20c; $\frac{1}{2}$ lb., 35c; 1 lb., 65c.

See Page 63 for Asparagus Roots.

Red Mangel

MANGEL BEETS for Poultry and Stock

Postpaid prices on any of the four Mangel Beets: Oz., 5c; $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 5 lbs., \$1.75.

159 Mammoth Long Red. One of the most popular mangels. Enormous, weighing 25 pounds. High yielding. Color light red, flesh white with rose tinge.

160 Golden Tankard. Very large size and easily lifted. Skin deep orange, flesh yellow with white zones.

161 Danish Sladstrup. A good cropper, with high feeding value. Long, reddish-yellow.

162 Golden Globe. A round variety. Grows large; easily pulled; good keeper.

166 Giant Half Sugar. Heavy yielding, valuable for feeding. Flesh white, with good sugar content. Grows half out of the ground, making it easy to harvest.

SUGAR BEETS

Postpaid prices on any of the following Sugar Beets: Oz., 5c; $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 5 lbs., \$1.75.

164 Vilmorin Sugar. Used largely for stock feeding. Skin white tinged with rose, white flesh. A heavy yielder.

165 Klein Wanzelben. Most popular variety for sugar manufacture because of high sugar content; also valuable for stock feeding. Flesh solid white.

CELERY

Postpaid price on each of following two varieties: Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 55c; 1 lb., \$1.75.

251 White Plume. Earliest of all. Easily blanched to pure white; solid, crisp and of good quality.

253 Giant Pascal. An excellent variety for fall and winter use. Large, thick, crisp, stringless stalks with a delicious nut-like flavor. Blanches to a beautiful yellowish-white.

Postpaid prices on each of following two varieties: Pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., \$1.00; 1 lb., \$3.50.

Golden Self Blanching. Blanches readily to handsome golden yellow. Crisp, excellent quality, fine flavor.

254 Golden Heart. Of short, stocky growth. Solid, crisp, fine flavor; excellent keeper.

255 Celeriac or Turnip-rooted Celery. Roots nearly globe-shaped, are used for flavoring soup, stews, etc. **Postpaid prices:** Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.50.

CABBAGE SEED AND PLANTS

Golden Acre

LATE VARIETIES

Postpaid price on following six varieties: Pkt., 5c; oz., 15c; ¼ lb., 50c; 1 lb., \$1.75.

186 Premium Late Flat Dutch. Excellent for home and market garden use. Very solid, large, flat heads, 6 to 7 inches deep. High quality. Deserves its wide popularity.

187 Drumhead Savoy. Popular for its tasty flavor. Sweeter than ordinary cabbage. Has erinkled leaves. Round ball-like heads are very heavy. An excellent keeper.

191 Danish Ballhead. A superior variety, one of the finest late cabbages. Extremely hard heads, 8 to 9 inches across. Desirable for shipping, for storage, and for kraut.

192 Volga. Matures early, heads large and solid, disease and rot resistant. Stands long without bursting. A standard variety for market gardeners and shipping.

193 Autumn King. The kraut favorite, producing enormous heads of good quality, dark green in color, few outer leaves. Very compact.

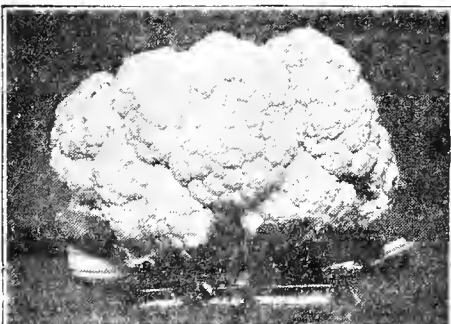

194 Mammoth Redrock. The largest and best red cabbage. It is fine for slaw, pickling or boiled. A sure header, heads weighing 10 to 15 lbs. An excellent keeper.

190 Wisconsin Hollander. Heads very attractive, good size, slightly flattened. Larger than Ballhead and a little later in maturing. Extra long keeper. Postpaid price: Pkt., 5c; oz., 30c; ¼ lb., 90c; 1 lb., \$3.00.

See Page 67 for Insecticides for Cabbage Worms.

CAULIFLOWER

Choicest Imported Seed

Danish Giant

220 Early Snowball. Most widely used early variety, especially valuable for market. Dwarf habit. A sure header, medium size. Delicious, white and tender. Postpaid: Pkt., 8c; ¼ oz., 25c; oz., 85c; ¼ lb., \$3.00; ½ lb., \$5.50.

221 Berry's Danish Giant. Snow white heads, large and compact, of excellent quality. The finest late variety. Postpaid: Pkt., 8c; ¼ oz., 25c; oz., 85c; ¼ lb., \$3.00; ½ lb., \$5.50.

EARLY VARIETIES

174 Marion Market. A Yellows-resistant strain. Heads round, crisp and tender. Will produce a crop on Yellows-infested soil where non-resistant varieties fail completely. A strain of Copenhagen Market, but matures about ten days later. Postpaid: Pkt., 5c; oz., 30c; ¼ lb., 90c; 1 lb., \$3.00.

179 Golden Acre. A new variety, sure header; heads round and very solid, few outer leaves. Used by truckers for earliest markets. Postpaid: Pkt., 5c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.50.

182 Copenhagen Market. Finest round-headed early cabbage. Heads uniform, solid, excellent quality. Few outer leaves. Short stem. Desirable likewise for early kraut. Postpaid: Pkt., 5c; oz., 20c; ¼ lb., 60c; 1 lb., \$2.00.

Postpaid price on following four varieties: Pkt., 5c; oz., 15c; ¼ lb., 50c; 1 lb., \$1.75.

175 Chinese PeTsai. Also called Celery Cabbage. Cylindrical, tapering heads. Crisp and tender.

176 Early Jersey Wakefield. Small, compact, conical heads. Our Wakefield is a select strain.

185 Norseman. A good shipping variety, heads round, weigh 8 to 10 lbs. Superb quality.

178 Extra Early Express. Extra early sort, oval head, very large for an early cabbage. A fast grower.

Danish Ballhead

MEDIUM EARLY

Postpaid prices on following five varieties: Pkt., 5c; oz., 15c; ¼ lb., 50c; 1 lb., \$1.75.

177 Henderson's Early Summer. A quick heading variety, somewhat flattened. Outer leaves have a bluish grey tinge. Heads medium sized, solid and compact. Excellent quality.

181 Early Flat Dutch. A strain popular with market and home gardeners. Heads almost round, good solid quality, weigh about 5 lbs.

183 Early Allhead. Medium early. None better for an all-purpose variety. Earliest of large cabbage. Heads flat, solid, uniform, of good quality.

184 All Seasons. Sure heading, very solid, for all purpose use, popular for kraut making. Withstands sun and dry weather.

180 Glory of Enkhuizen. A variety from Holland. Used largely for kraut, also by truck gardeners and shippers. Heads globe shaped, solid, with few outer leaves, weigh 6 to 8 lbs. Remarkably fine flavor, splendid keeper.

CABBAGE PLANTS—Frost-Proof Stock

Our plants are field grown in the south. They are much harder than plants produced indoors. They may therefore be set out earlier, thus giving real early cabbage that is so desirable to home and market gardeners. You will find a description of the different varieties given above. See below for postpaid prices. We will give you special money saving prices on larger quantities.

Prepaid prices on following varieties: No. 195 Wakefield; No. 196 Norseman; No. 198 Copenhagen Market; No. 199 Early Flat Dutch; No. 200 Golden Acre: 100 plants for 60c; 200 plants, \$1.00; 500 plants, \$2.00; 1,000 plants, \$3.25. Write for special prices on larger amounts. When ordering state clearly the varieties you want and the number of plants of each kind.

BETTER SEED MEANS BETTER GARDENS

TABLE CARROTS

Postpaid prices on the following four varieties: Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 25c; $\frac{1}{2}$ lb., 45c; 1 lb., 80c; 5 lbs., \$3.50.

201 Oxheart. A short thick variety, best for heavy soil where it can be easily lifted. Roots orange-scarlet, about five inches in length; very heavy yielder.

202 Early Scarlet Horn. One of the best for table use and liked by gardeners for early market. Crisp and sweet.

204 Danvers Half Long. None better for home gardens or market. Flesh bright orange in color and very tender. Grows six to seven inches long, tapered. Very productive.

205 Chantenay. A fine sort for bunching, market or home gardens. About 6 inches long, stump rooted, deep orange in color. A heavy yielder.

Postpaid prices on the following three varieties—Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; $\frac{1}{2}$ lb., 55c; 1 lb., \$1.00; 5 lbs., \$4.50.

210 Imperator. An outstanding new type for market garden use and for bunching. Deep rich orange in color, tapered to a blunt end. Core very indistinct.

211 Nantes, Improved Coreless. Excellent forcing variety; roots orange-red, cylindrical, blunt ended, very small tap root. Very crisp and tender.

212 New Coreless. Valuable for home gardens; also a good shipper. Fine flavored, tender and sweet. Practically coreless. Tops are small, roots bright orange, uniform size, blunt ended.

STOCK CARROTS

Postpaid prices on following four varieties: Oz., 8c; $\frac{1}{4}$ lb., 20c; $\frac{1}{2}$ lb., 35c; 1 lb., 65c; 5 lbs., \$3.00.

206 Long Orange. Suitable for stock or table use. Roots red-orange, tapered to a point. A good winter keeper.

207 White Belgian. Grows well above the ground, making it easy to pull. One of the best varieties for feeding. Flesh white.

208 Mastodon. Flesh white, crisp, solid, very sweet in flavor. Roots frequently measure 15 to 20 inches in circumference. A heavy yielder.

209 Victoria. A large variety, and heavy yielder. Flesh yellow, very nutritious.

New York Purple

Carrot Chantenay

CUCUMBER

225 Berry's Champion Pickler. The best variety for home gardens. Excellent for slicing and pickling. Fruits dark green in color, uniform in size, straight and smooth. We recommend this variety very highly. Postpaid—Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 50c; $\frac{1}{2}$ lb., 85c; 1 lb., \$1.49.

Postpaid prices on the following eight varieties—Pkt., 5c; oz., 12c; $\frac{1}{4}$ lb., 40c; $\frac{1}{2}$ lb., 60c; 1 lb., 95c.

226 Klondike. Medium sized variety, dark green in color, fine quality. Vines vigorous and productive. Used for shipping.

228 Chicago Pickle. One of the most popular pickling varieties; also good for slicing. Mid-season. Fruits medium green, uniform in size.

229 Early Frame. A popular variety, excellent for pickling or slicing. Fruits bright medium green, 6 to 7 inches long. $2\frac{1}{2}$ inches thick, uniform. Recommended for home gardens and shipping to nearby markets.

230 Early Green Cluster. A fine pickling variety and for early slicing. Very prolific, fruits small, pale green, borne in bunches.

231 White Spine Evergreen. Excellent for home garden, and widely used for shipping. Fruits dark green, hold color well. Crisp and tender.

232 Cool and Crisp. Extra early variety, medium sized fruits, crisp and tender, fine mild flavor.

233 Boston Pickler. Very early and prolific; uniform size, slightly tapered, weigh about $1\frac{1}{2}$ lbs. Dark green. Fine for table.

234 Improved White Spine. Vigorous and productive, fruit uniform, seven to nine inches long, very showy. Profitable for market gardeners.

Postpaid price on the following three varieties—Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 45c; $\frac{1}{2}$ lb., 70c; 1 lb., \$1.15.

227 Davis Perfect. Mid-season type, excellent in quality and productiveness. Fruits dark green, weigh about 2 lbs., flesh crisp and of good quality.

236 Improved Long Green. Standard late variety. Splendid for slicing, excellent quality. Fruits dark green, weigh 3 to $3\frac{1}{2}$ lbs., flesh white, firm and crisp.

237 Stays Green. A splendid variety recently introduced; adapted for shipping; holds color and firmness well. Early, medium sized, nearly square ended. Prolific.

Berry's Champion Pickle Cucumber

EGGPLANT

Postpaid price on following 2 varieties: Pkt., 5c; oz., 30c; $\frac{1}{4}$ lb., 95c; $\frac{1}{2}$ lb., \$1.60; 1 lb., \$2.95.

310 Improved New York Purple. Our strain of this leading market variety is unsurpassed. Skin glossy black purple, flesh white.

312 Black Beauty. Valuable to home gardeners and truckers for market. Ten days earlier than New York. Entirely spineless, sets fruit freely. Fruits are smooth, holding well after picking.

ENDIVE

Postpaid prices on following three varieties: Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 25c; $\frac{1}{2}$ lb., 45c; 1 lb., 75c.

315 New Moss Curled. Very fine variety, with fine curled leaves. One of the best. Desirable for salads.

316 White Curled. This variety needs no bleaching. Golden yellow, creamy white at heart. Handsome in appearance, fine flavor.

317 Batavian Broad Leaved. Heads large with broad, thick leaves. Used for flavoring soups, stews, etc. When tied up, bleaches cream white.

SWEET CORN AND LETTUCE

EARLY SWEET CORN

Postpaid prices on all Sweet Corns (except Early Sensational): Pkt., 5c; ½ lb., 15c; 1 lb., 27c; 3 lbs., 72c; 5 lbs., \$1.00. Not prepaid: 10 lbs., \$1.60.

277 Golden Bantam. The favorite early yellow sweet corn. Ears 5 to 6 inches long, kernels broad, deep golden yellow, very sweet, juicy and tender. It is hardy and can be planted early. Stalks often have 2 ears.

278 Delues Golden Giant. A mid-season yellow variety, good for home and market garden planting. Matures about a week after Golden Bantam, about twice as large. Fair quality, rich sugary flavor.

279 Early White Cory. A popular large-eared early white variety. Ears rather thick, 6 to 7 in. long, 10-12 rowed. Kernels white, sweet and of good flavor. A favorite for early market.

280 Peep-o-day. Remarkable for its earliness, tenderness and extreme sweetness. A very heavy yielder.

281 Early Sunshine. An extra early yellow variety particularly desirable for market garden use. Four to five days earlier than Golden Bantam. Good sized ears, 10 to 12 rowed. Kernels golden yellow, sweet, tender, and of good flavor.

282 Howling Mob. Early and productive. Large thick ears, 7 to 9 inches long. Kernels clear white, plump, and of good quality. A favorite for the home garden and market.

283 Early Minnesota. A very dependable productive variety, extra early. Ears are long, with large white grains, sweet and tender. Good producer, desirable for market, home and canning uses.

276 Early Sensational. We believe it has the finest flavor of any variety; extra sweet, juicy and tender, kernels creamy white. Early and very prolific, often bearing two to three ears on a stalk. Postpaid prices: Pkt., 8c; ½ lb., 20c; 1 lb., 35c; 3 lbs., 90c; 5 lbs., \$1.25. Not prepaid: 10 lbs., \$2.00.

LATE SWEET CORN

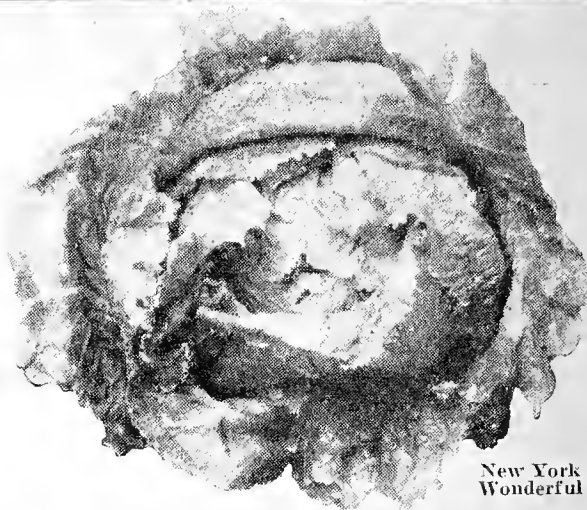

Postpaid prices on all Sweet Corns (except Early Sensational): Pkt., 5c; ½ lb., 15c; 1 lb., 27c; 3 lbs., 72c; 5 lbs., \$1.00. Not prepaid: 10 lbs., \$1.60.

284 Country Gentleman. One of the best known late varieties, superior for home and market gardens and commercial canners. Stalks often with two ears. Ears 7 to 8 inches long, with narrow irregular grains of good quality, sweet and tender.

287 Stowells Evergreen. The best known standard main crop sweet corn, excelling all others. Ears 8 inches long, 16 to 20 rowed. Very productive. Kernels clear white, deep, medium width, sugary and tender.

288 Mammoth Late. A very large variety, producing large thick ears, well tipped; 14 to 16 rowed. Kernels sweet and tender, snowy white, and of good flavor.

FOR HYBRID SWEET CORN, SEE PAGE 70.

New York
Wonderful

HEADING VARIETIES

Postpaid prices on all Lettuce (except Berry's Bountiful and New York Wonderful): Pkt., 5c; oz., 10c; ¼ lb., 30c; ½ lb., 50c; 1 lb., 90c.

330 May King. An extremely early, fast growing type. Heads small and compact, with a fine, rich, buttery flavor.

331 Crisp as Ice. Attractive bronze, glassy leaves. Heads solid, medium sized, well blanched and of delicate flavor. Popular for the home garden.

332 Improved Hanson. Unsurpassed for home and market garden use. Heads large and compact, tender and sweet, light yellowish-green color.

333 Selected Big Boston. A very popular variety for forcing; splendid shipper. Very solid heads, extremely tender. Leaves tinged with brown, heart light golden yellow.

334 California Cream Butter. Desirable for market garden and shipping short distances. A cabbage lettuce, particularly rich and buttery to the taste.

336 Iceberg. A large late variety. Conical shaped heads, of medium size, crisp and sweet, white interior. Outer leaves light green tinged with brown, crinkled.

Postpaid prices on Berry's Bountiful and New York Wonderful: Pkt., 5c; oz., 14c; ¼ lb., 40c; ½ lb., 70c; 1 lb., \$1.20.

335 Berry's Bountiful. Grows beautiful compact heads, weighing 2 to 3 lbs. Exceedingly tender, creamy flavor. A splendid variety for shipping. None excels.

337 New York Wonderful. The outstanding shipping variety. Leaves dull green, heads large and solid, crisp and of excellent quality, fine flavor.

LOOSE LEAF VARIETIES

Postpaid prices on all Lettuce (except Berry's Bountiful and New York Wonderful): Pkt., 5c; oz., 10c; ¼ lb., 30c; ½ lb., 50c; 1 lb., 90c.

326 Black Seeded Simpson. A popular variety, leaves large, light green in color. Best for forcing. Tender.

327 Early Curled Simpson. One of the most widely used for home gardens. Very early, non-heading, of excellent flavor.

328 Grand Rapids. Excellent for early planting outside, and for forcing. Superior quality, beautiful appearance, leaves light green, heavily fringed.

329 Early Prizehead. An early non-heading variety. Remains tender and crisp. Leaves medium green, light brown edges.

POP CORN

Postpaid prices on White Rice and Japanese Hull-less: Pkt., 5c; ½ lb., 20c; 1 lb., 30c; 3 lbs., 75c; 5 lbs., \$1.00. Not prepaid: 10 lbs., \$1.75.

301 White Rice. Grains clear white, long and pointed at the top. Pops out large and tender.

303 Japanese Hull-less. Dwarf grower, small ears. Kernels hull-less, snowy white when popped, fine flavor.

304 South American (Dynamite). Kernels yellow, pop to immense size. Stalks grow larger than field corn, with two to three ears on a stalk. Postpaid prices: Pkt., 5c; ½ lb., 20c; 1 lb., 35c; 3 lbs., 90c; 5 lbs., \$1.25. Not prepaid: 10 lbs., \$2.00.

MUSK MELONS

SALMON FLESHED

402 Berry's Favorite. An oval melon, weighing about 3 lbs. Pink fleshed, with small seed cavity. Flesh is sweet and spicy. A very good shipper. Equally choice for home or market. **Postpaid:** Pkt., 8c; oz., 12c; $\frac{1}{4}$ lb., 40c; $\frac{1}{2}$ lb., 70c; 1 lb., \$1.25; 5 lbs., \$5.75.

411 Sugar or Honey Rock. Medium to large; a good shipper. Golden skin with very fine netting. Flesh thick, orange-salmon, with fine flavor. **Postpaid:** Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 60c; 1 lb., \$1.00; 5 lbs., \$4.50.

Postpaid prices on following eleven varieties: Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 25c; $\frac{1}{2}$ lb., 45c; 1 lb., 80c; 5 lbs., \$3.50.

404 Burrell's Gem. A good shipping melon of the Rocky Ford type, with deep flesh, salmon colored, of excellent flavor. Weighs 3 lbs.

406 Improved Large Yellow Cantaloupe. Weighs 15 to 20 lbs., size about 9 x 6 inches. Flesh thick, light tan in color, very sweet and spicy.

403 Golden Prince. One of our newest selections; sweetest, richest flavored of all golden fleshed melons. Not a good shipper.

410 Shumway's Giant. The largest of pink meated melons, weighing 15 to 20 lbs. Creamy yellow. Very early; a fine sort for the home garden.

413 Hoodoo (Hearts of Gold). Fruits practically round, weighing about 2 lbs., small seed cavity. Tender, juicy, sweet and delicious. A good shipper.

414 Banana. Resembles a banana in shape, growing 18 to 30 inches long. Flesh salmon color, with delicious banana-like flavor.

415 Emerald Gem. One of the best early varieties for the home garden; not a good shipper. Fruits small to medium, globe shaped, slightly ribbed. Skin deep green, flesh salmon color.

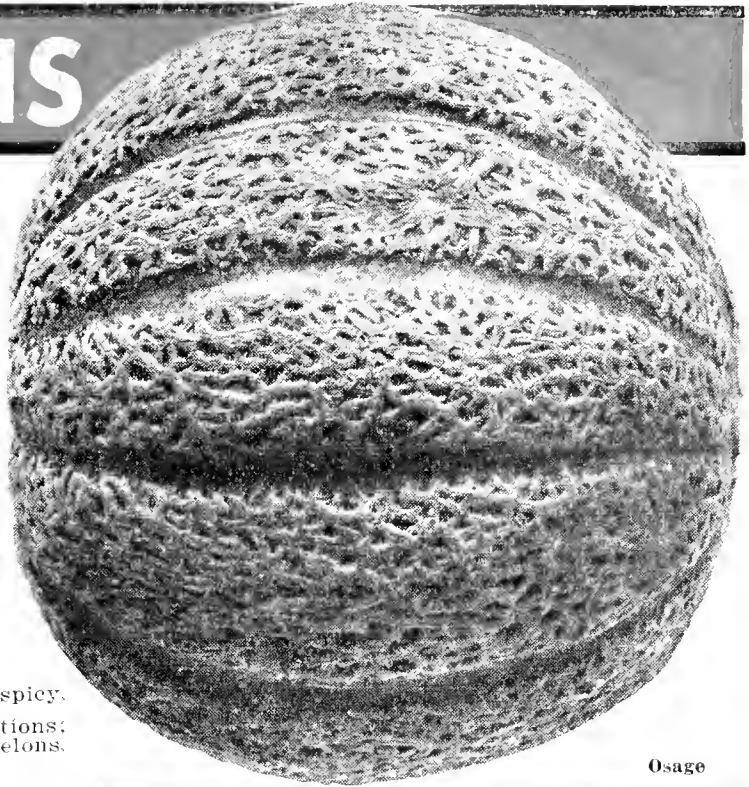

416 Tip Top. Very productive, of fine appearance, showy. Fruits pale green, turning to yellow at maturity; flesh bright salmon, sweet and delicious. Weighs about 8 lbs.

418 Osage. The finest flavored "Queen" of salmon-fleshed melons. Flesh exceptionally thick, tender and sweet. Fruits distinctly ribbed and netted; weigh around 6 lbs.

419 Lake Champlain. A melon valued for its extreme earliness and splendid for sections with short growing seasons. Medium size, moderately netted, practically round. Beautiful sweet, salmon-colored flesh.

420 Hales Best. One of the earliest of the large melons.

Early Select
Rocky Ford

Osage

GREEN FLESHED

Postpaid prices on following five varieties: Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 30c; $\frac{1}{2}$ lb., 50c; 1 lb., 90c; 5 lbs., \$4.00.

401 Extra Select Rocky Ford. Probably the most widely known cantaloupe. Almost round, covered with netting. Green flesh of delicious flavor. Fruits weigh about 2½ lbs. Our seed extra selected.

407 Pollock No. 25. An excellent shipping variety of the Rocky Ford type. Flesh thick, deep salmon center shading to green tone near rind; sweet spicy flavor.

408 Montreal Market. Fruits very large, thick, green meated, delicious and sweet. Often weigh 18 lbs. Almost round, deeply ribbed, well netted.

412 Early Hackensack. A standard first early variety for market. Hardy and pro-

ductive. About 6 inches deep and 7 inches in diameter, distinctly ribbed, coarsely netted. Flesh green, thick, of fine quality; spicy flavor.

417 Gold Lined Rocky Ford. Flesh beautiful green, gold in the center. Very sweet and delicious. Oval, covered heavily with gray netting. Weighs about 2½ lbs.

403 Honey Dew. Weighs 6 to 8 lbs., round in shape. Skin white and smooth, flesh light green, fine grained and sweet. **Postpaid:** Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 60c; 1 lb., \$1.00; 5 lbs., \$4.50.

405 Small Green Nutmeg. Flesh thick of fine flavor. Fruits deeply ribbed and well netted, weigh 2½ to 3 lbs., almost round. Popular with market gardeners. Very early. **Postpaid:** Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 25c; $\frac{1}{2}$ lb., 45c; 1 lb., 80c; 5 lbs., \$3.50.

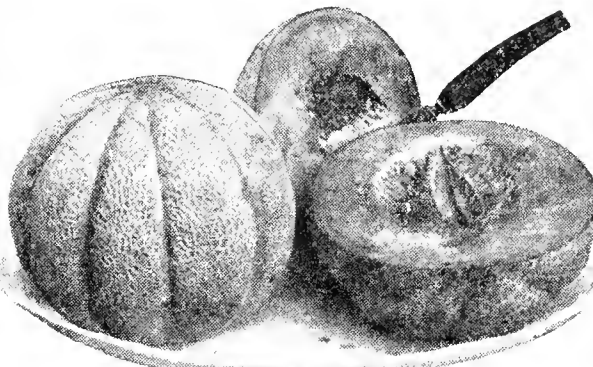

MUSTARD

Postpaid prices on following three varieties: Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 18c; $\frac{1}{2}$ lb., 30c; 1 lb., 55c.

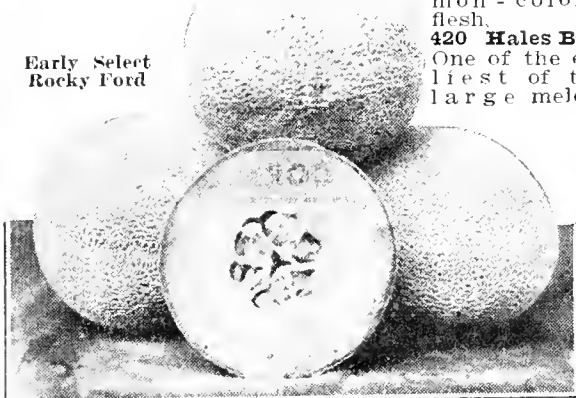

710 Chinese Curled. The best known and most popular for greens. Large leaves. Ready for use in 6 weeks after sowing.

711 White. Best for salad or general use. Grows rapidly. Goes to seed quickly.

712 Brown. Stronger and more pungent than other varieties. Seeds used for ground mustard.

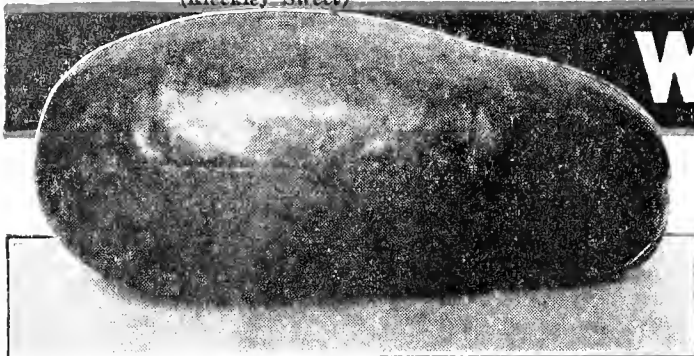

Berry's Favorite Musk Melon

Fruits oval with medium heavy netting. Flesh deep salmon color, firm, fine-grained, richly flavored.

WATER MELONS

WHITE SEEDED

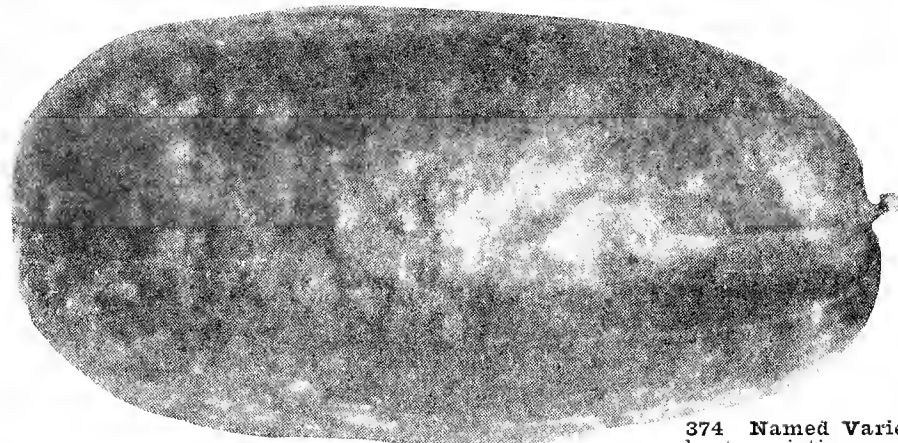

Postpaid prices on each of following thirteen varieties: Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 20c; $\frac{1}{2}$ lb., 35c; 1 lb., 65c; 5 lbs., \$2.75.

352 Halbert's Honey. One of the best for home and local markets; not a good shipper. Color dark green. Thin rind, rich red sugary flesh of fine texture. Medium weight.

354 McIver's Sugar. Very sweet. Attain a great weight, very handsome appearance; never crack. Very productive and hardy.

355 Peerless or Ice Cream. Flesh bright scarlet, sweet and of excellent flavor. Medium sized. One of the best early melons for the home garden.

356 New Irish Grey. Large, long grey melon of excellent quality. Rich red flesh of good texture. Rind thin but very tough. Good shipper.

Halbert Honey

359 Monte Cristo. Northern strain of Kleckley's Sweet. Grows large; very sweet and luscious.

360 Tom Watson. Very popular shipping melon of the long type. Early; keeps well. Flesh bright red, of excellent flavor.

362 Light Icing. A long greenish grey melon of medium size. Rich red flesh of delicious flavor and sweetness. Not a good shipper.

363 Fordhook Early. A good extra early melon. Oval, medium green with dark green stripes, thin rind. Good for North. Flesh pink, tender and sweet.

367 Alabama Sweet. Melons long green, irregularly striped. An excellent shipping variety. Flesh bright red, fine grained, sweet.

368 Berry's Improved Kleckley Sweet. A good melon, excellent for home and market gardens. Good for shipping short distances. Dark green, medium sized; flesh rich red, crisp, tender, delicious.

369 Golden Honey. Dark green, medium sized, long oval shape. Cream colored flesh, which is very tender and delicious. A very fine melon.

370 Georgia Rattlesnake. A large long melon, striped light and dark green. Rind rather thick; flesh red, of good quality. Very prolific and hardy; withstands drought well.

372 Phinney's Early. Small, long type, light and dark green striped. An early melon. Very prolific. Flesh pinkish red.

ALSO SEE PAGE 70 FOR WATERMELONS

Postpaid prices on each of following three varieties: Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; $\frac{1}{2}$ lb., 55c; 1 lb., 90c; 5 lbs., \$3.75.

364 Berry's Sugar Stick. A very fine melon, flesh deep rich red, very sweet and delicious. Rind very thin, but stands shipping.

377 Stone Mountain. One of the best. Light veined with dark green. Fruits round, weigh about 45 lbs. Flesh rich red of fine texture, tender, sweet, luscious, free from stringiness.

378 Pride of Muscatine. A new Wilt-Resistant strain of Kleckley Sweet, recommended in areas where wilt is prevalent. Rind is thick, dark green skin, and red flesh. Is a good shipper.

BLACK SEEDED

Postpaid prices on each of following seven varieties: Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 20c; $\frac{1}{2}$ lb., 35c; 1 lb., 65c; 5 lbs., \$2.75.

353 Hungarian Honey. Round in shape, skin dark green. Flesh bright red, and very sweet. Mid-season.

357 Harris Earliest. Fine for climate where seasons are short. Fruits round, medium sized, dark green striped with light green. Good flavor.

358 Sweetheart. Vines vigorous and productive. Fruits large, oval. Rind thin, flesh bright red, firm, sweet and tender. A very fine shipper.

365 Coles Early. A very early round melon of good quality. Dark green with lighter stripes, thin rind. Flesh bright red. Good for planting in north.

371 Berry's New Winter. Winter keeper. Flesh sweet, luscious, and of excellent quality.

373 Cuban Queen. Large melon, round, light and dark green striped. Very prolific. Rind medium thick; flesh red, very crisp and sugary.

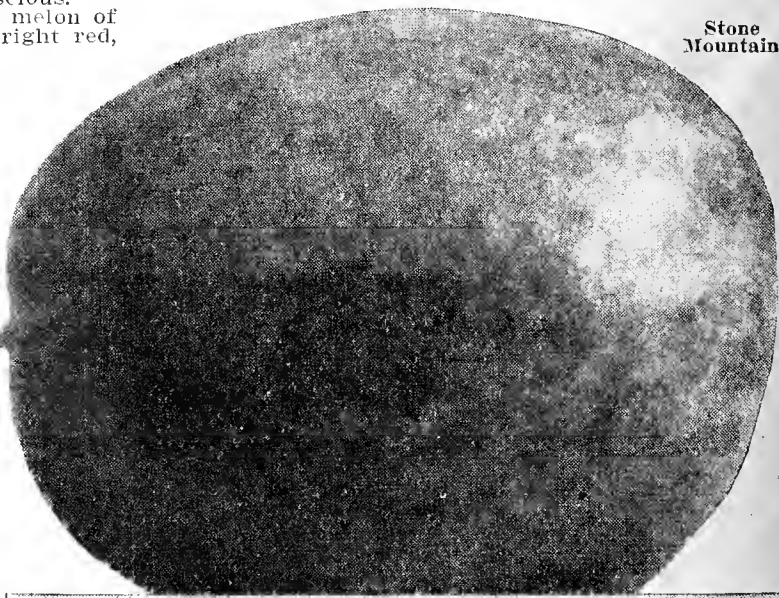

MISCELLANEOUS

5 lbs., \$2.50; 10 lbs., \$4.75.

526 Crimson Giant. The largest of early radishes. Suitable for early forcing or planting out-of-doors. It is always crisp, tender and of fine flavor. Never gets pithy.

528 Early Scarlet Turnip. An early maturing variety. Roots small, round, skin red. Flesh very white, mild and crisp.

529 Early Round Dark Red. A market gardener favorite. Makes rapid growth and is one of the sweetest, most tender radishes on our list.

530 Early White Turnip. The earliest white radish. Flesh pure white, crisp and tender. Has a short top and is a quick grower.

531 Early Long Scarlet Short Top. Excellent for home or market garden. Roots long and slender, of rich scarlet color. Extra short tops. A quick grower.

532 White Strasburg. A variety popular with market gardeners. Roots about five inches long, thick at the shoulder, tapering to a point. Crisp and tender.

533 French Breakfast. One of the most popular varieties, excellent for home garden, forcing or early outdoor planting. Excels in appearance and quality. Medium sized, olive-shaped. Scarlet with a white tip. Flesh white, crisp and delicious.

534 Cincinnati Market. The finest long red radish. Crisp, mild and tender. Early.

535 Early Scarlet Turnip, White Tipped. A favorite for early outdoor planting. Fine in quality and appearance. Roots nearly round, carmine red, white tipped, crisp and mild.

Iceberg Radish

537 Long White Vienna. A very rapid grower. Roots 5 to 6 inches long, white and crisp.

538 Improved Scarlet Globe. Our seed is extra select. One of the best forcing varieties. Roots bright scarlet, globular, crisp, tender and of fine quality.

539 Rosy Gem. Globular with scarlet top, blending into white. Exceedingly tender and delicious.

541 New Icicle. The most popular white radish. Grow long and slender, free from side roots. Flesh clear white, brittle, mild flavored.

545 Saxa. An early variety, used principally for forcing. Small bright scarlet in color. Flesh white, crisp and mild.

540 Mixed. We offer an excellent assortment of the best varieties of radishes, early, medium and late. Postpaid prices: Pkt., 5c; oz., 7c; ¼ lb., 15c; ½ lb., 25c; 1 lb., 45c; 5 lbs., \$2.00.

WINTER RADISHES

Postpaid prices on all radish (except mixed):
Pkt., 5c; oz., 8c; ¼ lb., 20c; ½ lb., 35c; 1 lb., 55c;
5 lbs., \$2.50; 10 lbs., \$4.75.

542 Chinese Rose. A winter radish: bright rose-red in color; flesh white, very firm. Keeps a long time when stored in sand

543 Long Black Spanish. One of the best keeping winter radishes. Black skinned; flesh white, crisp and pungent.

544 California Mammoth White. One of the best varieties for fall planting. Attractive in appearance. Flesh solid, crisp and sweet, of fine quality.

RHUBARB or Pie Plant

Postpaid prices either variety: Pkt., 5c; oz., 10c; ¼ lb., 30c; ½ lb., 55c; 1 lb., \$1.00.

626 Victoria. A splendid variety for family use. Sometimes called "wine plant."

627 Mammoth. Market garden variety, very large and a wonderful producer.

WINTER SQUASH

Postpaid prices on each of following 8 varieties: Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 60c; 1 lb., 95c; 5 lbs., \$4.25.

551 Chicago Warty Hubbard. Fruits weigh about 14 lbs. Very dark green, heavily warted. Flesh deep orange-yellow, dry and sweet. A prolific, good keeping variety.

552 Red or Golden Hubbard. Similar to Green Hubbard, but a little smaller. Fruits weigh 8 to 10 lbs., orange-red with faint cream colored stripes. Flesh very thick, orange-yellow, dry and sweet.

553 Mammoth Chili. An exhibition squash, growing to immense size. Fruits mottled orange colored; flesh fine grained and sweet.

554 Improved Hubbard. Standard winter variety for home and market gardeners and the best for shipping. Our strain is very early. Dark bronze-green, rind hard and tough, slightly warted. Fruits weigh about 12 lbs., flesh very thick-orange-yellow, fine grained, sweet and dry.

556 Pike's Peak or Sibley. Flesh is solid and thick, orange colored, has a rich, delicate flavor. A fine baking variety.

557 Table Queen or Des Moines. Desirable for home and market garden; also good shipper. Fruits acorn-shaped, smooth, thin-shelled, dark green, mature early. Six inches long, 3 inches thick. Flesh light yellow, with sweet flavor. Makes splendid pies, bakes well.

558 Banana. A late variety, cylindrical. Flesh thick, fine grained, orange-yellow, and of sweet flavor. A great favorite.

559 Kitchenette. A small strain of the Hubbard type, about two-thirds as large. Ripens in about six weeks. Of fine flavor.

550 Blue Hubbard. Fruits blue, shell hard and thick. Flesh yellow, fine grained, of fine flavor. Good for pies. Keeps well. Postpaid price: Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; $\frac{1}{2}$ lb., 70c; 1 lb., \$1.25; 5 lbs., \$5.00.

SUMMER SQUASH

Postpaid prices on each of following 4 varieties: Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 25c; $\frac{1}{2}$ lb., 45c; 1 lb., 70c; 5 lbs., \$3.00.

561 Mammoth White Bush Scallop. Also called Patty Pan. White skinned squash with light green flesh. Shape is round and flat, scalloped on edges. Should be used when young and tender.

562 Early Yellow Bush Scallop. Called Yellow Patty Pan. Orange-yellow skin, flesh bright yellow of choicest quality. A splendid sort.

563 Giant Yellow Summer Crookneck. Widely used by market gardeners and shippers. Fruits weigh about 5 lbs. Flesh thick and yellow, of rich, meaty flavor.

564 Giant White Summer Crookneck. Makes one of the most attractive of summer squashes. Beautiful ivory-white skin. Flesh tender, of good flavor.

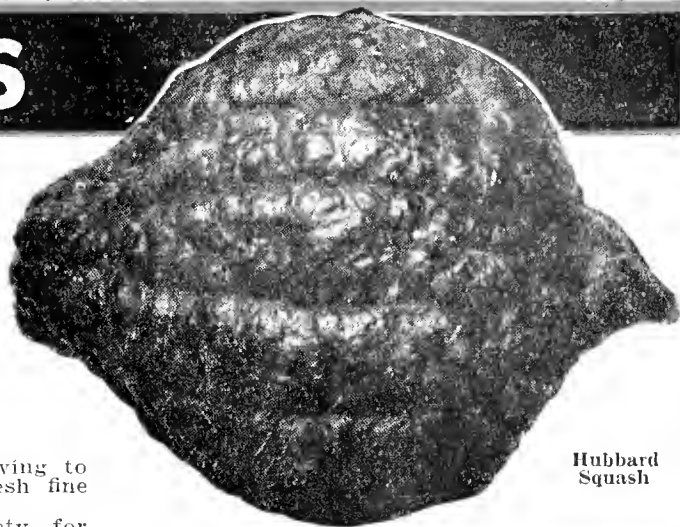

SALSIFY

571 Mammoth Sandwich Island. Vegetable Oyster. An improved variety with roots 6 to 8 inches long, thick, tapering, smooth. Decided oyster-like flavor. Fine for soups, etc. Postpaid price: Pkt., 5c; oz., 12c; $\frac{1}{4}$ lb., 40c; $\frac{1}{2}$ lb., 70c; 1 lb., \$1.10.

MAMMOTH SUNFLOWER

The sunflower seeds have a very high feeding value and are greatly relished by poultry. The Mammoth Russian is the largest of Sunflowers. Plant about the same as corn. If you have no field space to spare, plant them in corners, along fences, etc.

Postpaid prices: Pkt., 5c; $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 15c; 1 lb., 20c; 5 lbs., 75c. Write for special prices on larger amounts.

Hubbard Squash

SPINACH

581 New Zealand. It thrives in hot, dry weather, and almost any soil. May be cut throughout the summer, but cannot stand frost. Leaves small, broad and pointed, while plants are large and spreading. Postpaid price: Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; $\frac{1}{2}$ lb., 40c; 1 lb., 70c; 5 lbs., \$3.25.

Postpaid prices on each of following 4 varieties: Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 5 lbs., \$1.75.

582 Long Standing. A quick-growing, long-bearing variety for mid-summer use. Plants grow low and spreading, with pointed, dark green, intensely crumpled leaves. May be sown in spring or fall.

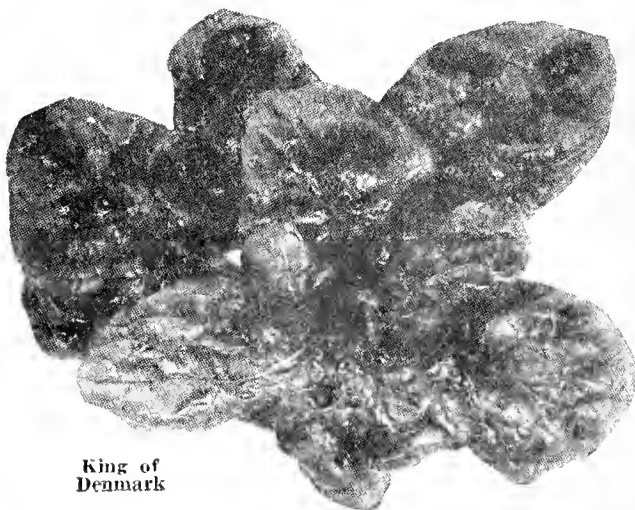

Table Queen

583 Bloomsdale Savoy. An early variety. Popular for local and long distance markets, for canning, and home use. A long keeper after cutting. Leaves medium size, crumpled, glossy dark green.

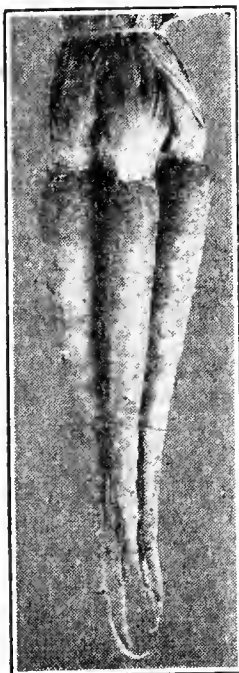

584 King of Denmark. Very desirable for canning and for market gardens. Leaves broad, rounded, very dark green, somewhat crumpled. An exceptionally long standing type, remaining in condition from one to two weeks.

585 Virginia Blight Resistant. A Savoy-leaved variety, leaves large, blistered, and crumpled, glossy green. Upstanding, vigorous plants, resistant to blight and mosaic, seeding rather early. Fine for fall planting.

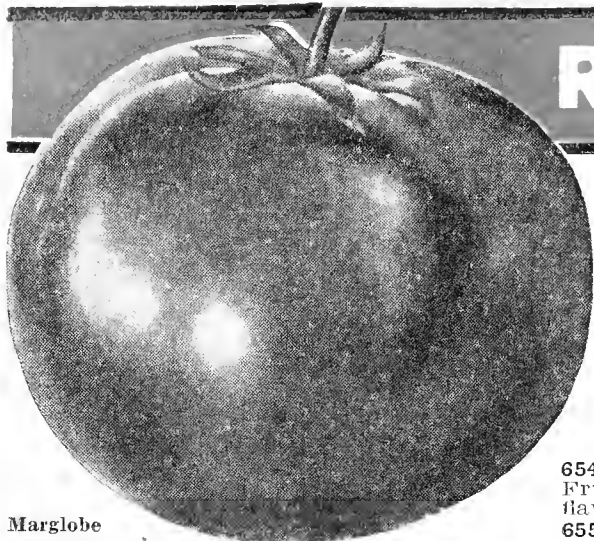

We urge you to grow some of our improved varieties of spinach. It is good for all the family. Tones up the system. Make a succession of plantings.

King of Denmark

Vegetable Oyster Salsify

Marglobe

LATE or MAIN CROPS

Postpaid prices on each of following 2 varieties: Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 60c; $\frac{1}{2}$ lb., \$1.00; 1 lb., \$1.79.

661 Matchless. One of the best in its class. A mid-season variety. Plants strongly productive. Fruits cardinal red, uniform in size and shape, quite smooth; well adapted to canning.

663 New Stone. A favorite canning variety. Vines large, very productive. Fruits large, smooth, attractive scarlet-red, of fine flavor.

Postpaid prices on each of following 6 varieties: Pkt., 5c; oz., 30c; $\frac{1}{4}$ lb., \$1.00; $\frac{1}{2}$ lb., \$1.85; 1 lb., \$3.40.

662 Golden Queen. The standard large yellow variety for main crop planting. Fruits are smooth and large, uniform in size, and of attractive golden yellow color. They are solid and meaty, mild and delicious in flavor.

664 Berry's New Tree. Plants are of dwarf tree type, strong and erect. Fruit bright red, medium sized, smooth, fairly solid, and of good flavor.

666 Berry's Improved Ponderosa. This is a variety popular with market gardeners. Vines large and spreading; bear until frost. Fruits are purplish-pink and grow to immense size. They are solid, meaty and of inviting flavor.

667 Yellow Plum. Oval yellow plum-shaped fruit about 2 inches long. Used for pickling and preserves. Very productive.

668 Red Pear. Fruits pear shaped, borne in clusters; valuable for preserving and salads. Sweet and delicious.

669 Ground Cherry or Husk Tomato. Fruits small, round, yellow, of delicate flavor. Used for preserves.

671 Oxheart. A newer and distinctly attractive variety that sells well on the market. Fruits grow extremely large, heart-shaped, pink. Very solid, meaty and of a delicious sub-acid flavor. It is almost seedless. We urge you to raise some Oxhearts.

Postpaid prices: Pkt., 5c; oz., 40c; $\frac{1}{4}$ lb., \$1.45; $\frac{1}{2}$ lb., \$2.70; 1 lb., \$4.90.

RICH TOMATOES

Write for Quantity Lot Prices

EARLY TOMATOES

Postpaid prices on each of following 4 varieties: Pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 75c; $\frac{1}{2}$ lb., \$1.40; 1 lb., \$2.40.

652 John Baer. An excellent early variety for truck gardening or canning. Vines of medium height. Fruits medium sized, scarlet red, will not burst when ripe.

653 Earlibell. Fruits are beautiful deep glossy red, remarkably large for extra early. Solid and meaty, of fine flavor. Vines vigorous and productive.

654 Early June. The earliest of the pink fruited varieties. Fruits medium sized, smooth, purplish-pink, of fine sub-acid flavor.

655 Earliana. Standard early variety for home or market garden. Vines medium small, very productive. Fruits deep scarlet, medium to large, exceptionally smooth.

Postpaid price on each of following 6 varieties: Pkt., 5c; oz., 28c; $\frac{1}{4}$ lb., 80c; $\frac{1}{2}$ lb., \$1.50; 1 lb., \$2.75.

656 Field's Early Redhead. Globe shaped, slightly flattened. Color deep blood-red. Extra smooth, seldom cracks open. Good thrifty grower, producing abundantly.

Earliana

658 Livingston Beauty. One of the best pink fruited sorts, second early. Plants sturdy, productive. Fruits medium large, smooth, purplish-pink of good quality.

660 Acme. A second early variety, desirable for home gardens and shipping. Vines hardy and productive; fruits set in clusters. Purplish-pink, medium sized, smooth.

665 New Marglobe. A splendid variety introduced by the U. S. Department of Agriculture. Resistant to disease, wilt and rust. It is justly popular as an all-purpose variety, for home gardening, market, and canning.

Fruits ripen evenly to a rich scarlet, are medium large, smooth; flesh solid, meaty and of a delicious flavor. Vines vigorous and very productive.

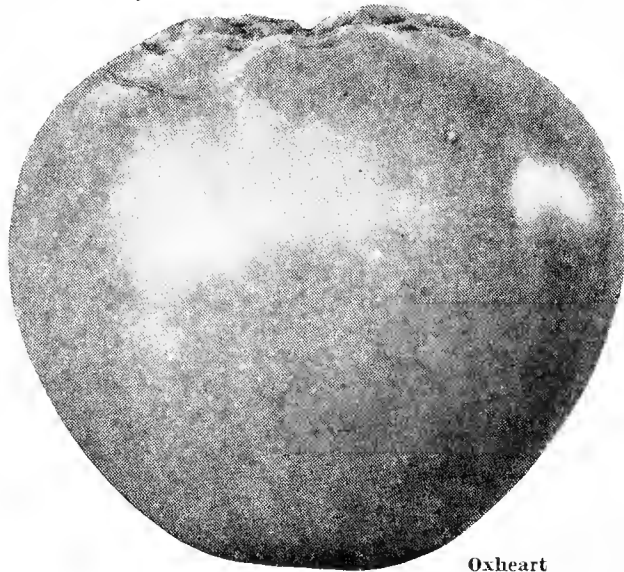

670 Breakaday. A Wilt Resistant variety, developed by U. S. Department of Agriculture. Outstanding for early maturity and productiveness. Fruits orange-red, medium large, smooth, solid and heavy.

673 Pritchard or Scarlet Topper. Fruits large, smooth, and solid, bright scarlet. Heavily productive; fine for home use or market. A disease-resistant variety.

Postpaid prices on each of following 2 varieties: Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 60c; $\frac{1}{2}$ lb., \$1.00; 1 lb., \$1.79.

659 Chalk's Early Jewel. Produces the largest, smoothest tomatoes in its class. Color bright red, flavor delicious, fruits solid and meaty. A second early variety. Prolific yielder.

672 Greater Baltimore. Fruits are large, thick-flat, smooth and of a deep red color. Used extensively for canning and by market gardeners. Vines are large and medium heavy.

Oxheart

LIVE VIGOROUS SEED

Brussels Sprouts

MISCELLANEOUS

676 Brussels Sprouts. Of the cabbage family highly desirable for home and market garden. Plants thickly set with firm cabbage-like balls, maturing successively. **Postpaid price:** Pkt., 5c; oz., 15c; ¼ lb., 50c; ½ lb., 85c; 1 lb., \$1.50.

680 Cress, Fine Curled. A hardy quick growing plant, leaves finely cut. Its pleasing pungent flavor makes it excellent for garnishing. **Postpaid price:** Pkt., 5c; oz., 10c; ¼ lb., 25c; ½ lb., 40c; 1 lb., 65c.

681 Cress, Water. Grows along streams and by ponds. Long stems, broad, thick leaves, with spicy flavor. Desirable for salads, and as a garnish. **Postpaid price:** Pkt., 5c; oz., 35c; ¼ lb., \$1.15; ½ lb., \$2.00; 1 lb., \$3.75.

690 Kale, Dwarf Green Curled Scotch.

A member of the cabbage family, used for greens. Leaves large and crimped. One of the most palatable of vegetables. **Postpaid price:** Pkt., 5c; oz., 8c; ¼ lb., 28c; ½ lb., 45c; 1 lb., 85c.

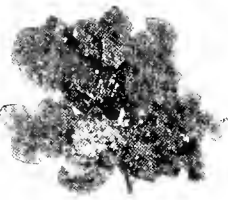

701 Leek, London Flag. Belongs to the onion family; used for soups and stews. **Postpaid price:** Pkt., 5c; oz., 15c; ¼ lb., 55c; ½ lb., \$1.00; 1 lb., \$1.90.

715 Vegetable Orange, or Vine Peach. Fine for pickles, preserves, etc. **Postpaid price:** Pkt., 5c; oz., 12c; ¼ lb., 35c; ½ lb., 65c; 1 lb., \$1.00.

720 Okra, Long Green Podded. The best variety that you can plant. Plants dwarf and very productive. Valuable for soups and stews. **Postpaid price:** Pkt., 5c; oz., 8c; ¼ lb., 20c; ½ lb., 35c; 1 lb., \$50c.

705 Collards, Georgia. A good substitute for cabbage which succeeds on poor soil, grown especially in the south. Can be boiled like cabbage or used as cole slaw. **Postpaid:** Pkt., 5c; oz., 15c; ¼ lb., 35c; 1 lb., \$1.00.

706 Broccoli, Italian Green Sprouting. Forms large head consisting of a cluster of small heads. Both stems and heads are cooked and served like cauliflower, but is of a more delicate flavor. **Postpaid:** Pkt., 5c; oz., 35c; ¼ lb., \$1.15.

Kale

TOBACCO

Postpaid price on each of following 3 varieties: Pkt., 5c; oz., 38c; ¼ lb., \$1.20; ½ lb., \$2.10; 1 lb., \$3.90.

726 Connecticut Seed Leaf. Best adapted to middle and northern climates. Grown principally for the manufacture of cigars.

727 Havana. An early variety used largely for cigar wrappers, on account of the thinness and fine quality of the large leaves. Rich flavor.

728 White Burley. Broad attractive leaves. Easy to cure. Used for fillers and wrappers.

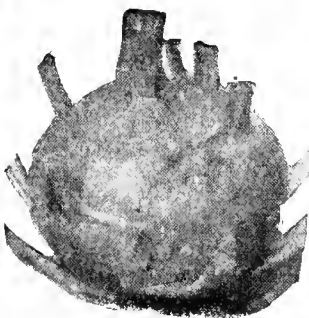

KOHL-RABI

A delicious vegetable, bulb shaped, which combines the flavor of cabbage and turnip.

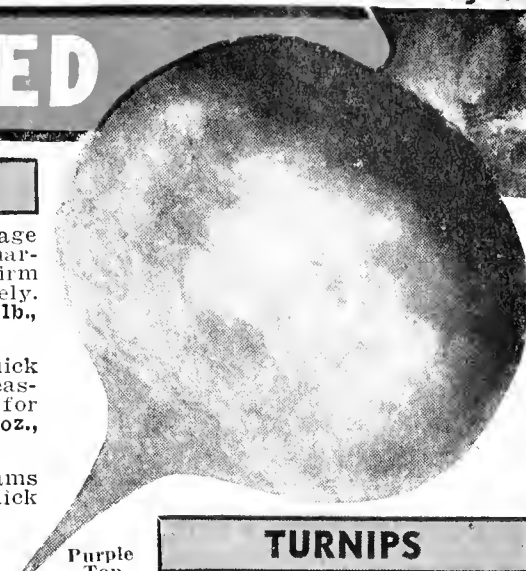

695 Early White Vienna. Dwarf variety. Excellent for home and market garden use. Bulbs 2 to 3 inches in diameter, globular, very light green; flesh white, tender and crisp.

696 Early Purple Vienna. Desirable early dwarf variety. Bulbs globular, purple, with white, tender flesh.

Postpaid price on each of above 2 varieties: Pkt., 5c; oz., 12c; ¼ lb., 35c; ½ lb., 60c; 1 lb., 95c.

White Vienna Kohl-Rabi

Top
White
Globe

TURNIPS

Postpaid price on each of following 7 varieties: Pkt., 5c; oz., 8c; ¼ lb., 19c; ½ lb., 35c; 1 lb., 49c; 5 lbs., \$2.20.

601 Purple Top Strap Leaf. Fine for table use or stock feeding; one of the most widely planted varieties. Tops medium small, roots four to six inches across, flat. Purple-red at the top; flesh white, fine grained and tender.

602 New White Egg. Fine for market gardeners. Roots egg-shaped, smooth. Skin is thin. Flesh is white, fine grained, cooks mealy and tender. Quality excellent.

603 Red Top Strap Leaf. A medium early, productive variety. Roots slightly flattened; upper part reddish, white below. Flesh mild, sweet and tender.

604 Sweet German. Roots globe-shaped, white with green tinted top. Flesh fine-grained and sweet.

605 Large White Globe. A very productive type. Large, globe-shaped, skin white and smooth. Valuable for home garden and market trade.

607 Purple Top White Globe. Unsurpassed for home planting or truck gardening. Attractive in appearance, fine in quality. Roots large, globe shaped, lower portion white, upper-part purple-red. Flesh is of fine flavor, white, crisp and fine grained.

609 Cowhorn. Grown largely for stock feeding. Roots 12 to 15 inches long, tapering, often crooked. Flesh tender and mild flavored. A good keeper.

Postpaid price on each of following 2 varieties: Pkt., 5c; oz., 10c; ¼ lb., 22c; ½ lb., 38c; 1 lb., 69c; 5 lbs., \$2.80.

606 Extra Early Purple Top Milan. Tops small, distinctly strap-leaved. Roots small and flat, purple at the top, clear white below. Flesh sweet and crisp.

608 White Milan. An extremely early variety, used for forcing or planting outdoors. Roots pure white, flat, flesh sweet and tender.

RUTABAGA

Postpaid price on each of following 2 varieties: Oz., 8c; ¼ lb., 19c; ½ lb., 35c; 1 lb., 49c; 5 lbs., \$2.20.

611 New Monarch or Elephant. Yields larger roots and more per acre than any other sort.

612 Improved Purple Top Yellow. A dependable variety. Roots large, round, yellow with purple top; flesh light yellow, firm, sweet and tender.

ORNAMENTAL GOURDS

Postpaid price on each of following 9 varieties: Pkt., 5c; oz., 10c; ¼ lb., 40c.

1249 Apple. Small, round and white.

1251 Calabash. Cream colored and grow in a variety of shapes.

1253 Orange. About the size of an orange; skin is a light cream color.

1254 Pear. Pear shaped and alternately striped orange and green.

1255 Hercules Club. About 3 feet long.

1256 Finest Mixed. All kinds and sizes.

1257 Japanese Nest Egg. White fruits, the size and shape of an egg.

1258 Dipper. The ripened fruits hold about 1 qt. each.

1259 Dishcloth. Inside lining sponge-like when ripe.

BARGAIN PRICES SEED POTATOES

BLUE RIBBON
EXHIBITION
QUALITY

Northern Grown Seed Stock

Every experienced potato grower knows that he gets his heaviest yields and finest quality by using northern grown seed. Most of them get new seed every year. Many experiments have proved this profitable. Minnesota seed has done the best of all.

We handle only Minnesota Seed stock. It is all graded and inspected seed. All shipments are guaranteed to arrive safely and to show up to your satisfaction. Mail your orders early. Shipment will be made as soon as weather conditions make it safe.

This is a year when you will find it vitally to your interest to select quality seed. Improved seed stock will prove a very wise investment.

EARLY RED RIVER OHIO

Our seed of this variety is fine. They mature extra early. They are good keepers and money makers. Our stock comes direct from the Red River Valley. It is real seed. Planting such seed gives increases of 25% to 100% over most home grown potatoes. The quality is distinctly superior. There is a better demand for such potatoes, and much better profit in growing them.

Our Early Red River Ohios have a light pink skin. Flesh is pure white. Produces good sized uniform tubers. Eyes are near the surface. Very little waste in peeling. Vines grow upright. Potatoes grow in a clump. Easy to dig. Our northern grown seed matures about two weeks earlier than southern stock, giving you the advantage of earlier markets and better prices.

BERRY'S GENUINE IRISH COBBLER

Our Cobblers are one of the finest potatoes you can grow. They are in a class by themselves. Enormous yielders. Well formed. Finely flavored. Skin and flesh white. Cooks dry and mealy. Greatly superior to the mushy kind. A splendid keeper. Tubers are large, rather round with some oblong. Smooth skin with deep set eyes. Vigorous, thrifty growers. Medium early.

You may have grown Cobblers before but we feel sure you have never raised any equal to these. They are wonderfully popular. You don't have to pay long prices for some fancy variety to get an extra quality potato. Grow some of Berry's Genuine Cobblers and you'll have something to brag about.

LATE VARIETIES

Banner

A superior variety of the later type. Roots deeply in dry season. Thrifty grower and a remarkable drought resister. Produces smooth plump handsome tubers. Beautiful creamy white. Eyes strong and on the surface. Skin slightly netted. Cooks quickly, dry and mealy. Shape a little oblong and slightly flattened. As nearly blight and rustproof as can be. A splendid keeper and enormous yielder. Medium late in maturity. Very popular. We know you'll like them.

BERRY'S IMPROVED BONANZA

Greatly improved in hardiness and yield. A very high quality potato. Reddish skin, very white flesh. Firm grained, very dry and mealy. We consider this the most desirable main crop variety. Best yielder, keeper and shipper. Vigorous dark green vines. Withstands lots of heat and drought. We sell many carloads of this variety and recommend it highly. Excellent for market or home use. Medium early maturity. It sure is a dandy variety. Be sure to include it in your order.

CARMEN No. 3

A very heavy producer. Practically every potato of marketable size. Both skin and flesh are white. Eyes few and shallow. Excellent table qualities. No hollow hearts, and no dark or hard spots. If you wish a white skinned potato of the late type you will find this a very profitable variety. It sure is a money maker.

RURAL NEW YORKER No. 2

Another wonderful late kind. One of the best keepers. Smooth, shallow eyed and prettily shaped. Exceptional drought resister. A great yielder. Chosen by many as the best of main crop varieties. A sure producer of excellent quality potatoes. If you want some potatoes that will keep in fine shape until the new crop is ready. Plant some of our Rural New Yorkers. They will satisfy you.

SPAULDING ROSE

Between early and late in maturity. Color slightly red. Shape long and very large. Flesh white and mealy. Wonderful yielder. A great potato for locality of a short season. Strong vines. If you want a variety that is not too late and yet not an early potato this will make a fine selection.

SIR WALTER RALEIGH

Pure white in color. Round to oblong in shape. Finely grained. This is a newer variety than some, but well established as one of the leading main crop potatoes. It is steadily becoming more popular because its many high points of fine quality and big yields are proving it an exceptional money maker. Our seed wins friends everywhere it goes. It is in great demand and we urge you to try it.

Price in small lots, any variety. Postpaid, 1 lb., 20c; 5 lbs., 65c.

Twinbrook
Farm,
Emaus,
Penna.

Dear Sirs:

I have been using your seeds for thirteen years which in itself means

quite a lot. I have found your seeds satisfactory and always saved money by buying from your Company. My Sudan was wonderful and your Dakota No. 12 Alfalfa was the only field in the neighborhood that did not show bare spots after the first winter.

Yours,

P. G. Lichtenwalner.

RED CLOVER

Our Very Best Grade

BEAUTIFUL—HARDY—NEW CROP

If you are critical and demand the Best you will be delighted with this quality. It is beautiful seed. So clean, so bright, so plump. Strictly extra fancy. Berry's World Brand is always a very high quality grade. Get samples. Make comparisons. You'll find plenty offers at higher prices but few that will equal this quality.

BIG SAVINGS GUARANTEED

That is the saving our direct-to-you policy makes possible. A higher price on this seed would not make it any better although some judge quality by price. This value proves again that it pays to buy farm seeds by mail from Berry's.

BERRY'S VALUES HAVE SUPERIOR MERIT

All of our Red Clover seed is hardy strain, domestic stock. Every pound we handle is hardy anywhere in the nation. Every lot is thoroughly cleaned, graded and tested. Every shipment is made subject to your approval. Each grade will give you a greater value for your money. See page 6 for explanation of all grades and page 36 for prices.

ADVANCING MARKETS SOON

This World Brand Seed is the cream of the crop. Into it goes the finest lots that we secure. It gives you the highest purity and the strongest germination. Such seed is always economical and at our present low price it is a real bargain. Red Clover is coming back strong. Its soil building power is superior to substitute crops such as Lespedeza and Soybeans. Moisture conditions are better. The demand for seed is increasing. Supplies are short. Markets will advance. For present prices and biggest savings—Buy Now.

MAMMOTH RED CLOVER

Priced to save you money

Critical and thrifty buyers are served alike in our World Brand grade. The quality meets all demands of exacting farmers. Our low price satisfies the sense of thrift. There is always true economy in such a superior value.

Here is extra fancy, northern grown Mammoth. It is re-cleaned and tested. The plump, high colored, seed is packed with strength and vitality. It contains no noxious weeds. Such seed goes farther. It is far cheaper and infinitely more satisfactory than the average seed you can buy.

Our World Brand seed gives you every possible assurance of clean, heavy, healthy stands. That means larger and more profitable crops. This is a matchless value. Short crops and advancing markets make it advisable to order what you need early. See page 6 for description and price list; page 36 for quotations on other grades of dependable character.

Mammoth Clover is a large variety of Red Clover. It lives longer. It is also known as Sapling and Big English Clover. Superior for soil building. Extensively grown when seasons are too short for two cuttings and wherever an extra heavy crop is desired. Genuine Mammoth always sells at a premium. Buy early. Seed crop very short this year.

Auburn, Mich.

Gentlemen: I find you always live up to your advertisement, "Quality seeds at lowest prices." Your clover is putting my soil back to profitable land and at your low prices we can plant more of it.

Yours truly,

August Krieger.

A
SENSATIONAL
VALUE

ALSIKE CLOVER

LOT ECONOMY

\$7.50
BU.

A Fine Seeding at Low Cost

A special lot. A most remarkable value and a real bargain. One of the surest seedings to make a stand. A bushel sows 6 to 8 acres. Seeding cost is low and production heavy. Our price is drastically low. Alsike production was very short last year. Our values are most attractive. Only early quantity buying and selling direct makes such a surpassing value possible.

Alsike is a perennial clover. One seeding lasts several years. Grows on all soils except very dry ones. Seed is very small and goes a long ways. Almost sure to make a stand. Best clover for wet or sour land. Fine in hay or pasture mixtures. Higher in feeding value than Red Clover.

Description

Lot Economy makes a cheap seeding yet a very good one. We secured this seed at a most attractive price because it contains some Timothy. That makes a wonderfully productive seeding but can be purchased for less because it is mixed. Runs over half pure fine Alsike. When sown at 10 lbs. per acre gives 80 Alsike seeds per square foot. At 8 lbs. per acre, 60 Alsike.

Do not confuse this with the ordinary mixture of Alsike and Timothy. It is a far different article. Sells at 60 lbs. per bushel. You can cut your seed bill 20% to 30% by using Lot Economy. It's guaranteed to satisfy you. Your money back if you can duplicate it anywhere. It's nice, clean, high germinating seed.

LOT ALSIKE MERIT

Extra Value at Low Cost

Again our customers share in an exceptional purchase. This low price on this fine seed is possible only because we had ready cash to snap up two cars on a quick deal.

It is a fine lot of Alsike containing a small percent of White Dutch Clover, and Timothy. For all practical purposes it is just as good as pure Alsike. In fact, we prefer a little mixture to help hold up the Alsike. Runs over 90% pure Clovers. Lot Merit is one of the most nutritious seedlings. It's well re-cleaned. No harmful weed seeds in it. Strong growing power.

One bushel sows 8 to 10 acres. It is a wonderful value and guaranteed to satisfy.

See page 6 for description of our regular grades of clovers and page 36 for prices.

\$11.40
BU.

ALSIKE CLOVER

Highest Quality—Bargain Prices

Our finest, cleanest, plumpest and brightest colored grade. Distinctly superior to much that is sold as the best. Expect something extra fine when you order this grade. You'll get it. This seed will give you complete satisfaction.

Alsike clover seed production is very short this year. Crop reduced about 40%. Only early buying makes our present prices possible. See page 36 for prices on the grades. Check our quality and prices. We will save you money at all times but the biggest savings this year go to early buyers.

Valuable Crop—Low Seeding Cost

Use Alsike for hay and pasture. It is higher in feeding value than Red Clover. Stands a more acid soil. Easier to get a stand. It lives for several years. A bushel sows 10 acres. Less is used when sown in mixtures. This fine, smooth stemmed clover makes a very valuable crop.

See page 6 for description and price list for quotations on other dependable grades. All seed is re-cleaned, tested and guaranteed. Send us your Alsike order this year. We'll save you money or give your money back. See price list for other grades.

1 lb. postpaid, 50c; 5 lbs.. \$2.00.

LOT SURE-GROW COMBINATION

Alsike and White Clover

This fine lot of Alsike has a little White Dutch Clover in it. Preferred by many farmers to straight Alsike. The finer stemmed White helps the growth especially for pasture. Produces a heavier yield. Makes excellent hay. Fine quality re-cleaned seed guaranteed to satisfy.

Our direct-to-farmer price makes this an unbeatable bargain. It is a wonderful value for the money. Very economical to sow. Only takes about six pounds per acre. Makes a great clover seeding at only a dollar twenty per acre. Values such as this are most convincing proof that it pays to trade with Berry's.

White Dutch Clover

The clover for pastures and lawns. Very small seeded. Four pounds sows an acre. See page 36 for prices, also see page 72.

\$12.00
BU.

\$12.90
BU.

Dorset, Ohio.
Dear Sirs: I have been using your seeds for years back and I find them the best seeds I can buy. I have saved money on the seed orders I purchased from you. I gladly recommend you as reliable company to deal with.

Yours respectfully,
LAWRENCE S. GIDDINGS.

TIMOTHY WORLD BRAND

Highest Quality—Iowa Grown New Crop—Priced Low

This is the year to sow Timothy seed and lots of it. It is very seldom that you can buy the finest quality seed at so low a price. Now is the time to sow it liberally for hay, pasture and soil saving purposes. It is one of the very best grasses you can grow. Many have experimented with other crops but after all the grass that is naturally adapted to a section is the most profitable to grow. Timothy is naturally a grass adapted to a wide range of soil and climate. It is easy to grow and almost sure to make a stand.

Costs only 45¢ an acre

You can sow the finest seed liberally at so low a cost. A peck of seed to the acre is a good heavy seeding. If you sow clover with it use less. You cannot afford to worry along with thin stands and low yields when the seed is so cheap. Thicken up old stands of pasture and meadow by a top seeding this spring. You'll get more hay and finer quality from a thick stand. You will stop soil washing more effectively. You will make money and save money by sowing our Timothy seed plentifully this year.

Sow Only Recleaned Seed

The Timothy seed crop is quite large this year. Some farmers did not sell to seedsmen, preferring to peddle the seed to neighbors. None of this seed is prepared like we process our seed. They do not have the proper equipment. That seed is not analyzed or tested. How can you know its actual value? We turned down a lot of seed this year because of undesirable quality. Even with our modern machinery we could not make good seed out of it. Some lots would have cleaned out 50%. Why take chances on seed when for 15 to 20c an acre more you can get the finest of quality, re-cleaned, tested and guaranteed to satisfy.

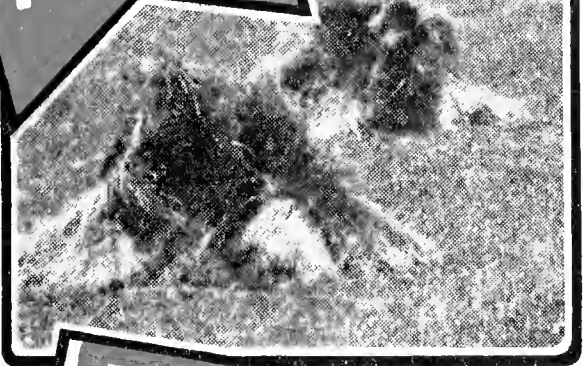

Buy from Timothy Experts

For over forty years we have been large handlers of Timothy seed. Our machinery and experience in cleaning enables us to produce a decidedly superior character of seed. We are at the door of one of the World's greatest producing sections. Our intimate knowledge of the territory helps us select the finest qualities. Our buying costs are low. The haul to our cleaners is shorter. We sell direct over a close margin. There are plenty of reasons why we can make lower prices. Every grade is an outstanding value. This World Brand is the best and truly is beautiful seed. See page 6 for description of grades and page 36 for prices. Let us have your order for Timothy seed. We guarantee to satisfy you and save you money.

Stoddard, Wisconsin.
Dear Sirs: In the spring of 1931 I purchased some of your Lot More-Hardy Alfalfa at \$10.50 per bushel. I also used some high priced seed from another firm. All sowed on the same ground. Your seed made a good stand, the other failed. You saved me money and I got better results.
Yours truly, ALBERT J. JONAS.

\$1.80
PER BU.
99½% PURE

DOMESTIC RYE GRASS

A quick growing grass

The unusual merit of this grass became widely known last year when large quantities were sown to provide quick hay and pasture. In Europe where this grass is more extensively grown, yields of 12 to 20 tons per acre are secured. While it will not produce like that in this country it is the heaviest producing grass for early spring seeding.

Description

Domestic Rye Grass is rather light green in color. Leaves are a little broader than Blue Grass and grows much taller. Requires no nurse crop. In fact it grows so fast it is often used as a nurse crop for other slower growing grasses. Do not confuse this with Rye that is sown for grain. It is entirely different. The seed is somewhat like that of Blue Grass only larger.

If you need early pasture or hay, something to sow early use Domestic Rye Grass. A full seeding is 25 lbs. for acre. Some sow less. Prepare a good seed bed. Cover seed lightly and roll if possible. Sow alone or in mixture. Our Grow-Quick Mixtures (see page 42) contain 25% of this valuable grass. Buy now for present prices. See page 36.

Small Lots Postpaid: 1 lb., 30c; 5 lbs., \$1.00.

**LIFE
SAVER
FOR THE
FORAGE
SITUATION**

**WORLD'S
GREATEST
FERTILIZER
CROP**

SWEET CLOVER

Varieties

The **Common** or **Big White** is the kind most generally grown. Lives two years. Grows 6 to 8 ft. high if not cut. For pasture and soil building this variety ranks highest. Has big powerful roots that go down deep. They decay quickly when crop is plowed under.

Grundy County White lives two years. Does not grow so large, generally not exceeding 3½ ft. It is about 3 weeks earlier than Common. Seed is smaller.

Yellow Biennial lives two years. Larger than Grundy but not as large as Common. Matures in between the two. Finer stemmed and more leafy.

Hubam. An annual or one year variety. Makes complete growth in one year. In big demand when it is desired to plow under the crop in the fall of the same year it is sown. Resembles common white when growing.

Banner Sweet Clover Year

This year is going to witness the most extensive sowing of Sweet Clover that has ever taken place. Our November and December sales of this seed broke all records. Every pound of this seed that can be scraped together will be needed to fill the demand. We are giving you sound advice when we suggest that you buy your requirements just as early as possible. Seed crop is shortest in history.

Farming conditions during the past few years have been ruinous to many farms. Rotations have been sadly disrupted. Fertility has decreased. Erosion has increased. Soils have become slow to respond and harder to work.

Rebuild Your Land Now

Now is the time to restore and reclaim. Farm prices are better. Improvement should continue with certainty. Every acre should be put in shape to give a maximum of production at the lowest cost for labor. Expanded acreage is not necessary but the acres farmed should be made to produce grain crops profitably.

Sweet Clover is an ideal crop to use under these conditions. It surpasses all other crops in its quick soil building powers. It stores large quantities of Nitrogen in the soil, increasing fertility. It adds vast quantities of humus. That helps to stop erosion, makes ground easier to work and less apt to dry out hard. The bacterial life in the soil is increased so that plants will thrive better. Heavy soils drain better and sandy soils hold more water. A crop of Sweet Clover plowed under is equal to 25 big loads of manure.

A Very Valuable Pasture

Then again it is a wonderful pasture crop. Can be pastured the first fall with one to two head of cattle per acre. Three to four head the second year is no exception and you put on hogs besides. Even then you may have to clip it to keep it down. Less danger of bloat and with a straw stack accessible to stock practically no danger at all.

Sweet Clover generally makes a hay crop the first year and two the second. Its greatest value is as pasture or fertilizing crop. Further its drought resisting properties make it a life saver in many years.

Seeding Suggestions

Sow sweet clover in the early spring just like Red Clover. Use about 15 lbs. of seed per acre. Your seed bed should be as firm as possible. Generally a light covering is advisable. If at all possible roll the land after seeding.

A fine way to handle sweet clover is to take pasture or hay the first year and plow under in the spring of the second year and plant to corn. This generally makes an increase of 20 to 25 bushels of corn per acre. It is an ideal crop under present conditions. Use it liberally.

Blackstone, Va.

Gentlemen: I have used your seeds for many years with satisfaction. The quality has never disappointed me. The price, excellency of the seed considered, has been much lower than I could secure elsewhere.

Very sincerely,
BENJ. R. MORSE.

BLUE RIBBON BARGAINS
**UNHULLED
SWEET CLOVER**
ALL RECLEANED SEED
\$5.00 at CLARINDA
PER BU. \$1.65 at CHICAGO
30 LBS. to BU. PER BU.
BAGS FREE

White Blossom

Thoroughly recleaned unhulled seed is the best to use for early winter seeding. It is better than hulled seed either scarified or unscarified. Germination is slower. Will not start to grow during a warm spell in winter. Becomes firmly embedded in the soil. Waits until spring, then grows rapidly. Many customers report that the sowing of our unhulled seed early in the winter gave them the finest stands they ever had. Sow about 20 lbs. per acre. Just broadcast it. No seed bed preparation necessary. If convenient cover it a little before growing season starts. Otherwise let nature take care of it.

Our seed is all fancy new crop very carefully cleaned seed. It is a high grade product and our prices the lowest ever made since the crop was as scarce as it is this year.

Buy Now—Save Money—Sow Early

3 WORLD BEATERS

SWEET CLOVER

BLUE RIBBON BARGAINS

LOT

GROW-MORE

**EXTREMELY
LOW
PRICES
IN SPITE
OF SHORT
CROPS**

Extremely Low Price—Extra Good Values

This lot stretches your money over more acres than any other. You receive a dependable seeding too. That is why it is such an exceptional bargain.

This is the Big White or Common Sweet Clover. It has been scarified by the famous Eddy process, which is far superior to any other method. All our scarified Sweet Clover is handled over this machine. It gives higher and stronger germination. Very few seedsmen use this method. Some do not scarify at all.

\$2.70
PER BU.

Very Carefully Prepared

Lot Grow-More is a product of the modern efficient Ferrell cleaning and grading machines. Carefully cleaned and scientifically graded, it is a reliable value. Its appearance isn't quite as nice as our best grades, but it will give entirely satisfactory results. The purity and germination tests are good. Some of the berries are a little smaller. The color is a little below our high standard. There are more seeds per pound. It performs right along with better grades. Costs only 65c per acre for seed.

This Grade in Big Demand

We have many customers who demand this kind of seed and have sold it for many years. These farmers judge by results only. The price this year is so sensationally low that everyone can afford to sow it. No other clover seeding is as cheap. A most remarkable value for so little money. Such a bargain will go fast. Place your orders early.

We guarantee complete satisfaction. Return it if you are not thoroughly pleased with your purchase.

**LOT
WONDERFUL**

\$3.30
PER BU.

A Great Value

You will agree it is Wonderful to secure such a value at so low a cost. At our deeply cut price it is a great bargain. Not quite as fine in looks as our World Brand but a wonderful seeding. A little nicer than Lot Pearl (see page 3) Berries a bit larger and somewhat better color. It is fine re-cleaned stock and a quality that is generally selling at 75c to \$1.00 per bushel more money. Our seed is Eddy scarified making a superior quality. Many "Best" grades are no better.

Saves You Money

It is not the price alone that makes this such a great value. The sound practical quality is the basis of its worth. We guarantee to save you money on it. If you don't consider it an exceptional bargain return it and get your money back. With good seed so low in cost it will pay you to sow liberally to Sweet Clover.

This is the big or common white sweet Clover. Great for hay, pasture and soil building. Tell your friends about Berry's Sweet Clover values.

**WORLD BRAND
WHITE SWEET CLOVER**

Extra High Grade

Consider what it means to you always to get the finest seed by simply placing two words "World Brand" on your order. We have customers who have been doing that for over 25 years. They have never failed to be perfectly satisfied with their purchase. There is no seed that could give you better assurance of success. Many dealers do not handle such extra quality.

Lowest Prices Now

Note our price. Compare it with prices on the best you can buy anywhere. You secure through us the direct benefits of early buying in large quantities. Now seed markets have advanced. Seed Production was very short and in many sections a failure. Prices will advance further because the need for new seedings will create an enormous demand for this seed. Now, while we have those early stocks on hand, is the time to buy. Why pay more money now, than our direct to farmer policy makes possible?

A Saving Guaranteed

Our beautiful World Brand grade is a magnificent value at our price. The other grades described on page 6 and priced on price list are also attractive values. Every grade thoroughly cleaned, scarified and tested. No guess work—no gamble. If you don't agree that you have saved money your money plus freight will be refunded. Order our World Brand if you wish all big plump berries, high bright color and extra high purity and germination. We are specialists in sweet clover and we want your business. That's why our prices are so low.

\$3.50
PER BU.

Binghamton, N. Y.

Dear Sirs: I have used your seeds for some time and I have had good results. I have used other seeds, but they are too high. I save about a third in buying from you and get better results.

Yours truly,
MIKE ZOPP.

MORE SWEET CLOVER BARGAINS

GRUNDY COUNTY LOT **WORLD BRAND** QUALITY

Grundy County Sweet Clover

Grows about 3½ feet tall. Blooms about three weeks earlier than common white. Matures seed more evenly. Easier to handle. In big demand where the common grows too rank or where early maturity is desired. Only requires 12 lbs. of seed per acre because berries are smaller.

\$3.70
PER BU.

**WORLD BRAND
YELLOW
SWEET CLOVER**

\$3.90
PER BU.

An Extra Value

See the low price. Consider the extra fancy quality. This is another proof of Berry's leadership in Sweet Clover. Bueller-Ferrell, cleaned and Eddy scarified. There is no finer seed on the general commercial market. We guarantee this equal to the best obtainable. Then why pay more money?

Yellow Sweet Clover is in great demand. It is finer stemmed than the white and more leafy. Does not get so rank. Matures about 10 days earlier. Many say it is easier to grow. Provides pasture in abundance. Makes hay superior to white. Works wonders in soil improvement.

Brings Better Profits

Farmers generally are in dire need of clovers. They will restore humus, fertility and profits. Land will be easier to work. It will drain better yet hold the proper moisture at the surface for growing crops. Make your soil perform better. Use Sweet Clover to do the job. It will improve land quicker and at lower cost.

Our prices are guaranteed to save you money. See price list for price on our Planet Brand. Let us take care of your Sweet Clover needs. We can serve you far better than the average.

Lakefield,
Minn.

Dear Friends:
I like your seeds and recommend them to others. Your seeds do well in this section. I save money by buying from you. I am well satisfied and am sure other farmers will, too.

Yours truly,

JOHN GREIN.

**FINE
YELLOW
SWEET
CLOVER**

**LOT
PREMIUM**

A Very Fancy Quality

A magnificent value for quality buyers. Just a shade under our World Brand in color. Has dandy nice berries. High purity and germination. Thoroughly cleaned and scarified. Better than much of the so-called best grades. Such seed at this price is a bargain that cannot be duplicated later. Our present prices can be made only for prompt buyers. Short crops and big demand is forcing markets steadily higher.

Thoroughly Dependable Seed

You can rely on such seed to produce as satisfactory stand as any. Sold subject to your approval. If you do not consider it an outstanding bargain and a great value send it back and get your money refunded promptly.

This is one of those special lots that is full proof of our leadership in the Sweet Clover line.

Buy direct from specialists. Secure scientifically prepared seed. It costs you no more. Compare and you will find our prices lower and decidedly so.

HUBAM

\$9.00
BU.
60 lb. Bu.

Annual White Sweet Clover

Seed crop short again this year. Growers should make good money from seed production. This is a one year crop. Blooms and makes seeds same year it is sown. Grows 4 to 5 feet tall. Sow on winter wheat or with spring grain. Use 12 to 15 lbs. per acre.

Hubam is so popular because it does its full work in one year. Sow like other clovers in the spring. Plow it under in the fall or cut it for hay or seed. Practically equal to alfalfa in feeding value. Excellent bee pasture. Wonderful soil builder.

Our seed is fine re-cleaned scarified stock. Supplies, however, are very, very short, so buy early if you wish some of it.

\$3.30
PER BU.

Assure yourself of sharing this bargain by placing your order early

KOREAN CLOVER

\$1.75 PER BU.

**Grows on the poorest land
Wonderful pasture — Excellent Soil Builder.**

A VERY VALUABLE CROP

This clover came into use a comparatively few years ago. It is no longer an experiment but a crop of proven value. Its merits and its limitations should, however, be understood so it may be used in the most profitable manner. You should know where, how and when it will grow and how it compares with other crops for hay, pasture and soil building.

Korean is a Nitrogen gatherer and will improve the poorest land where other clovers cannot even get started. It will resist more heat and drouth than any other clover. It will stop soil washing and will grow in ditches and gullies.

CHARACTERISTICS

Korean is an annual. It grows only one year from a seeding. It reseeds itself very readily and matures seed even after plants have been killed by frost. Thus it is proving itself adapted farther north than was at first thought possible. It is steadily and surely working its way north into Iowa, Illinois, Ohio, Indiana and even into Wisconsin. If it does not reseed itself it will not come up the next year. When it does reseed the stands get heavier from year to year. Korean Clover is not a good competitor of Red and Sweet Clover and Alfalfa. That is those crops are more profitable if they can be grown successfully. But on poor land where those crops do not grow readily, Korean is a very valuable crop.

PASTURE VALUE

Korean shows its greatest worth in pasture. It does not afford much feed early but produces its best during the latter part of June and in July and August up to killing frosts. Therefore Korean gives pasture when most other grasses are dormant because of heat or drouth. No matter how close it may be pastured the crop will reseed if heavy frosts do not come too early. We therefore recommend Korean as a mixture for all pastures, new and old. You can thicken up old pastures by just broadcasting the seed during the winter or when the ground is checked by freezing and thawing.

VALUE AS A HAY CROP

Korean does not grow very tall. To get a good hay crop the stand should be heavy. While it is not tall the stems are very leafy and a surprisingly large yield can be secured from a stand that seems fairly short. One of our customers reports a yield of three tons per acre and a seed crop afterwards. This was in central Missouri.

SEEDING SUGGESTIONS

The firmer your seed bed the better your success. Just broadcast seeding during winter or early spring. If sown with spring grain just scatter on top and then roll the land. Be sure to avoid covering it much. Sow 12 to 15 lbs. per acre. Land should have fair drainage.

SEED QUALITY AND PRICES

All Korean Clover looks very much the same to inexperienced eyes. There is, however, a lot of difference in quality both in purity and germination. Off quality seed looks all right and can be purchased for less money. Insist on the best if you want to succeed.

Our stocks are new crop and of the very best qualities obtainable. Considering quality we guarantee our prices lowest. We have quality stocks that are really bargains. Such values make it very much to your interest to trade with us. Let us take care of your order and we will do our utmost to satisfy you. Present prices are for prompt orders as the seed supplies are considerably shorter than last year. Write for free circular on these Lespedezas.

SERICEA LESPEDEZA Sour Land Alfalfa

A perennial clover. Comes up from the roots in the spring. Has wintered as far north as New York state. Grows on very sour soil. Exceptionally good on land with heavy, tight and poorly drained subsoils. Has a powerful tap root that branches extensively. A nitrogen gathering crop and a wonderful soil builder.

Sericea plants gets better, bigger and finer from year to year. Throws out more stems each year. A 5 or 6 year old plant has been known to produce a hundred stems. The plant is extremely leafy. Leaves are about half the size of Alfalfa leaves and extend to the base of the stems. The crop is highly resistant to drought. Produces seed yields up to 900 lbs. per acre. Seed matures in October. Plants come up again even though no seed is produced.

Sericea is a good hay producer. On sour soils it is vastly superior to alfalfa or Red Clover. At the Tennessee Experiment station second year growth of Sericea produced 3.17 tons of hay per acre as compared with 1.98 tons for second year alfalfa. The feeding value is high. You can use the crop for hay or pasture. Also retards soil erosion.

Sow 10 to 12 lbs. per acre using hulled and scarified seed. Do not sow too early. About the middle of April in southern Iowa is suggested. Seed bed should be firm. Broadcasting and then rolling is an excellent practice. Deep covering generally results in failure. $\frac{1}{2}$ to $\frac{3}{4}$ inch is plenty on a firm seed bed.

Our seed is all hulled, scarified and recleaned. We case the price of our hulled seed on the same basis as unhulled Korean, 25 lbs. per bu. See price list page 36.

Small Lots Postpaid: 1 lb., 40c; 5 lbs., \$1.50; 10 lbs., \$2.75.

HARBIN LESPEDEZA

This is an early strain of Korean Lespedeza described in the opposite column. Makes possible the growth of this legume further north. Korean does not make seed in the northern states and does not come up the next year unless it does reseed. Harbin makes seed in Canada and can therefore be sown in any of our northern states.

The information given on Korean Clover will also apply to Harbin excepting that Harbin is a shorter growing variety and should be used for pasture only. May be used by itself but we prefer it in mixtures. It is a good drought resister and a good seed producer. Sow about 10 to 12 lbs. per acre broadcast. Less when used in mixtures. See page 36 for prices. Postpaid in smaller quantities.

1 lb., 50c; 5 lbs., \$2.25; 10 lbs., \$4.00.

Watson, Missouri.

Dear Sirs: I have used your seeds for fifteen years and have found them the best for the money. The Berry Seed Co. has saved farmers thousands of dollars by selling good seeds at popular prices. They are reliable.

Yours, M. A. McNEAL.

INOCULATE ALL LEGUMES

Showing difference in yield between crop from inoculated and not inoculated seed.

The cost per acre is small. The extra returns are large. Bigger yields and better soil building.

Inoculation Necessary

No legume can flourish without proper inoculation. Often the lack of inoculation means a failure. This applies to all clovers, alfalfa, peas, beans and vetches. The same inoculation does not answer for all. There are several distinct species. Therefore land may be inoculated for one legume and be utterly lacking for another variety.

You may have inoculating bacteria in your soil. If a certain legume has been growing successfully on your land in the past few years, then it is reasonable to assume that you do not have to inoculate the seed of that crop when you reseed. If such a crop has not been grown recently on your land, there is no way of telling if it is inoculated.

Don't take chances. The acre cost of inoculation is a minor item. If you neglect to inoculate you may lose your seeding because of it. Inoculation puts live bacteria on your seed. They go into the roots after the seed sprouts. Then and then only can your legume plant take nitrogen from the air for its own growth and for soil building. Without inoculation the plant uses up the nitrogen in the soil and then generally turns yellow and dies.

We sell inoculants that are guaranteed satisfactory. Your money back if they fail to do their work properly. See column on opposite page.

CORN-BELT ALFALFA

The most economical alfalfa seed for the Great Corn Belt Section

HARDY and HEAVILY PRODUCTIVE

AUTHENTIC REPORTS from STATE EXPERIMENTS

We have verified the reports of our customers on Corn-Belt Alfalfa by checking reports from various state authorities. The information gained from these sources shows the performance of Corn-Belt seed in a convincing manner.

From Nebraska eastward through Iowa, Illinois, Indiana, Ohio, Pennsylvania and New Jersey. Northward through New York, Michigan, Wisconsin, Minnesota and South Dakota we find excellent reports on the yielding qualities of this seed. Wisconsin specifically reports that Nebraska common has done as well as any common. It is recommended that if winter killing is severe that Grimm be selected but if common Alfalfa is used this stock is equal to any.

Southern states show the same superior qualities for this Corn-Belt Alfalfa. Its adaptability is even more wide spread than indicated by the map on this page. We have simply shown on this map the section to which we consider our Corn-Belt Alfalfa especially adapted. To every customer in this section we say, "You can save money and get dependable seed by specifying Corn-Belt Alfalfa in your order."

Be sure you get genuine Corn-Belt by looking on the test tag for the trade-mark as shown above. This service is for your protection and to save you money. Get started with Corn-Belt Alfalfa this year and learn what wonderful crops it produces.

North Liberty, Indiana.

Dear Sirs: Your seeds are the best I ever used. The Yellow Biennial Sweet Clover is certainly the best. Every seed came up. I am well satisfied and can recommend your seeds highly.

Yours truly,
ELDEN KANE.

Corn-Belt alfalfa is a registered trade mark name for seed that is specially adapted to the Corn-belt section shown above. The seed used under this name is produced in this section and states to the north and west of it. It contains no southern seed and is stock of a hardy character. Now you can be assured by ordering "Corn-Belt" alfalfa seed that you will get seed adapted to your section, and this is important—it is available at lower cost than other seed which will do no more for you.

Reg. U. S. Pat. Off.

Thoroughly Dependable

Heretofore many have thought that to get hardy common alfalfa one must specify Montana or Dakota seed. Experiments by experts and practical farmers have shown that this is not true. You will find our Corn-Belt common extra hardy and dependable. Since such seed is unusually hardy and equally or more productive, why pay premium prices for other seed? Get sample. Compare prices. You can save with satisfaction on Corn-Belt alfalfa.

GRADES of CORN BELT ALFALFA

In order to assure you of getting always dependable quality when you order Corn-Belt Alfalfa this name has been trade-marked and registered. The use of this mark is closely restricted. Watch for it. It is designed for your protection.

This Corn-Belt Alfalfa seed comes in different grades. These grades are separated largely according to color and size of berries. Read page 6. Our World Brand is the finest. See page 36 or our latest price list for quotations. We guarantee to save you money on any grade that you may select. We also carry Grimm in the Corn-Belt and consider the quality as hardy as any Grimm from any state. See back cover of our catalog for special offer on World Brand Corn-Belt Grimm.

We have found Corn-Belt Alfalfa heavier in production. Our customers are especially enthusiastic about the heavy yields. Let us help you save money on Alfalfa seed that is thoroughly adapted to the corn belt.

ALFALFA

We guarantee our Alfalfa values to be the finest bargains obtainable anywhere.

LOT BED ROCK

Grimm Alfalfa

U. S. Verified Origin Seed

Priced even lower than last year

\$8⁹⁰
BU.

Grimm Alfalfa is placed within reach of every farmer who wants this super-hardy variety. This is a very low price on such quality U. S. Verified origin seed. This grade has given our customers highly satisfying results. Has good growing power. Produces exactly the same kind of Alfalfa as higher priced seed. This drastically low price is possible because we obtained some Grimm seed that was somewhat discolored. It would not classify for fancy colored grades. Berries are a little smaller. While the germination per hundred seeds is a little lower there are so many more seeds per pound that this is fully compensated for. Actual tests per ounce show more sprouts than an ounce of larger berried kind.

A Heavy Producer

We sell this seed because we know that it has the ability to produce good, strong, vigorous stands. In appearance it isn't the best but from a practical standpoint it delivers the goods. Sow 15 pounds per acre. Seed is recleaned and guaranteed to satisfy. If you want to get a good start with Grimm at a low cost, order this lot. It is a genuine bargain and a big one.

U. S. Verified Origin

We are "Authorized" dealers in U. S. Verified Origin Alfalfa seed. All our records of sales and purchases are checked by government representatives. We must be able to show back to the original grower just where the seed was produced. This service is to protect buyers against any substitution of southern grown seed under a northern label or tag. Play safe on your Alfalfa seeds. Buy only U. S. Verified Origin Alfalfa and save money by buying direct from "Authorized" dealers.

Markets to Advance

Alfalfa seed production is quite a lot smaller than last year. Many sections that produced seed last do not have a pound this year. Seed has largely moved out of growers hands. Many retailers have yet to secure their needs. The popularity of alfalfa was never greater. Enormous quantities will be used. When this demand for seed develops markets will show unusual strength. Our prices will be protected until the early purchased seed is sold. Protect yourself by buying early.

Sowing Alfalfa

Get your seed hed as fine and well packed as possible. Sow a little later than Red Clover with a very light nurse crop. Better still a little later seeding after some advance harrowing to kill weeds. In such case sow without a nurse crop. Fifteen pounds per acre is plenty. Do not cover over half an inch. Roll, if possible after seeding. Inoculate your seed.

Chippewa Falls, Wisconsin.

Gentlemen: My father used your seeds for 30 years and would never think of planting any other seeds than Berry's. I have been farming for 14 years and always bought my seeds from you. The seeds always come up, have strong hardy plants and bear excellent crops.

Yours truly,
WM. E. KLEMKE.

LOT MORE HARDY

\$7⁹⁰
BU.

Half Grimm Alfalfa

Balance Hardy Northern Common

This seed is really more than 50% Grimm but since it contains some Common we sell it as half Grimm and we sell a lot of it. This kind of seed has been giving our customers highly satisfactory results for several years. The performance of this seed brings orders from neighbors. They like the big yields and the way it stands winters. This seed has been well cleaned and has the ability to produce good stands. It has the extra hardness that is needed under extreme conditions. It is somewhat off colored being similar to the Lot Bed Rock but it makes a dependable and satisfactory seeding at low cost.

U.S. Verified
Origin

We don't have a lot of space to describe this wonderful value but it sure is a dandy. The quality is practically World Brand. It is fully equal to what many sell as the best. Fine Color, good big berries, strong growing power and a hardy strain. Get a sample. Find quality to equal it. Then compare prices. We'll not only guarantee to save you \$1.00 to \$2.00 a bushel but will give you hardy U. S. verified Origin seed. This is really one of our finest bargains in Corn-Belt alfalfa. Not because the cost is reasonable, but the quality so outstanding at the low cost.

EXTRA HARDY ALFALFA

SUPER HARDY U. S. VERIFIED ORIGIN

An Extra Value

A true bargain in medium grade Grimm Alfalfa seed. Real, honest-to-goodness quality without the extra high color that means higher prices. It is seed of substantial character; clean, good growing power and extra hardy.

You will find Lot Bonafide fully equal in production to the higher priced lots. We consider it just as certain to produce a stand. This grade often sells as a fancy quality. It certainly is a serviceable lot. Yes, it is U. S. Verified origin seed.

We know that a lot of farmers have to watch their expenditures very carefully. That is why we made a special effort to secure seed of this type. We strive to supply the needs of every customer. It is typical of Berry Service to enable you to secure such sound good Grimm Seed at so low a price. Shipment is guaranteed to satisfy you. Every buyer of Lot Bonafide will make a worth while saving. You save with safety on this bargain.

DAKOTA No. 12 - \$11.50 Bu.

Dakota No. 12 has long enjoyed a wide popularity. This seed we have this year should please you very much. To say that it is World Brand quality is almost enough. For forty years it has been the choice of our most particular customers. This strictly extra fancy grade is always satisfactory and economical.

Corn-Belt Dakota No. 12 is, in our opinion, the heaviest in yielding power. We will match its production against any other seed, bar none. Then there is the matter of its winter hardiness too which is a quality worth money.

Considering quality this seed is priced to save you \$2.50 to \$3.00 a bushel. High color, large berries, excellent purity and germination. You'll receive seed of extra high quality. Compare it with the finest. Then compare prices. Samples free on request. Order early for present prices.

Ashville, N. Y.

Dear Sirs: I have always found your seeds to be very satisfactory and have gotten good results from them. I recommend your seeds highly at every opportunity.

CARL A. C. JOHNSON.

IDAHO VARIEGATED

\$11.70 Bu.

Equal to Grimm in Hardiness

The fields producing this seed had the variegated blossoms. That is one of the best earmarks of superhardiness. In every way it resembles Grimm. In fact we consider that it is Grimm and that the true origin has been lost somewhere along the line. While the papers on it cannot be found it certainly has lost nothing in its producing power or hardiness.

This seed is strictly Idaho grown from whence came the famous Blackfoot Grimm. Heat and cold and drouth resistant, it stays right on the job, producing the finest of feed in great abundance.

A Wonderful Value

Our Idaho Variegated is new crop seed. Strictly World Brand quality. Beautiful large berries, high in color. Excellent both in purity and germination. This seed will please the most discriminating customer. U. S. Verified Origin. It is all Idaho grown. We have yet to hear from a customer who was not thoroughly satisfied with genuine Idaho Variegated Seed.

LOT COSSACK

Considered by Many The Hardest of All

\$12.60 Bu.

Cossack Alfalfa is in wide demand by those having unusually much trouble with winter killing. We really doubt if it is really superior to our Grimm in this respect but have a nice stock of beautiful seed.

Anyone wishing Cossack Alfalfa can certainly save money on this extra value lot.

This seed we carry only in the World Brand grade. It is truly an extra fancy lot. You can expect something very fine when you order this. This variety produces hay of a fine character. Sample sent free. Compare our quality; then compare prices. You will find a saving that will surprise you. Bargains like this move fast.

1 lb. any variety on this page, 45c postpaid; 5 lbs., \$2.25.

GRIMM ALFALFA

At STRIKINGLY LOW MONEY SAVING PRICES

BLUE TAG
FINEST QUALITY
STATE SEALED AND CERTIFIED
GRIMM ALFALFA

The Highest Quality Obtainable

State Sealed and Certified Grimm alfalfa seed is grown, harvested, cleaned and sacked under state supervision. After it is cleaned it is graded. The color, purity, size of berries, etc., determine the grade. Only the very best of the entire crop is good enough to grade "Blue Tag." Whenever you see the State Blue Tag and Seal on a bag you can be certain that there is nothing better.

See page 36 for present exceedingly close prices. These are for prompt orders. Production of these super-quality is not large. Many growers are holding for higher prices. Demand is strong. Higher markets are certain. Present stocks are ample to care for early orders. Let us supply your needs while we have this early purchased stock. You will save good money by acting now.

Idaho Seed Very Popular

This state has made an enviable name for itself in the production of alfalfa seed. It is distributed through various dealers and the Blackfoot Association. To say Idaho State Sealed and Certified is enough to open the door to orders from jobbers, dealers and farmers. Many insist on this stock. If you want the best that money will buy you will get it when you order our Idaho Blue Tag Grimm.

Blackfoot Grimm

State Sealed and Certified

This like our Blue Tag is Idaho seed. It gets the name Blackfoot from an organization that controls the selling of most of the seed produced in the section around Blackfoot, Idaho.

So great is the demand for this seed that they sometimes sell their entire year's supply in two days' time.

Prices for Prompt Orders

Since the supplies of this seed are so definitely limited orders can be filled only so long as stocks last. We have a nice stock on hand and believe we will be able to supply all of our trade wanting Blackfoot Grimm. To be safe, however, it is best to order early.

Blackfoot always sells at a premium over other Alfalfa yet our prices are down to money saving figures. See page 36 or our latest price list for quotations.

Postpaid 1 lb., 60c; 5 lbs., \$2.50

WORLD BRAND IDAHO GRIMM

Big Bold Beautiful Seed Extra Fancy Quality

Our World Brand Idaho Grimm is similar to the Blue Tag described above. It comes shipped to you in sealed bags and is thoroughly dependable seed.

Every year there are quite a number of Grimm fields that are not certified. This may be due to failure to pay certain fees, lack of compliance on some technicality, etc. The fields remain Grimm Alfalfa but for reasons mentioned they are not state sealed.

Our Buyers Know Production

We do not depend on hit or miss methods in securing such seed but have reliable resident buyers in several sections of this state. These men have lived there for years and know most of the growers personally. Therefore we can assemble these stocks with the assurance of their genuineness. And we can sell you such seeds at genuine savings.

\$12.30
PER BU.

Save \$2.00 to \$3.50 bu.

You can check up on these savings very closely. First find Idaho Grimm purchased with the same care that our stocks are. Second make sure it is U. S. Verified origin so you will know it is genuine Idaho grown. Third compare quality. Insist that it be as fine as Berry's World Brand. If you find all these factors equal we will guarantee our price to save you at least \$2.00 per bu. over retail prices.

What Grimm Does

The growth of Grimm is somewhat finer than most common. It is leafier. It will not produce a heavier tonnage but it has a higher feeding value per ton. Then unquestionably it is more winter hardy. In some sections this is not such a vital point but when winter killing is common it is certainly the only kind to select. At our low price the cost is brought within reach of all.

Postpaid, 1 lb., 45c;
5 lbs., \$2.25.

Myerstown,
Pa.

Dear Sirs: I have been getting my seeds from you for twelve years. I get the kind of seeds I want and save money. The Grimm Alfalfa I sowed in 1930 gave me three cuttings of fine hay this year.

Yours truly,
MILES L. RISSER

GROW QUICK PASTURE MIXTURE

\$ **1.50**
BU.
25 LBS

Fine Combinations Improved for 1936

Our Grow-Quick mixtures last year attained wide popularity. This year we have made them still better and the cost has been drastically reduced. You secure twice as much value for your money. These seedings are now more permanent in growth and heavier in production. The quality is excellent. They are real bargains.

Contain 50% Clover—Balance Grass Seed

Each one of these mixtures contains $\frac{1}{4}$ Timothy, $\frac{1}{4}$ Domestic Rye Grass and $\frac{1}{2}$ Clover. See right hand panel for description of each mixture. The Rye Grass grows quick and fast providing early pasture and serving as a nurse crop for the Timothy and Clover which come on by mid-summer. The trampling of the live stock, if not too severe while pasturing the Rye Grass helps to pack the ground and helps the growth of the Timothy and Clover. While the Rye Grass lives but one year the others come up the second year to give excellent returns.

Sow Early—Nurse Crop Not Needed

Make new seedings by disking the land, harrowing. Then sow seed, harrow lightly and roll if possible. Thicken up old pastures by a light disking with knives quite straight. Then sow seed about 12 to 15 lbs. per acre and harrow and roll. For quick pasture of good value and lots of it sow Berry's Grow Quick Mixtures. Order by number, otherwise we ship number 3.

No. 1

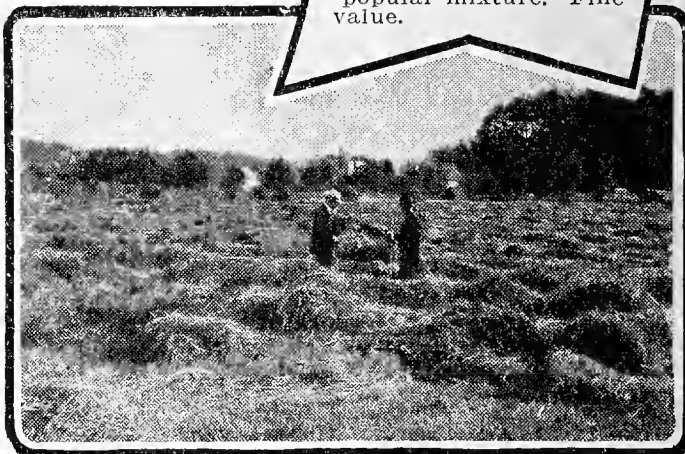

Half Korean Clover, a fourth Timothy and a fourth Rye Grass. Good quality seed.

No. 2

Half White Sweet Clover, fourth Timothy and a fourth Rye Grass. Very productive.

No. 3

Twenty-five percent each of Korean, Sweet Clover, Timothy and Rye Grass. The most popular mixture. Fine value.

PERMANENT PASTURE and MEADOW MIXTURE

For Heavier Production on Upland and Lowland Get a greater variety of feed and a longer pasture season

Our permanent mixtures are made up of grasses and clovers that will last a long time, produce big crops of hay or pasture and have a high feeding value. The original cost of seeding will run a little higher than some of our other combinations, but in the end they are very economical. We use good seed in these mixtures and blend them together under our own formulas which we believe to be the best available.

Varieties of Seeds Used

Not all grasses do best on all kinds of soils. For low land that is inclined to be wet at times we have one mixture. On higher ground others will do better. Some grasses will be in all mixtures, but in different proportions. We use in these mixtures clovers such as Medium and Alsike Clover, Alfalfa, White Dutch and Sweet Clover. Grasses such as Orchard Grass, Fescue, Bromus, Blue Grass, Rye Grass, Timothy and Red Top. The meadow mixtures do not contain the smaller growing grasses and clovers.

Thoroughly Mixed and Cleaned

This seed comes thoroughly mixed and blended, all ready to sow. We recommend 20 to 25 lbs. per acre for pasture seeding and around 15 to 18 lbs. for a meadow. Somewhat lighter seedings may be made, but there is no economy in light stands when good cleaned seed can be purchased at so low a cost. Follow the seeding suggestions as given on our Grow-Quick Mixtures above.

Our Permanent Mixtures are widely used and very popular. They give highly satisfactory results. Order by number.

RAYMOND C. LANGAN.

3 POPULAR MIXTURES

Our ready mixed seedings have always been popular. They give a blend of clovers and grasses that produce heavily. They yield more when grown mixed than separately. The cost of seeding is reasonable. All the seed is recleaned and shipment is guaranteed to satisfy you in every respect.

ALSIKE AND TIMOTHY

Super Grade Low Cost — Big Yields

A Safe, Sure, Economical and
Highly Satisfactory Seeding

\$3⁵⁰
PER 25 LB.
BU.

This is the year to sow liberally to this famous natural mixture. The cost is so low this year and a seeding lasts for several years. We know of no mixture that makes a finer quality of hay than our Super Grade Alsike and Timothy. The Alsike hay is less dusty than Red Clover and pound for pound it has a higher feeding value. It can be used as pasture to good advantage and keeps soils from washing.

Both Alsike and Timothy are very winter hardy. Alsike being the hardiest of the clovers. It will also grow on soils that are too sour or too wet for other clovers. Alsike and Timothy have the same soil and climatic requirements. They are naturally adapted to growing together. The Timothy supports the clover, enabling it to grow erect, taller and more leafy. The alsike forms a dense mat of clover down in the Timothy and it seems to stimulate the growth of the grass. Thus both do better when grown in a mixture instead of separately.

We know of sections where large quantities of this seed is grown together. The seed is harvested mixed. Because it is so difficult to separate the two we can buy it at a substantial discount below the cost of the Timothy and the Alsike unmixed. We secure the bulk of our seed from these sections. It is processed, cleaned and uniformed. It is passed on to you at prices that are real bargain figures for such fine quality clover rich seed.

This mixture when sown at 12 lbs. per acre will give an average of 65 Alsike seeds per square foot. It would take a 60% to 70% Mixture of Red Clover to give you such a heavy clover seeding. Alsike seeds are smaller and go farther. This mixture satisfies because it is easy to get a catch, lasts for years and produces big crop of the finest mixed hay.

We guarantee to save you at least a fourth on this high grade seed. Get Samples. Compare for color, purity and clover content. This is new crop strong germinating seed. It is truly a remarkable value. We recommend and urge its use because we know it is a seeding that gives wonderful satisfaction and the seeding cost is low this year. Buy early and protect yourself on price.

Small Quantities Postpaid any Mixture on this page.

1 lb., 35c; 5 lbs., \$1.50; 10 lbs., \$2.50.

ALSIKE and TIMOTHY REGULAR GRADE

\$2.80 per bu.—20-25% Clover Economical and Highly Satisfactory

The same fine quality stock as our Super Grade. Twelve pounds sows an acre and places 40 clover seeds on every square foot in addition to the Timothy. That makes a rich mixture that produces heavily. Alsike is superior to Red Clover in feeding value. Hay is less dusty. The seeding is easy to start. This seed is very scarce this year. Comparison will show you our prices are low, quality considered. We will save you money on this quality seeding but ask for your orders early as we can not replace stocks at these figures.

Dalton, Ohio
Dear Sirs: I have been using Berrys seeds for many years, especially Red Clover. I have often compared with others, but find none to equal Berrys' for quality and price. This year I have the best stand of Red Clover in the community.

As ever, your customer,
S. J. KULA

4 WAY CLOVER and TIMOTHY MIXTURE \$3⁶⁰ BU.

Contains 30-35% of Alfalfa, Red Clover and Alsike Combined. Balance timothy.

Here is a great seeding that we personally like very much. Makes very fine hay and excellent pasture.

By adding some hardy alfalfa seed to our Red Clover, Alsike and Timothy mixture we have made a combination that our customers praise highly. It produces heavily and gives you an opportunity to get some alfalfa started. Although one of our newer mixtures it is rapidly forging toward the front in sales.

Our price this year has been cut deeply, making it an outstanding value. Some of our finest lots of mixed seed are used in making this blend. It certainly has an overflowing measure of value. Seeding cost is low. Only takes 12 lbs. per acre. It is priced to save you money on your seed bill.

RED CLOVER ALSIKE and TIMOTHY

SUPER
GRADE
\$3.60
PER
BU.

**SUPER
GRADE**

Contains 30% to
35% Clovers
This Triple Mixture
a Dandy

Far richer in clovers than most mixtures on the market. A heavier producer. Hay has a higher feeding value. Builds up the land better. Gives an average of 50 clover seeds per square foot when sown at 12 lbs. per acre. The Red Clover and Alsike combine to make a heavy mat of clover. A stand of this mixture lasts several years.

This seed is high germinating, recleaned, good purity. We'll gladly send you samples to prove its worth. It is a high class value that we know will please you. Prices are made for early orders.

Economical to Sow

Our mixtures are in big demand because they give wonderful results at low seeding cost. You can quickly see that the savings you can make are worth while when you compare quality. This year the cost is very low. The acre cost is not much higher than Timothy and those few cents per acre extra give you a heavy clover mixture. Your yields will be heavier, the quality of your hay crop better and your soil will be richer.

See page 36 for prices. Small lots, any mixture on this page. Postpaid 1 lb., 30c; 5 lbs., \$1.25

RED CLOVER, ALSIKE and TIMOTHY REGULAR GRADE **\$2.90** BU.

Contains 15% to 20% Clovers

The same fine quality seed that makes our Super Grade such an outstanding bargain. Contains less clover seed yet ample to make a good clover stand. This triple mixture is in big demand because it lowers seeding costs yet yields abundantly. If there should be spots in the field too wet or sour for Red Clover the Alsike is almost sure to catch. It is one of the surest seedings.

Priced to Save You Money

Let us save you money on your seed bill. Thousands of farmers know it is to their interest to buy direct-from-Berrys. Everyone of our ready mixed seedings is a bargain. It is not the low prices but the quality you get for the money that really brings satisfaction. Why pay more for seed that is no better?

RED CLOVER and TIMOTHY MIXED

Super Grade—30-35% Clovers

A great old favorite. Twice as heavy with clover as the average ready mixed seeding gives an average of 30 Red Clover seeds per square foot when sown at 12 lbs. per acre. Produces a dense mat of clover which grows all the taller because it is supported by the Timothy. Secure big yields at low seeding cost.

Good, live, cleaned seed. Thoroughly dependable for heavy healthy stands.

There is convenience and economy in using our prepared mixtures. Seed comes all ready to sow and seeding cost is lower. We can secure mixtures cheaper when grown in that way than to mix afterwards. You share these savings when buying these mixtures. Mail your orders early.

We challenge the world with our Red Clover and Timothy Super Grade and guarantee it as a superior seed value.

All the Mixtures on this page are sold at 45 lbs. per bu. Prices include bags free.

\$3.60
PER
BU.

RED CLOVER and TIMOTHY

REGULAR GRADE

Contains 15-20% Clover

\$2.90
BU.

This grade is the one most generally sold by dealers. It is good seed. Quality just as fine as our Super Grade only not quite so much clover in it. You can lower your seeding costs still further with this mixture. Plenty of clover seed in it to make a fine stand of clover.

You will find our prices on this grade materially lower than the average retail prices. Get samples. Make comparisons. You can order with perfect assurance of satisfaction. We guarantee a saving of at least 20%.

Why sow straight Timothy when you can get so much more from our economical mixed seedings? Just a few cents more per acre and you practically double the value of your crop. More hay and higher feeding value.

Many acres will be seeded this year in connection with the government program. You may want to make a low cost seeding. These mixtures give you that and at the same time crops that are really profit makers.

BU.

North Manchester, Ind.

Dear Sirs: After using Berry's seeds for five years I am fully convinced as to the quality of them. It is to my interest to buy from you. I always speak a good word for Berry's Seeds whenever the occasion arises. Yours truly,

A. F. STELLAR.

ENGLISH BLUE GRASS MEADOW[®] FESCUE

Quality Seed—Close Prices

A crop used for hay and pasture. Yields around 2 tons of hay per acre on average land. Grows 15 to 30 inches high. Exceptionally valuable for pastures because it comes on very early in the spring and keeps on the job until late in the fall. Grows well from Kansas and Nebraska east to the Atlantic Coast and from Canada to the Gulf of Mexico. Not critical as to soils. Few grasses can equal it on wet land. Lives longer than Timothy. Seed cost is low this year. Sow about 20 lbs. per acre. It is a profitable crop either alone or in mixtures. Start this grass. You will like it and will always want some on your farm. See page 36 for prices. Small lots, postpaid, 1 lb., 25c; 5 lbs., \$1.00; 10 lbs., \$1.80.

RED TOP

Grows Most Anywhere

No land is too poor to grow Red Top. It does well where many other grasses fail. If you have trouble getting a stand of grass sow Red Top—it seldom fails. It grows on dry land, and is specially adapted to wet land. Some like it mixed with Alsike Clover. It matures along with Timothy.

Red Top grows on soils low in lime. It is a great drought resister. Stops washing of the soil. Makes a good hay crop. One seeding lasts several years. Begins early in Spring, and continues its sturdy growth throughout Summer and Fall. Sow about 10 lbs. to 12 lbs. per acre.

Our price is drastically low this year. They are bargain figures. Our seed is very high quality. You get a real bargain in the kind of seed that will give you the best assurance of success. We guarantee to save you money.

Small lots, Postpaid, 1 lb., 25c; 5 lbs., \$1.00; 10 lbs., \$1.80. See page 36 for quantity prices.

Unhulled Red Top

This seed is very low in cost. See page 36. In threshing this seed all hulls are not removed, and these are separated in grading. It is good serviceable seed but because of the hulls making it more bulky it sells at a material discount.

Supplies Limited

Many of our customers prefer this kind of seed and we always have a big demand for it. It certainly is a great value at our present low price. Be sure to order promptly and assure getting your supplies.

BERMUDA GRASS

Largely sown in the south for lawns and pastures. Not hardy in the north. Sow 5 lbs. per acre for pasture and heavier for lawns. Postpaid, 1 lb., 35c; 5 lbs., \$1.50; 10 lbs., \$2.75. Not Postpaid, 10 lbs., \$2.25; 25 lbs., \$5.25; 50 lbs., \$10.50.

Glenbeulah, Wisc.
Gentlemen:

I have been your customer for many years, and have always had satisfactory results. Your

grass seed is so dependable, being so free of noxious weeds. One field of Alfalfa from your seed lasted nine y's. Yours truly, OTTO H. HERRLING

BROMUS INERMUS

Also Known as Brome Grass

Excellent Drought Resister and Heavy Yields

Makes a splendid hay and pasture crop. Good feeding value. Livestock is very fond of Bromus. Produces heavily. Roots of Bromus go down 5 to 6 feet. It is a wonderful drought resister. Stays green when other grass becomes dormant. Starts a couple of weeks ahead of most grasses. Does well on clay loam and sandy soils. Usually makes some hay first year. Second and third years produce extra heavily. The most severe winters will not kill it. One seeding lasts many years, yet it is not difficult to eradicate.

Our prices this year are drastically lower. We have a fine quality of new crop re-cleaned seed and can save you good money on Bromus. The seed is generally sown at around 20 lbs. per acre. Prepare a good seed bed. Harrow in the seed, a little and if possible roll the ground afterwards. Order your seed early.

The great increase we have had in the demand for Bromus during the past few years shows its growing popularity. It is a distinctive grass that increases production and profits.

Small lots, postpaid, 1 lb., 35c; 5 lbs., \$1.50; 10 lbs., \$2.50. See page 36 for wholesale prices.

ORCHARD GRASS

Low Prices on New Crop Seed

A very productive perennial grass. Starts growing very early in the spring. Grown in every state in the Union. Makes good hay. Yields about same as Timothy. Best grass for shady places. Keeps creek banks from washing. It is a good drought resister. Makes a fine combination with Red Clover for hay. Gives heavy aftergrowth after hay crop.

We know that customers who start with Orchard Grass will seldom do without it. It is a grass of great value. It will pay you to get acquainted with it. Our seed is new crop and guaranteed to satisfy.

Sow 20 lbs. per acre. See page 36. Small lots, Postpaid, 1 lb. 30c; 5 lbs., \$1.25; 10 lbs., \$2.25; See page 68 for lawn grass mixtures.

Small lots, postpaid, 1 lb., 65c; 5 lbs., \$3.00; 10 lbs., \$5.75. Not prepaid, 10 lbs., \$5.00; 25 lbs., \$12.00; 50 lbs., \$23.50.

New Crested Wheat Grass

A most valuable grass. Highly resistant to extreme cold and drought. Wonderful pasture. Yield 1 to 3 tons of hay per acre. High feeding value. Stands lots of abuse. Starts growing very early in the spring. Continues late in the fall. Widely recommended by farm papers and agricultural authorities. Sow in spring on a well prepared, firm, fine seed bed, cover lightly. Use 10 lbs. per acre in close drill rows or 4 to 5 lbs. in rows to be cultivated.

Apple Grove, W. Va.

Dear Sirs: I have been using your seeds for the past five years. I find them perfect in every way. Good in purity, high in germination. They surely stand extreme cold weather. Your prices are much cheaper than I can find anywhere else. Yours respectfully, C. D. PUTNEY.

Pounds. Bushel weighs 50 lbs.

GROW IT THIS YEAR

A Most Profitable Crop

This valuable, quick growing, heavy producing grass should be grown on every farm. Produces enormous hay crops. Makes fine pasture during hot summer months. If you are needing a big hay or pasture crop this year be sure to sow Sudan. It is a sure crop and easy to grow.

Sudan

Our price this year is one of the lowest on record. Many growers are holding their seed because price is below cost of production. Markets may work higher. Our present low prices give you an exceedingly small cost for one of the most productive and valuable forage crops grown. This is the year to sow Sudan.

Description

Sudan belongs to the cane family but is finer stemmed and a free stooler. Grows 4 to 7 feet high and yields 4 to 10 tons of cured hay per acre. Livestock is very fond of Sudan. It has good feeding value. First hay crop can be cut in about 60 days after seeding and second and third crops 30 to 40 days apart.

Sudan is one of the best drought resisters known and supplies an abundance of fine pasture or hay during the hot dry months of the summer when feed is often scarce. That's why every farm should have some of it. It has been a life saver to thousands during the past few years.

How to Handle

Sudan is a warm weather crop. Do not sow until corn planting time or after. Prepare a good seed bed as you would for corn. Drill in close rows or broadcast. Cover seed about an inch deep. Sow 20 to 25 lbs. per acre. You can begin pasturing when 6 to 8 inches high. Cut for hay when in bloom, although you can cut earlier or later without damage or loss.

Our Seed a Great Bargain

This seed is the finest new crop seed. It is all bright, plump, re-cleaned, high germinating seed. You can be assured of strictly extra fancy world brand quality stock. Money will not buy any better grade. It is free of Johnson Grass. We guarantee to save you money on our Sudan Grass. If this seed fails to please you in every way let us know and prompt adjustment will be made in conformance with our guarantee.

It is easy to grow Sudan Grass when you use seed of such fine character. We urge you for the sake of better farm profits to grow some of it this year. It produces enormous quantities of feed in a short time. It keeps right on the job when heat and drought are damaging other crops severely. You get the best bargains by buying now.

Rockwell City, Iowa.

Gentlemen: I have been a customer of yours for several years. Your Red Clover seed is a wonderful producer. Your Dakota No. 12 Alfalfa, both in price and quality, has given me the best of satisfaction.

S. G. FOWLIE.

\$ **1.90**
Bu.

New Crop
SEED

BILLION DOLLAR GRASS

An Enormous Producer

\$ **1.05**
PER
BU
35 LBS.

The popularity of this grass is ever on the increase. It is a variety of Millet also known as Japanese Millet. It is without doubt the heaviest producer of all millets, especially on rich moist soil. Grows 6 to 8 feet high. Produces as high as 26,000 to 50,000 lbs. of green feed per acre with seed production of 1,000 to 2,000 lbs. per acre.

It also can be used for pasture. May be mixed with Soy Beans or Cowpeas. If fed green start stock on it gradually. It is palatable and particularly valuable for dairy cattle, young stock and sheep.

Should not be sown until weather is warm, but will stand somewhat cooler growing conditions than Sudan. For that reason it is especially popular in the north, although it is grown throughout the entire country. Sow during May, June or July, using 20 lbs. per acre. Makes hay in 6 to 10 weeks.

Low Price for this Year

We are selling Billion Dollar Grass at a new low record price. Early purchases brought us the finest lot of seed we have ever handled. It is far superior to the average quality of this seed. Our stock goes farther, is cleaner, more uniform and of stronger germination. You can save big money and get the finest quality by ordering early.

1 lb. 20c; 5 lbs. 75c, postpaid.

Sudan same price
in small lots.

CROPS of SPECIAL VALUE MILLETS

GERMAN OR GOLDEN

This is that beautiful, heavy growing variety that makes such wonderful production. Its leafy growth is 4 to 5 feet tall. Yields 4 to 5 tons per acre and seed yields of 40 to 50 bushels. The feeding value is fine. It is one of the most popular varieties of millets and very widely grown.

This crop can be sown any time after corn planting until the latter part of July. Sow 40 to 50 lbs. per acre for hay production; 25 to 30 lbs. per acre for a seed crop. Our seed is from a heavy producing variety and you will find it an article superior to the average. See page 37 for prices.

WHITE WONDER

This runs our Golden Millet a close second in popularity. Many think it is better. It has a dense foliage and broad leaves. A wonder for production. Matures early in spite of its big size. It has long heavy seed heads and is a good seed producer. Color of seed is white. Makes excellent hay if cut just when seed heads are beginning to form.

To some seedmen millet is millet, but we find that thorough cleaning and grading makes a superior product and that such seed produces more profitable crops.

SIBERIAN OR EARLY RUSSIAN

Two to three weeks earlier than German. Can be sown later but does not yield as much. Hay is of very fine quality. Grows 2 to 4 feet. Seeds reddish brown. Sow 35 to 50 lbs. per acre.

PROSO-MILLET

Also known as Hog Millet—Broom Corn Millet and Russian Wheat.

This Variety is grown almost exclusively for seed. A very prolific producer. Seeds are larger than other millets. Makes fine feed. It is used in some countries for human food. Equal to Barley in feeding value. Makes extra fine poultry feed.

Proso is a heavy seed producer, yielding up to 60 to 70 bushel per acre. It matures in sixty to seventy days. Makes a good cash crop. Needs warm weather and soil for quick germination. Sow 40 to 50 lbs. per acre. Drill in close rows or broadcast.

The demand for this seed has increased very rapidly in the past few years. Seed supplies short this year. Order as early as possible.

DWARF ESSEX RAPE

**Reduces Pork Production Costs
Enormous Producer—Grows Quick
Economical—Every Hog and Sheep
grower should have plenty of Rape
pasture**

Sow this liberally and cut pork production costs. Higher pork prices are in sight. That means better profits. Lower your production costs and make still more money. Every hog grower can produce pork at lower costs if he has a good rape pasture.

Rape is exceedingly rich in protein, analyzing as high as 37%. Think what this means when yields run as high as 24,000 pounds of green feed per acre. Young pigs especially need lots of protein if they are to make the most rapid and economical gains. It is far cheaper to grow protein in the form of rape pasture than to buy it in the form of tankage or other feeds.

The seed is cheap, see price list. It only requires 6 to 8 lbs. per acre. It can be pastured in six to eight weeks after seeding. Sow any time from oat seeding until early in July.

Experiment stations recommend Rape highly. It builds big, strong body frames. Cuts down on grain consumption. Gets stock ready for market earlier. Used chiefly for hogs and sheep, but is good for all kinds of young stock. Our seed is genuine Dwarf Essex, 5 lbs., postpaid, \$1.00. See price list for quantity prices. See page 37 for larger lot prices.

Friends, if you really know the money-making features of this crop you would never be without it. We urge you to try at least a small patch of it.

BERRY'S ANNUAL PORK PRODUCER

A rapid growing mixture of legumes, forage and grass crops. Makes a wonderful pasture. Can be used a few weeks after seeding. Enormously productive. High in protein. Builds big body frames, reduces grain consumption. Makes hogs of marketable size in quicker time. Contains Peas, Vetch, Rape, Beans, Rye, Barley, Speltz, Oats, Sudan, Cane, etc. Sow 40 to 50 lbs. per acre after danger of frost. This is a great pasture combination at low cost. See price list, page 37.

VETCHES

SPRING VETCH

Spring. An annual variety having much the same characteristics as peas. Does well wherever Canada Field Peas are grown. Requires cool growing season. Should be sown early, using 50 lbs. per acre. Grows 3 to 5 feet high. Is quite finely stemmed. Generally sown with a bushel or two of oats and the two cut together for hay. Grows rapidly, yields heavily. Excellent feeding value; high in protein. Produces a wonderful early hay crop. Makes best hay if cut when in full bloom. Does not live over winter.

SAND OR HAIRY

Also called Winter Vetch. May be sown spring or fall. Lives over one winter. Use 20 to 25 lbs. per acre. Can be sown with spring grain and pastured some in fall. Remains green for a long time. Excellent cover crop. Fine soil builder. Good yielder. High feeding value. Inoculate all Vetch seed. See Pages 36-37.

Scotia,
Nebr.

Dear Sirs:

My father started buying seeds from you in 1898 and I have used Berry's seeds for the past 15 years. Have never had a complaint. You have always satisfied me and saved me money.

Yours truly,
CHAS. KEOWN.

CANE

A Leading Forage Crop

A crop that is rich in sugar and fat and very palatable. An enormous yielder producing from 10 to 15 tons of excellent green feed on rich land. A most remarkable drought resister. Especially valuable in dry hot seasons. Makes a wonderful hay crop when sown at the rate of 75 to 100 lbs. per acre.

Some farmers get cash out of their ordinary hay crops and use cane for their own feed supply. A few acres of cane will make as much hay as many acres of Timothy. Your live stock will relish cane hay and fatten on it. You can also pasture cane or cut it for green feed. Makes excellent summer and early fall feed. It is also used for ensilage. Cane is also a good seed producer, yielding 30 to as high as 60 bushels per acre.

How to Handle

Sow quite heavily for hay or pasture, 75 to 100 lbs. per acre. Heavy seeding makes a finer growth and therefore easier to cure. Do not sow until corn planting time or after. It is a warm weather crop. Drill in close rows, or broadcast. Cover about an inch. Can be cut and cured like ordinary hay. Takes a little longer to cure than ordinary grass hay.

Early Amber. The kind most generally grown and of great value because of its splendid growing qualities.

Early Orange. Heavier stalks more abundant leaves. Seed head more compact. Heavier yielder but a little coarser.

CANE for MOLASSES

To make good sorghum, seed must be pure and we take care in getting this seed direct from sorghum producers. We do not guarantee the crop, but we consider our seed equal to if not superior to any on the market.

Ames Special Sorghum. An improved type of the Amber. Makes excellent sorghum of fine flavor and color. Very juicy. We recommend it highly. We are sure you will be pleased with it.

Silver Tip. More after the orange type. Makes delicious mild, clear, light colored molasses. Ranks very high in favor with expert sorghum makers.

Price, 1 lb., 30c; 5 lbs., \$1.00, postpaid. Not prepaid, 5 lbs., 75c; 10 lbs. or more, 11c per lb.; 50 lbs. or more, 10c per lb.

GROHOMA

A Cross Between Cane and Kaffir

Greatest drought resister. Very heavy producer. Cattle like it. Wonderful feed. Grows strong and erect. Most popular forage of recent introduction. Excellent pasture. Drill, double rowed using 18 to 20 lbs. per acre.

Price, postpaid, 1 lb., 25c; 5 lbs., \$1.00. See page 37 for prices in larger quantities.

BERRY'S Special GRAIN and HAY CROPS

KAFFIR CORN

A sorghum grain crop. Used to some extent for hay. Stalks less juicy than cane and not sweet. Stands lots of hot dry weather. Makes fine poultry feed and suitable for all kinds of live stock when ground. Produces up to 40 to 50 bushels of seed per acre. For grain drill in rows 30 to 40 inches apart using 6 to 8 lbs. of seed per acre. For hay drill close or broadcast 75 to 100 lbs. Cut off heads, cure 10 days to 2 weeks then thresh. Our seed is high germinating. Prices are very low on both Red and White Kaffir.

SEE
PAGE
37
for
SALE
PRICES

Feterita

A great drought resisting crop. Earlier than Kaffir. Has a higher protein content. A very heavy producer. Grains flat in shape, bluish white in color. The crop is a free stooler. Handle like Kaffir. Adapted to a large territory because of its earliness. Makes good hay if seeded 75 to 100 lbs. per acre. For grain about 6 lbs. A leader among grainsorghums. Postpaid, Feterita or Kaffir 1 lb., 20c; 5 lbs., 75c

BUCKWHEAT

A quick growing grain crop. Matures in 10 to 12 weeks. Excellent catch crop. Sometimes sown after small grain so as to get two crops from the land. Good cover crop for orchards. Makes land mellow. Good for bee pasture. Does well on all soils excepting wet land. We have two varieties. Both are excellent yielders. Our seed is thoroughly cleaned and guaranteed to be satisfactory in every way.

Japanese. Rich dark brown. Strong grower. Earlier than most varieties. In big demand.

Silver Hull. Thin shelled. Silver grey. Medium sized grain. Makes nice flour.

Postpaid, any of above five crops. 1 lb. 20c; 5 lbs., 75c.

HEGARI

This is a sweet sorghum somewhat similar to cane. Very nutritious. Valuable for grain, dry fodder, ensilage and pasture. Yields up to 5,000 lbs. of grain per acre and up to 18 tons of ensilage. Live stock especially cattle are very fond of it due to its sweet taste. It combines the grain production of Kaffir and Milo with the high forage value of cane. For grain production drill like Kaffir 6 to 8 lbs. per acre. May be double rowed using double the amount of seed. For hay drill in close rows at 75 to 90 lbs. per acre. Postpaid 5 lbs. for 75c. See page 37 for quantity prices.

MILO MAIZE

Similar to Kaffir. Earlier. Stalks more pithy. Requires less moisture. Fine feed. Handle like Kaffir. Color white. Excellent yielder. Our seed high testing stock. Prices low. See page 37.

Broom Corn

Grown for straw in the seed heads. 4 to 5 pounds plants an acre.

Improved Standard — Excellent straw of good strength and stiffness.

Dwarf Evergreen — Best for dry conditions. Price, 1 lb. 25c; 5 lbs. \$1.00, postpaid.

SOY BEANS

**Save by Buying
DIRECT**

A Big Money Crop

Here is another excellent crop to use on land thrown out of corn production. Can be used as a fertilizing crop of great value when crop is plowed under.

It is truly amazing how soy beans have swept the country. Comparatively a few years ago they were an experiment. Now you see them everywhere. The farmer who loses out on a crop of clover no longer does without hay. He plants Soy Beans and harvests a heavy crop of fine hay in the fall. If small grain doesn't pay him he plants soy beans for a seed crop and harvests 20 to 30 bushels of beans per acre. In our part of Iowa farmers plant soy beans after the small grain is off and take another hay crop or plow under the stand for soil building. It's no wonder the crop is popular.

Our Prices Low

You will find all kinds of prices on soybeans and all kinds of qualities. Our beans are real seed stock and very much superior to much that is sold for seed. They are thoroughly cleaned, run remarkably free of splits. Requires less seed per acre and produce better stands. Considering this all important factor of quality our prices are very low. See page 37.

Weather last fall resulted in many beans being made unfit for seed. Markets on high quality seed will strengthen as planting season approaches. Our advice is, buy early.

How to Handle Soy Beans

Plant when weather and soil is warm, corn planting time or later. Prepare a fine clean seed bed. For hay broadcast or drill in close rows 1½ to 2 bushels per acre. For seed in 18 to 20 inches apart 30 to 40 lbs. per acre. Cultivate with a harrow while beans are small and dry. Cut for hay when beans are fairly well formed, but before leaves fall. Harvest for seed when beans are practically ripe.

Inoculate Your Seed

Inoculation will give heavier yields and higher feeding value. Cost is low. McQueen's guaranteed Humus Inoculator for Soybeans, Cowpeas and Field Peas is only 30c bu.; 50c for 2 bu.; \$1.00 for 5 bu.; \$1.70 for 10 bu. and \$2.75 for 20 bu. size. 20 bu. comes in soy beans only. Prices are postpaid. Full directions furnished.

Varieties

Dunfield. Pure yellow. Heavy seed producer and an excellent hay type. Stands up well. Does not shatter easily. Matures in about 105 days. Medium sized leaves and stems. An extra good all purpose variety.

Manchu. An old standby. Widely grown both for hay and seed crop. Color light yellow with dark seed scar. Stands up well. Adapted to a wide range of conditions. Fine for hogging down. 105 days.

Illini. Very popular. Grown for hay north of Central Iowa and for hay and seed south. Medium in stems, leaves and maturity. Grows erect. Color yellow. One of the most profitable varieties.

Wilson Black. A hay bean. Medium late. Small black seeded. Fine stemmed. Very nutritious. Very much in demand as a hay bean. 120 days.

Black Ebony. Grows erect and bushy. Fine stems, holds leaves well. Matures seed 120 days. Very popular.

Virginia Hay bean. Makes large growth with enormous yields of hay. One of the best beans for poor land. Seed brownish and smaller than the average. Requires less seed per acre.

Prices on Pages 36-37

COWPEAS

This is a money making legume. A soil building and hog crop that is widely used.

Quick maturing crop. Requires more warmth than Soy Beans. Grow on poor soils. Very good for sandy or light loam. Makes rich feed. Also good soil builders. All our seed stock is fine. See quotations page 37. Write for prices on large amounts. State quantity desired. Can ship southern orders from St. Louis.

Varieties

Whippoorwill. Medium early in maturity, about 80 days. This is the most popular of all cowpea varieties and we have a big demand for them. They grow quite erect, which is a desirable characteristic and, no doubt, one of the reasons for its popularity. They are heavy producers and make a profitable kind to use. Seed is speckled brown in color. We recommend it highly.

New Era. If you wish the earliest of all varieties select this one. Good for northern states or where late planting is necessary. May be planted after small grain for plowing under. Good soil builder. Smaller seeded than Whippoorwill. Use 1½ bu. per acre for broadcast seeding.

Mixed Cowpeas. Somewhat cheaper than unmixed yet many prefer a mixture. Fine for pasture, hay or soil building. Very desirable unless pure seed crop is desired. All good reclaimed stock. We have a big call for mixed cowpeas.

CANADA FIELD PEAS

For early hay or green feed nothing equals Field Peas. Can be sown as early as land can be worked. Disc or harrow in 1 to 1¼ bushels Peas with 2 bushels Oats. Cut for hay when oats are in the dough stage. Production is very heavy and feeding value very high. Also fine to plow under for soil enrichment. Crop very fattening. Increases milk production. Excellent for hogs. Solves the problem for early green feed as no other early crop can do.

Our seed is high quality, genuine Canada Field Peas. Crop short but our prices low. See page 33. If you are going to be short on feed next spring we recommend this crop very highly.

Edwardsville, Ill.

Dear Sirs: I have bought seed from you for several years. I find them to be O. K. in every way. The quality and the germination is very satisfactory. Your seeds produce results. Also your prices are real money-saving quotations. I am well pleased.

Yours truly,

H. C. STRASEN.

LOWEST PRICES

SEED CORN

90% GERMINATION

Watch Your Seed Corn this Year

Damp cool weather last fall kept the moisture content in corn abnormally high and stimulated mold and fungus growth on ears. As a result germination of much corn is very poor. Real good seed corn is scarce in many sections. Take no chances on weak seed. The acre cost of good seed is so small you cannot afford to gamble. We have selected our seed this year from extra select fields. This stock has been sorted with extraordinary care. While our supplies are smaller than usual we can take excellent care of all who will protect themselves by ordering early. The quality is guaranteed to satisfy every buyer in every way.

Why Our Seed Is Better

Our customers report increases in yields of 10 and 20 bushels per acre. That doesn't happen by chance. Our seed stock is of known heavy production under general farming conditions. The seed selection is from fully matured, well formed ears. It is quick high germinating stock. This seed is then shelled and graded and laboratory tested. Less than half the stock we gather for seed finally gets in the seed we ship. It is real seed stock.

We do not breed for show corn but we strive to get the largest number of bushels of good sound merchantable corn per acre. You'll find plenty of show ears in your field next fall, but what will please you most is the heavy yield per acre.

The description of the different varieties here given will show you that we have corn for all sections. Medium late, medium early and extra early. We have seed corn for you and when you consider the quality of seed stock we offer you will agree that our price is very reasonable. See page 37.

CLARINDA BIG PERFECTION

This is the largest eared and heaviest producer of all our open field pollinated yellow varieties. A splendid sort. Just a little later than Pride of Iowa. Ears not quite so uniform, but larger. Big thick ears with large kernels. Deep golden color. Broad thick deep grains. Large strong germ. Vigorous grower. Maturity around 110 to 115 days. We don't believe there is another variety to equal it. It is being grown well up into Iowa and all points east and south. It sure is a dandy corn. If you want to show your neighbors how to grow a real crop of corn plant some Big Perfection.

Fairfax, Mo.

Dear Sirs:

Each year for 25 years I have bought seeds from the Berry Seed Company. I have found the quality of your seeds equal or superior and the price always lower than any I could obtain elsewhere. I also know you have some extra good seed corn.

Your customer,
FLOOD L. FELLOWS.

SEED CORN GUARANTEE

30 Days to test it—Your money back if not satisfied. 90% or better germination

We take great care in the selection and preparation of our seed corn. It is all tested and labeled when shipped. You have the privilege of examining it and retesting it in any way you wish. If you do not find it as represented, or if for any reason you are not satisfied you may return it, and your money plus transportation charges will be promptly refunded. We abide by your decision. There are no strings to this guarantee. We say what we mean and mean what we say. You must be satisfied.

BERRY SEED CO., CLARINDA, IOWA

PRIDE OF IOWA

One of our heaviest producing yellow. A cross between Reids Dent and Legal Tender. Gives a larger ear than Reids without the tendency to become flinty. Grains deeper and wider than Reids but not quite so smooth. Rather a small cob. Has a heavy shelling percentage. Average maturity around 110 days. Small shank, easy to husk. Ears are well filled.

We have reason to be proud of our Pride of Iowa and you'll be proud of a field of it on your farm. Our shelled stock is A No. 1. If you want some ear corn in this kind we can supply something extra nice. See page 52.

Shelled Page 37

BERRY'S IMPROVED REID'S DENT

A superior strain of a well known variety. Solid compact ears 9 to 13 inches long. Grains quite deep and set close. Straight rows well filled. A great improvement over the old Reids. Rich golden color. A small cob and shank. High feeding quality. Maturity around 100 to 110 days.

IMPROVED LEAMING

A good producer on all soils. A tried and tested variety for over a century. Well filled ears. Deep broad grains. Medium sized red cob. Shells out well. Often used for ensilage in northern states. Quite early. Matures in 110 to 120 days.

LEGAL TENDER

A pure yellow corn with deep grains and small red cob. Ears extra sized. Has yielded 90 bushels per acre for John Hess in Central Iowa. Produces exceptionally well. Abundant foliage. Excellent for forage. Easy to shuck. A variety that will please you. Around 110 days' maturity. See Page 37 for Prices.

LARGER YIELDS MAKE BERRY'S SEED CORN A WISE INVESTMENT

Berry's Golden Dent

We consider this a leader in its class. An early yellow dent 90 to 100 days. Large ears for such an early variety. Similar to Reid's Dent but earlier. Fairly smooth kernels. Sixteen to twenty rows. This is a heavy producer and we recommend it highly. Our seed stock is fine and can take excellent care of your order.

Iowa Gold Mine. Another fine medium early variety. About a 100 day corn. Deep yellow grain, small cob. Always gives satisfactory results. Sold under various names by different seedsmen. Those wishing a medium early heavy yielding corn will make no mistake in selecting this variety.

EARLY YELLOW DENTS

Pride of the North. Especially recommended for northern customers and those wanting early feeding corn. Maturity about 90 days. One of the finest pure yellow early dents. Medium sized solid ears. Stands up well and yields surprisingly well.

Minnesota No. 13. Also in the 90-day class. Very popular; eight-inch ears, often two on a stalk. Stalks quite leafy. Does well even under unfavorable conditions. One of the best producers in its class. We always have a big demand for this.

Other Excellent Early Types

Yellow White Cap Dent. We recommend this highly. A 90 day type. Nice deep kernels. Sides medium yellow. Caps or tops of grains white. One of the finest early feeding varieties in existence. The kind you get enthusiastic about. Heavy producer of fine solid corn. You will be exceptionally well pleased with this one.

White Cap Red Dent. Grains cherry red color with white or light colored top or cap. Yields heavily. Grains softer than average. Matures 90 to 95 days. An excellent feeding corn. Adapted most anywhere in the corn belt.

Up-to-Date Calico. This is the famous "speckled" corn that has been popular for so many years. A fine feeding variety. Various strains of Calico on the market. We consider this the best. Excellent yielder, good sized ears, medium deep grains. Matures in 100 days. We seldom have enough of this variety to fill demand.

One lb. shelled corn
any variety 20c;
5 lbs. 75c.

Prices
Page
37

KRUG'S DENT

Ranks along with our Big Perfection and Pride of Iowa in yield, but is 10 to 15 days earlier. A four-year test in Illinois proved it the best yielder of 118 varieties. It is a cross of a smooth Reids Dent with Gold Mine. Ears somewhat smaller than Reids, but lots of them. Exceptionally firm and solid. Rich yellow color. Combines early maturity with heavy production. We recommend it highly. We do not believe there is another variety of equal earliness that will yield like our Krugs Dent. Our Hybrid is the only exception.

CORN TREATMENT

Merko

Costs only 3c per acre

This dry treatment can be applied to seed corn any time before planting. Controls seedling blight and root and stalk rots. Increases germination, permits earlier planting and reduces seed decay. Makes heavier yields. A pound treats 6 bushel. Easy to apply. Full directions furnished.

Price 1 lb. \$1.25;

4 oz. tin 50c

Prepaid.

CORN
100 BU. PER ACRE
XX
DOUBLE CROSS
HYBRID

Fall weather was so wet that seed supplies we had depended upon shrank to a fraction of our requirements. Our supplies were sold out before Dec. 1st. Therefore we are unable to quote at time this catalog goes to press. We are contacting other growers of the better class of Hybrids and may be able to quote later. So write us if you wish 1st year Hybrid and will advise you if we will have dependable seed for you.

SECOND YEAR HYBRID

When Hybrids were first brought out it was recommended that the crop produced from the first planting should not be used for seed. However economic conditions forced many farmers in this section to experiment and the results have been highly gratifying. Farmers in this section are enthusiastic about it. They have secured from this second year Hybrid, big yields, early maturity and fine quality. Local growers reporting yields of 15 bushels more per acre than open pollinated varieties. We recommend the use of it on account of its high feeding value.

LIMITED SUPPLIES AVAILABLE

We have a few hundred bushels of this 1935 crop Second Year Removed Hybrid that is fine. Our preliminary tests ran 92% germination. We have put this corn into fine shape and consider that we have something extra fine for our trade under existing conditions.

This corn has a fine golden yellow color. Grains of a good depth. Nice sized ears, strong stalk and root system. Has proven a good drought resister. Highly favored because of its early maturity. Seems to have decidedly superior feeding value. Stock comes closely graded. It has been carefully tested and is sold subject to any test you wish to put it to. Return if not fully satisfied. Your money plus freight will be promptly refunded.

Price while the stock lasts is only \$6.00 per bushel of 56 lbs. 5 bu. for \$28.75.

See Prices, Page 37 on Other Varieties

MONEY MAKING WHITE VARIETIES

St. Charles White

This is the famous white ensilage corn that produces such enormous crops. Clear white deep grains of large size, medium rough type. Red cob. Large ears. Stalk growth is quite tall. Has broad succulent leaves. Used extensively for ensilage, even in the northern states. Will yield 40 to 50 tons of green feed per acre. Makes a good milling corn on account of its clear color. It is a phenomenal producer in great demand. Place your orders early for St. Charles. Our seed stock is excellent high-testing and well graded.

BOONE COUNTY WHITE

A large white variety that has exceptional merit. Meets with immediate favor wherever it is introduced. The ears are a little larger around than the White Wonder, but not quite so long. The pearly white kernels are large and deep. Pure white cob. Strong germs and a vigorous grower. Matures in 115 to 125 days. We recommend this for southern Iowa and all points south or wherever a corn of this maturity can be grown. The big ears of Boone County White fill a wagon box quickly. It is an excellent variety and our seed is of fine quality.

SILVER KING

A very early white also known as Wisconsin No. 7. Resembles Silver Mine, but the ears, of course, are somewhat smaller and grains not quite so deep. Matures at least ten days earlier. Although earlier, it is a very good yielder and ranks foremost among the early white types. Will outyield yellow on poor soil. It's just the kind of corn many farmers are needing.

EXTRA EARLY VARIETIES

Rainbow Flint

A heavy producer. Many different colors in kernels from dark red to shades of yellow. Withstands very unfavorable conditions. Can be planted quite thick. One of the later flints. This flint variety is in big demand.

LONGFELLOW FLINT

Fine 8-rowed yellow flint. Long, straight, slender ears. Large, wide kernels. Small cob. Very prolific.

SILVER TRIUMPH

An excellent white flint. One of the best. Long ears, often two on a stalk. Grows good sized stalk. Can be planted close and produces a lot of corn per acre. Fine for those who want real early yield. Can be planted quite late.

WHITE WONDER

Some ears are 12 inches long and over and proportionately large in circumference. They are big fellows. Makes good solid ears, well filled and not flinty. Good sized grains, fairly rough. Strong vigorous stalks many having one large ear and one small one. Out-yields any white corn we know of. Maturity 115 to 120 days. We have seen it outyield Reids Dent 31 bushels going to 92 bushels per acre.

Usually exceeds the expectations of the grower. It sure is a wonder for production.

SANFORD'S WHITE FLINT

Very similar to Silver Triumph.

HOW WE SELECT OUR FAMOUS EAR CORN

Mr. A. R. Gorton, who has been chief of our corn division for many years, personally superintends the selection of our ear corn. Only the finest well formed, fully developed true to type ears are selected. He picks the cream of the crop. When you get a crate of ear corn you have something to be proud of. Each crate contains 70 lbs. of fine ear corn. Our shelled corn, of course, comes from the same fields and should produce equally well. Those who want to see it in the ear and know exactly the type they are planting will be delighted with this seed. We sell thousands of bushels of our seed corn in the ear.

The low prices we have on it this year makes the acre cost very low and certainly makes it a wise and profitable investment.

Extra Fine Ear Corn This Year

Our supply of extra select ear corn is the finest we have had for many years. Beautiful, well formed, full kernalled ears that are a delight to every judge of good seed corn. Bushel crate, \$4.00; 5 crates, \$19.00; Single ears, 25c each, postpaid.

Shipment is guaranteed to reach you in good condition. It is sold subject to any test you want to put it to. You can return it and get your money, plus freight, refunded if you are not completely satisfied and fully pleased.

We can supply our extra select ear corn only in the following varieties: Big Perfection, Pride of Iowa, Krugs Dent, Reids Dent, Improved Leaming, Legal Tender, Iowa Gold Mine, Silver Mine, Boone County White and White Wonder. All other varieties are available only in shelled corn.

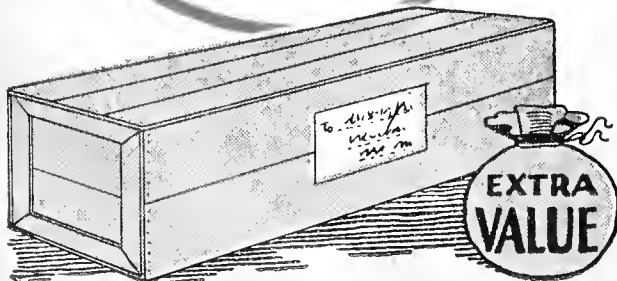

**LOW PRICES
CONSIDERING
BIG YIELD**

SEE PAGE
37 for

**LOW
PRICES**

\$ilver Mine

The most popular white variety in the corn belt. A splendid yielder. Does well on all soils. Best variety for thin land. Maturity about 110 days. Will stand thick planting. Many stalks produce two ears. Pure white grain and cob. Medium rough type. Good shelling percentage. Makes good solid corn. For all around merit it is hard to excel. One of the best varieties for general use in the corn belt. A safe, sure and profitable kind to grow. It makes friends everywhere it goes.

**WHITE
HULLLESS**

Has no Beards and no Hulls

A remarkable grain. Kernels resemble wheat in size and shape but lighter in color. Weighs out around 60 lbs. to bushel. It is sold however on basis of other varieties, 48 lbs. Straw is more leafy than other varieties. It is frequently cut for hay. Stands up well. It is particularly drought resistant. Heavy producer, yielding up to 40 to 70 bushels per acre. It is entirely free from beards.

We consider it fully equal to corn in feeding value. Exceptionally good for hogs and poultry. A fine plan is to feed both barley and corn. That gives a combination of nutrients superior to either crop fed alone.

The crop is easy to grow. Sow around 2 to 2½ bushels per acre. Handle like any small grain crop. The first crop in a neighborhood can often be sold at a premium for seed. Get acquainted with this remarkable profitable grain crop. Prices page 37.

ODERBRUCKER

Also known as Wisconsin 55. A standard malting barley. This, in our opinion, is the heaviest producer of its type by 5 to 10 bushels per acre. Plumper kernels. Great disease resistance. Higher protein test. Better feed. A bearded variety that gives greater returns. Our strain of Oderbrucker will please you. You can't afford to go on with low yields on small grain. Better seed will help you out. This fine variety of this profitable grain produces more wealth. Discard poor seed. Invest wisely in better stock. Our seed is fine quality, bright and clean. We have kept this old standard variety up to a high state of production by proper seed selection. You will find it to your interest to use seed of this character.

Danese, W. Va.

Dear Friends:
I have found you an honest and reliable house. Your seeds are certainly good and reliable in every respect. I am well satisfied with your service.

Yours truly,
WATSON COLE.

BARLEY

Big Increase in Demand

Barley, the heaviest producer of small grain crops, has again stepped to the front. It is back on the Board of Trade and at prices sharply advanced. There is especially a demand for malting barley. Our Velvet is one of the finest malting kinds and is in big demand.

Barley is as fine a grain as you can feed. It is rich in bone and muscle building elements. It develops large, strong, healthy animals in quick time and at reduced costs. Records of forty years have proven it the heaviest yielder of all grain crops, corn alone excepted. Barley is one of the best nurse crops for grass and clover. Stands up on rich ground. It is ready for harvest the latter part of June or early in July.

**LOWEST
PRICES

HEAVIEST
PRODUCING
VARIETIES**

See page 37
for prices

VELVET

The KIND With SILKY BEARDS

Our Velvet Barley is a revelation. It looks like ordinary barley but is distinctly different. The beards are there but those bothersome sticky barbs are gone. The beards are as smooth as silk. It's just as pleasant to handle as a beardless variety and you get the protection of the beards.

This Barley is of the best malting type. Decidedly superior to the average because its resistance to disease assures a better quality grain. For feeding or malting it is extra fine.

In yield it ranks at the top. Most farmers reporting on it say it is the heaviest yielder they have ever grown. The straw is even stiffer than the average. It is very resistant against spot blotch disease. Barley ranks next to corn in the number of pounds of grain produced per acre.

Our Velvet is adapted to a wide area. With the introduction of this variety many farmers are changing from oats to barley. It is proving a better nurse crop, a heavier yielder and an earlier maturing crop.

You will receive a very high grade shipment of seed when you order our Velvet and you will be starting a more profitable variety of grain.

A VERY POPULAR VARIETY

BERRY'S Improved Wilt Resistant FLAX

Berry's Wilt Resistant Flax

The Best Paying Small Grain Crop.

The United States grows only half its flax seed requirements. Farmers really get tariff protection on it. It has held up in price better than other crops. The wise farmer will put part of his acres in flax this year.

Flax is not exclusively a new land crop. The reason flax has not done so well on old land was because of a disease known as Wilt. Now we have a Wilt Resistant Flax and the crop can be grown with greater profit than other grain crops on old or new land.

How to Handle

Sow as early as possible or about when you sow other spring grains. Flax prefers clean land. On foul land delay seeding and harrow to kill weeds. Requires a firm seed bed. Sow 25 to 35 lbs. per acre.

Flax makes the finest nurse crop obtainable for grass and clover seedings. Yields from 10 to 15 bushels per acre may be reasonably expected. Thresh with ordinary grain separator.

Do not sow ordinary Flax. Your chances are too great. Our Wilt Resistant Flax assures you of the highest degree of protection. It is a heavier yielder and more profitable than any small grain crop.

LOW PRICES ON SELECTED, TESTED

SEED OATS

Sow Better Seed

This year seed oats are really scarce and the need for them is great. Many must start with new seed. Don't make the mistake of sowing anything that looks like oats just because the price is low. Spend a little more and get started with varieties that really can produce satisfactory yields.

Oats are unprofitable on some farms because of run down seed stock used. Hundreds have increased production greatly by using our improved strains. We have worked hard on seed oats this year because we wanted to be able to give you real service when you needed it most. Some seed stock has been shipped in from the Northwest to get something extra fine. In all varieties we have on hand we can give you plump, meaty, heavy re-cleaned stock. Supplies are quite short so order early.

NEW VICTORY

A Magnificent Heavy Oat See Sample Enclosed

These oats are simply so beautiful that words fail to give an adequate description. That is why we are enclosing a sample. Just see how big and plump and bright they are. This stock weight averages 44 lbs. per measured bushel. We paid a premium for this stock and brought the seed in from the Northwest at a heavy expense. This is a year when many farmers will need seed oats. This, then is also a time to get started with something better. Get started with these oats that are finer in appearance, better in yield and superior in feeding value.

These New Victory Oats are recognized as an outstanding variety. They grow straw of good length yet have the strength to resist lodging. Its sprangled heads, heavily laden with these oversize grains surely makes a wonderful sight in a field and a profitable harvest to gather. Introduce this new oat blood to your farm. Sell your first crop at a premium for seed. Show your neighbors what can be done with better seed.

The first cost naturally is higher. We have other oats and good ones too at considerably lower price. See page 37. But the extra cost of these is readily absorbed by increased production. Think of such seed stock, not as an expense but as an investment upon which good earnings may be secured.

Our seed is the very best we can secure for you. Shipment is guaranteed to be identical to sample.

Hall, W. Va.
Dear Sirs: I have been buying seeds from you for a number of years for my own use and for the Boulder Farm Club. The seeds have always given entire satisfaction, and we have saved over one hundred dollars by ordering from you.
Very truly yours,
Ira L. Dadisman

BIGGER YIELDS

LOW PRICES on
PAGE 37

GREAT NORTHERN

Big Heavy White Oats

One of our customers wrote, "I never saw such wonderful oats before in my life." You, too, will probably be amazed at their size and quality. They are truly magnificent. Big plump meaty kernels that have both length and thickness. They are beauties that weigh out heavily.

Strong prolific stooling plants. Good stiff straw. Fairly tall growing, depending on soil and season. Superior to ranks right along with our Swedish Select having produced up to 137 bushels per acre. Customers who have grown both say they prefer our Great Northern.

Our northern grown seed is strictly A No. 1 Extra Fancy seed quality. Thoroughly re-cleaned, containing only the choicest grains. For seed purposes it certainly is worth the premium it costs to secure such extra selected seed. With such stock you can really show your neighbors something about growing oats. Generally the first crop grown in a neighborhood can be sold at a premium for seed purposes.

Good seed stock should not be considered as an extravagance. It is a wise investment that truly thrifty buyers will cash in on.

FULGHUM

Heavy Yielder—Disease Resistant

This is the heaviest producer of the early varieties. It outyielded other varieties by 12% to 17% in a seven-year test. Kernels are medium sized and golden yellow in color. The straw is short and spreading at the lower joints. It is one of the best to stand up on rich land and outyield others on thin soil.

Our Fulghums are especially resistant against smut. Where the Khersons showed 25% to 40% smut on a smut inoculated field hardly a trace could be found on the Fulghums. Its hardiness and vigor give it a marked resistance against disease. They sure can take a lot of punishment.

This oat can be sown extremely early. It is hardier than other varieties. In fact it gives its best results when sown early. For late seeding the Iogold or Iowar is a little better. Friends, we are so thoroughly sold on the superior qualities of our Fulghums that we give them a special recommendation. For early sowing and early maturity we do not believe there is any other that will equal it in production.

BETTER SEED OATS

LARGER YIELDS

COLUMBIA

Every farmer we know of who has grown our Columbia oat is an enthusiastic booster for them. They are a development of the Fulghum but superior to them in that they may be sown as much as three weeks later and still be a leader in yield. The increase in production has ranged from 5% to 25% depending on season. Some years other oats do well but the Columbia always ranks a leader.

Columbia oats are also similar to Burt oats but plants are taller, heads longer and more erect, and the straw much stronger. The kernels have light stripes on the back and are usually awnless. It is always one of the earliest oats to mature. Its wide range of seedling dates, its resistance to unfavorable conditions and early maturity make it the surest heavy yielding variety. We recommend this variety strongly because of the satisfaction it has given our customers. Our seed is cleaned and is priced low for such fine stock. See page 37.

GOLDEN BEAUTY

This stock is golden yellow in color and very plump. The big meaty kernels weigh about 45 pounds per bushel. This year we have for you some extra fine northwestern grown stock. This is similar in general appearance to the New Victory, of which a sample is enclosed, but have a decided yellow color. If you do not agree that you have received one of the finest shipments of oats you ever laid eyes on we'll take them back and promptly refund your money plus freight. They cost a little more, but you surely will be sowing something extra fine.

SWEDISH SELECT

New Regenerated Stock

These are those big heavy white oats that you may have seen in pictures or at grain shows. Here is your opportunity to grow them on your own farm.

They are a revelation in production. Yields up to 100 and 140 bushels per acre are reported. Kernels are large and meaty. Straw fairly tall, stands up well. Medium early maturity, large sprangled heads, heavily laden with rich grain.

Our seed stock is northern grown and thoroughly cleaned. You will be just as proud of your purchase as we are of the seed we are selling. In this northern seed you get finer looking and heavier producing stock than is possible with southern seed. It costs more but it certainly is worth every extra cent of it. Every pound shows the care that has been used in preparing the seed and all that counts a lot in piling up yields and profits. Use some of our better seed grain this year.

NEW HULLESS

Big Yields—No Waste—Fine Feed

Ordinary oats are 28 to 40% hulls. This variety has no hulls. It's all meat. Grains similar to rye but softer and lighter in color. They are also excellent producers in several cases, having outyielded the ordinary hulled oat. Even should it fall a little below in yield the increased feeding value of the Hulless makes it very profitable to grow.

Straw is of medium length and strong. Equally as hardy and drought resisting as ordinary oats. These oats can be fed without grinding. They certainly are fine feed. One grower reported his Hulless oat smut free while common oats were badly affected. In order to assure full protection against smut we treat all our Hulless oats with copper carbonate to destroy any smut spores. This treatment is effective only on Hulless.

Our seed is fine quality, carefully cleaned, and graded. It is a real seed stock. We have new low prices on these oats this year.

SILVER MINE

Our strain of this variety deserves the wide popularity it enjoys. A beautiful white oat with a soft hull. Nice meaty kernels. It is medium early and grows a medium length straw.

This is a select strain of the Silver Mine that should astonish a grower of the rundown stock he may be still using. Our seed is northern grown which is distinctly superior. Our cleaning and grading alone makes a big difference in results to be obtained.

You will bring back this variety in all its glory. It's like striking a new vein of pay dirt to get this improved Silver Mine for your acres. These oats are adapted to a wide area. Profit by their heavy production this year. Prices, page 37.

IOWA

A wonderful early white oat. It was originated at the Iowa State Experiment Station from a 60 day variety. It outyields both the old Iowa 105 and 103. Grows a longer straw than the old kinds. The grain is medium size and has a thin hull. A wonderful feeding oat. Each kernel has a small black awn.

Many are acquainted with this variety because its performance has made it a great favorite. However, due to improper seed selection and preparation some of its most desirable characteristics are not fully secured. Our seed stock comes from heavy producing fields and the seed is graded so as to give you the most select seed stock.

You will find it money well spent to use such seed. Let us supply you with a better yielding, earlier maturing oat, having a higher feeding value.

SPELTZ

**ALSO CALLED
EMMER**

NORTHERN GROWN

Great Drouth Resister. Practically Rust and Smut Proof. A Heavy Producer. Extra Rich Feed

This remarkable grain crop is really a type of wheat. The kernels are smaller and the shuck clings to the grain instead of becoming separated in threshing. The grain is somewhat softer and there are generally two grains in a shuck. Both shuck and kernel make excellent feed.

The stems of a speltz plant are pithy instead of hollow. It is unusually strong. Heads are compact and heavily set with grain. Leaves are velvety. It is a wonderful drought resister and in dry sections will outyield oats and barley. Matures very early and is grown from Canada to Texas and east and west across the continent. Its freedom from rust and smut makes it especially valuable when these diseases cause heavy loss. Speltz is a bearded grain.

You will find speltz a fine nurse crop. Its heavy yields, earliness and high feed value combine to make it a very satisfactory grain crop. Our customers are introducing the grain into all parts of the nation. The first grower in a neighborhood generally has the advantage of selling his first crop for seed.

**PRICES
ON ALL
SEED GRAINS
SLASHED**

**SPRING
WHEAT**

NORTHERN GROWN

for

The Famous New Marquis

An early, beardless heavy yielding variety. Earliness is very important in getting a good crop of spring wheat. New Marquis is a week to ten days earlier than the average. Using northern grown seed also gives earlier maturity and a much better quality of grain. Our New Marquis is all the finest northern grown re-cleaned and graded seed.

Our New Marquis has a plump fat kernel, dark red in color and harder than most. It is one of the finest, milling wheats grown. Has more gluten, better color and higher absorption. In yield we consider it easily 5 to 10 bushels per acre better than others. Being beardless it is pleasant to handle. Heads are not so long but heavy. Straw fairly short. Stands up well.

Buy wheat like this, and get some profit from the crop. Order seed now. Sow it early. You'll find that it certainly does pay to use real high quality seed such as we will ship to you.

Northern Grown SPRING RYE

This is a distinct variety. Strictly a spring grain crop. It is grown for grain, pasture, and hay. No doubt this triple usage is why the crop is so popular. The grain is practically the same as winter rye. It is a good yielder of grain. Good length straw. Sometimes used with Canada Field Peas for hay. Wonderful producer on good land and the best small grain for thin soil. Early seeding gives best result but may be sown later than most grains if necessary. Sow around 2 bushels per acre.

Rye makes a very fine feed as pasture and grain. Helps out on the early spring feed problem. We try to figure out the seed demand so we will have enough for our trade without any to carry over. Nearly every year we underestimate the demand so we ask you to order your spring rye early. It is a crop that we are sure will please you. It is a money maker and our prices on this northern grown high quality seed are very reasonable. See page 37.

Winter Wheat

We have some extraordinary varieties of winter wheat for fall seeding. Some of them are guaranteed to outyield your own stock. Along in July we publish a smaller bargain catalog describing and pricing winter wheat and also Alfalfa and other seeds for fall sowing. If you fail to get a copy of it be sure to write us for it. It will save you money.

Start Growing Speltz

Show your friends what this crop can do. Sow $2\frac{1}{2}$ bushels per acre. Set your drill about as for oats. Sow as early as possible. It stands considerable frost damage. Thresh as for oats but not too close. Cut before it is dead ripe. Cut earlier if you want it for hay. There is nothing difficult about growing speltz.

Consider these facts. Speltz is a hardy crop; a heavy producer; a rich nutritious feed, does not lodge, makes a fine nurse crop; is drought and disease resistant and is a most desirable crop. Our seed is fine and prices are at new low levels.

We have some very fine speltz seed this year at low prices. Now is a fine time to get started with this grain. Send orders as early as possible.

Palmyra, Mo.
Dear Sirs:

The two cars of Seed Wheat we bought of you last year to which you gave the Copper-Carbonate treatment, proved very satisfactory and we had a wonderful yield from same. We were specially pleased with your usual prompt service. Having used your seeds for past 15 years makes me feel very kindly to the Berry Seed Co.

Yours very truly,
W. A. Rinehart.

THE MORE YOU BUY - THE MORE YOU SAVE

Extra Hardy HEDGES

Let Nature build your fences, edge your walks and drives, screen unsightly buildings, feed lots, alleys, etc. Berry's offer the proper variety for every purpose. Cheaper than fences to put in, much more attractive and effective—last for years and years, without painting, repairing, or other expense.

TALL HEDGES for Screens

4 ft. or higher.

These strong varieties will rapidly make a protective screen that is stock tight and wind proof. Height at maturity is given in description, but most varieties may be pruned lower.

HONEYSUCKLE—PINK. (12 to 15 ft.)—One of the most attractive of the taller hedges. Perfectly hardy, vigorous grower—beautiful flowers followed by bright red berries. The ideal screen. Plant 2 to 3 ft. apart.

12 to 18 in.—10 for \$1.15; 25 for \$2.75; 100 for \$10.00.
RUSSIAN OLIVE. (12 to 18 ft.)—Its attractive silver grey foliage and rugged habit of growth make it a prime favorite for taller screens and windbreaks. Plant 3 to 5 ft. apart.

18 to 24 in.—10 for 85c; 25 for \$1.79; 100 for \$6.50.
RUSSIAN MULBERRY. (12 ft. and higher.)—The best windbreak for hot, dry winds. Break those sweeping winds, plant several Mulberry screens. Will stand severe pruning. Plant 4 to 6 ft. apart.

18 to 24 in.—10 for 59c; 25 for \$1.15; 100 for \$3.50.
LOMBARDY POPLAR. (20 ft. and higher.)—Those tall slender trees, with many branches right to the ground, are ideal for screen or windbreak. Plant 8 to 12 ft. apart.

2 to 3 ft.—10 for 98c; 25 for \$1.95; 100 for \$7.00.
CHINESE ELM. (20 ft. and higher.)—One of the fastest growing, long lived trees. If you permit it to grow naturally, without pruning, it will be well branched from the ground up. Plant 12 to 16 ft. apart.

2 to 3 ft.—10 for 85c; 25 for \$1.79; 100 for \$6.50.

STRONG 2 YEAR PLANTS

Strong 2 year vines for rapid, vigorous growth. Vines, with their luxuriant foliage, are indispensable to relieve the monotony of bare walls, for lovely bloom and quick shade on porches, arbors, etc. Plant more Berry's Vines.

FLOWERING VINES for TRELLIS, ARBORS, PORCHES etc.

SILVER LACE VINE. The fastest growing, most beautiful hardy vine. Often grows 20 ft. per year. Glossy green foliage covered with snowy white flowers. Each, 49c; 4 for \$1.89.

TRUMPET VINE—Bignonia Radicans. The old favorite hardy vine with its lovely, large, trumpet-shaped, scarlet flowers in July and August. Each, 35c; 3 for \$1.00.

CLEMATIS JACKMANI—Purple. A beautiful perennial vine with its mass of large, rich, purple bloom. Considered the most beautiful vine for trellis. Requires protection in severe climates. Each, 59c; 4 for \$2.25.

CLEMATIS—MME. E. ANDRE. Like Jackmani except that the lovely bloom is velvety red. Each, 59c; 4 for \$2.25.

WISTERIA—Purple. The most magnificent of all vines—lasting for generations and increasing in beauty each year. Long clusters of lilac flowers in summer. Our vines are grafted from blooming wood and will bloom very young. Requires some protection in severe climates. Each, 59c; 4 for \$2.25.

TRIMMED and NATURAL LOW HEDGES

2 to 5 ft.

PRIVET—AMOR RIVER NORTH. This hardy, Russian Privet with its glossy green foliage and upstanding branches, is the most popular hedging in America today.
PRIVET—CALIFORNIA. Similar to A. R. Privet but not usually hardy north of St. Louis. Preferred in the South where it is almost evergreen.

Postpaid Prices—ALL PRIVET

12 to 18 in.—10 for 65c; 25 for \$1.29; 100 for \$4.50.

18 to 24 in.—10 for 85c; 25 for \$1.79; 100 for \$6.50.

BUCKTHORN. The hardest low hedge. Unusually strong, vigorous and close growing—highly ornamental but effectively keeps out stock, chickens, etc.

12 to 18 in.—10 for \$1.00; 25 for \$1.80; 100 for \$6.00.
SPIREA V. H.—Bridal Wreath. One of the most beautiful hedges—in the Spring its graceful, arching branches are a mass of lovely white bloom.

12 to 18 in.—10 for 65c; 25 for \$1.29; 100 for \$4.50.

18 to 24 in.—10 for 90c; 25 for \$2.00; 100 for \$7.35.

BARBERRY—Japanese. Its millions of sharp thorns make this low hedge effective in repelling stock, chickens, etc. Its fall coloring, with red berries, is most attractive.

12 to 18 in.—10 for 59c; 25 for \$1.15; 100 for \$4.20.
BARBERRY—RED LEAVED. Similar to Japanese Barberry but not quite as strong growing. When planted in full sun, the foliage is brilliant red all season.

12 to 18 in.—10 for \$1.25; 25 for \$2.75; 100 for \$10.00.

VINES 29¢

for WALLS, CHIMNEYS, ETC.

**4 for \$1.00
POSTPAID...**

BOSTON IVY. Clings closely to the smoothest wall, covering it completely with dainty overlapping leaves, which turn crimson-orange in fall.

ENGELMANN IVY. Grows very rapidly but does not cling as tightly as Boston Ivy. Best for quick results. Dark green leaves turn purplish-red in fall.

For Trellis, Arbors, Porches, Ground Cover, etc.

HONEYSUCKLE—Scarlet Trumpet. A strong growing vine with bright red, trumpet-shaped flowers. For Trellis, Arbor or Porches.

HONEYSUCKLE—Hall's Japan. A valuable vine for covering caves, preventing erosion on steep banks, etc. Roots down at every joint. Grows vigorously. Very hardy—almost evergreen. Fragrant white and yellow flowers.

BITTERSWEET. Desired for its big crop of brilliant red berries in fall. For Arbors, Fences, etc. To insure its bearing, plant at least 4.

CLEMATIS—Paniculata. The hardy, vigorous growing Japanese Clematis. Covered with sweetly fragrant white flowers in late summer and fall.

SAVE NOW - BERRY'S Guaranteed QUALITY

FINEST QUALITY

Our enviable reputation is built on high quality at low prices—superior values. We have developed the largest business of its kind in the country, on this sound policy.

These same high standards maintain in our nursery department. Each and every item is carefully tested before Berry's will put their name behind it. You can order our Nursery Stock with full confidence that it is accurately and honestly described, that the quality is of the highest and the prices, the lowest.

Remember—Berry's guaranteed Nursery Stock is northern grown under our direction. Transplanted, pruned and root pruned to insure sturdy, well rooted, well branched plants that will thrive anywhere. Do not be misled by claims of superior quality—we offer the highest quality at lowest prices.

LIBERAL GUARANTEE

Berry's guarantee their nursery stock to be exactly as represented and to be delivered to you in good planting condition. If not, we will replace it free of charge but you must notify us within 10 days after you receive it.

If any nursery stock is proven not true to name, we will, upon proper proof, replace all such stock or refund the exact amount paid, but, in no case, shall we be liable for any sum greater than the amount originally received for said nursery stock.

If any Berry's nursery stock fails to grow with proper care, we will replace it at half price IF you notify us within 60 days after you receive it.

LOW PRICES ~ SERVICE

Your order will be shipped at the proper time for planting in your locality. We receive U. S. Weather Reports daily and time our shipments to arrive at the best time. If you wish the order delivered at any certain time, please specify date.

Berry's pay the postage or express. As far as possible, all orders will be sent by Parcel Post but, if your package is too large for mailing we will prepay the express charges (except on Shade Trees).

Detailed instructions for planting and pruning the stock will be in the package. These instructions, as well as all the descriptions in this catalog, were prepared by a thoroughly experienced nurseryman. We are anxious that you be fully satisfied.

If you are in doubt as to what will succeed in your locality, please send us complete information and we will advise you to the best of our ability.

RHUBARB ASPARAGUS HORSE RADISH

Nature's best Spring tonic! Peps you up for the heavy Spring work. You can't beat Rhubarb for tasty, snappy sauce and pie. Good for canning, too!

Berry's send you good whole roots. Our new giant Victoria (Wine Plant) strain is famed for its big, juicy, tender stalks and unusually fine flavor. Far superior to the old "pie plant."

Postpaid Prices: 5 for 39c; 10 for 59c; 25 for \$1.19; 50 for \$1.98.

Berry's new Mary Washington strain of Asparagus is hardy, long lived and a heavy yielder of big crops.

We recommend the heavier 2 year roots but, for those who prefer the smaller size, we offer good 1 year roots. All prices Postpaid.

round leaves, scalloped and purple
tinged. Beautiful red flowers on
slender upright stems. Very desir-
able. July-Sept. 15".

COREOPSIS—Double. Large, double,
yellow, daisy-like flowers in great
profusion. Excellent cut flowers.
June-Aug. 18/24".

DELPHINIUM—Berry's Beauty Hybrids.
Our own creation—a cross of the 3
best strains we ever grew. Singles
and doubles in beautiful shades of
Pink Lavender and Blue. 4".

PHLOX. Four newer varieties of out-
standing merit—our very best!

Brilliant—Red. 20".

Jules Sandeau—dwarf pink. 12".

Pantheon—Salmon Rose. 18".

Special French—clear Pink. 20".

***PRIMROSE—Evening (Oenothera).**
Dainty little plants thriving in par-
tial shade. Lovely yellow flowers in
great profusion from June to Aug.
15".

STATICE LATIFOLIA—Sea Lavender.
Large heads of feathery lavender
bloom. Invaluable for winter bou-
quets. 18".

***STOKES ASTER—Stokesia.** Handsome
lavender blue flowers—distinctive in
color, and form. Blooms freely, all
summer. Very good. 15".

TRITOMA PRITZERI—Red Hot Poker.
Showiest of all garden flowers. Bri-
lliant scarlet—lower petals rimmed
with orange. Insist on the true
Pritzeri! July-Oct. 30".

VIOLA—Hardy Alpine Pansy. Blooms
June to frost. Sun or part shade. 6".

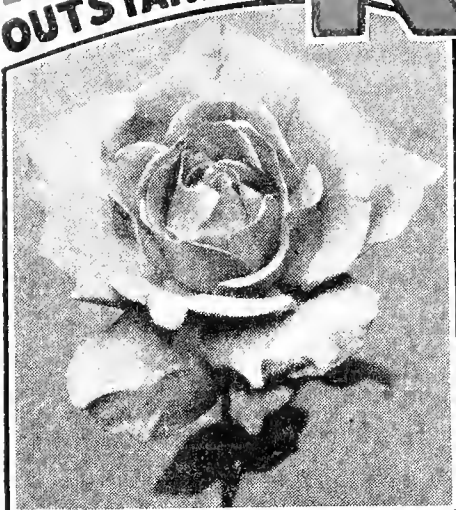

Admiration—Purple Blue.

Lueta Splendens—Golden Yellow.

Magnifica—Rich Purple.

Rose Queen—Rosy Lilac.

New OUTSTANDING ROSES

RED ROSES

AMI QUINARD. The darkest red rose! Medium size, fragrant, lasting bloom. Vigorous, upright, very hardy.

SENSATION. One of the largest scarlet-crimson roses. Very double, fragrant, vigorous, profuse bloomer.

ETOILE DE HOLLANDE. Deep bright red, very fragrant, lasting bloom on strong stems.

E. G. HILL. Beautiful bud, immense dazzling scarlet shading deep red. Vigorous, very free bloomer. One of the best!

LORD CHARLEMONT. An aristocrat of Roses. Perfectly shaped, large, very double, highly fragrant, deep crimson. Hardy, continuous bloomer. Few thorns.

WHITE ROSES

CALEDONIA. The best white in our Test Gardens! Large, very double, fragrant, lasting bloom on strong stems. Dark green, disease resistant foliage. Vigorous, hardy, blooms all season.

EDEL. Stately, large well formed, fragrant, white shaded ivory. Very vigorous, continuous bloomer.

PINK ROSES

MRS. CHARLES BELL. The best shell pink shaded salmon. An outstanding garden rose of vigorous habit, hardy and very profuse bloomer.

MRS. HENRY BOWLES. Large, silvery pink flushed salmon. Vigorous, upright, free bloomer, not damaged by rain. Very good.

SOUV. de MME. CHAMBARD. New! Sparkling pink rose of exceptional merit. Strong, vigorous, free bloomer.

LA FRANCE. Delicate silvery pink, reverse bright pink. Profuse bloomer, moderate growth. Good.

YELLOW ROSES

MRS. PIERRE S. DUPONT. Long reddish gold bud opening to deep golden yellow. Lasting, fragrant, vigorous, free bloomer.

MRS. E. P. THOM. Large, perfect, clear deep canary-yellow. Glossy, disease resistant foliage. Strong, hardy, profuse bloomer. Best yellow.

JOANNA HILL. Delightful deep yellow, tinged gold. Lasting, fragrant, vigorous, free bloomer. Few thorns.

GOLDEN PERNET. Glorious sunflower yellow cut flower! Long, pointed bud opening very full and double. Lasting and fragrant. Very hardy, vigorous, everblooming. Excellent!

POSTPAID—NOT SHIPPED C.O.D.

New Varieties. 3 year plants. Varieties which usually sell at higher prices! The newest and best at prices you can afford to pay.

Berry's guaranteed high quality (see page 58), sturdy, vigorous, extra strong, field grown bushes—full of life and sure to bloom this year.

A rare opportunity to get these choice varieties at such low prices!

SHRUBS**

For those who appreciate the newest and best in everything, Berry's offer these choice varieties. All good sized, well developed plants. The pride of your garden—the envy of your neighbors. Strong 2/3", except as specified.

Each 59c; 4 for \$2.00

ALMOND—Double Pink Flowering 4'. In early spring, a mass of very double pink rose-like flowers. The beauty spot in any garden. 18/24".

BUTTERFLY BUSH—De de France 4'. New! Sensational! Beautiful! Striking spikes of fragrant wine-red flowers from August until frost. Requires protection in severe climates. 2 year.

DESMODIUM—3/4'. Another new fall blooming perennial shrub. A bright mass of purplish red bloom for weeks. Graceful branches with attractive foliage. Very new and very good. 2 year.

WEIGELA—Eva Rathke 3/4'. Brilliant red bloom in great profusion for several weeks. Rather dwarf in habit. A delightful shrub.

SPIREA—Korean 4/5'. A new introduction from Korea. Hardy, shapely in habit and covered with a mass of white flowers in Spring. You'll like it.

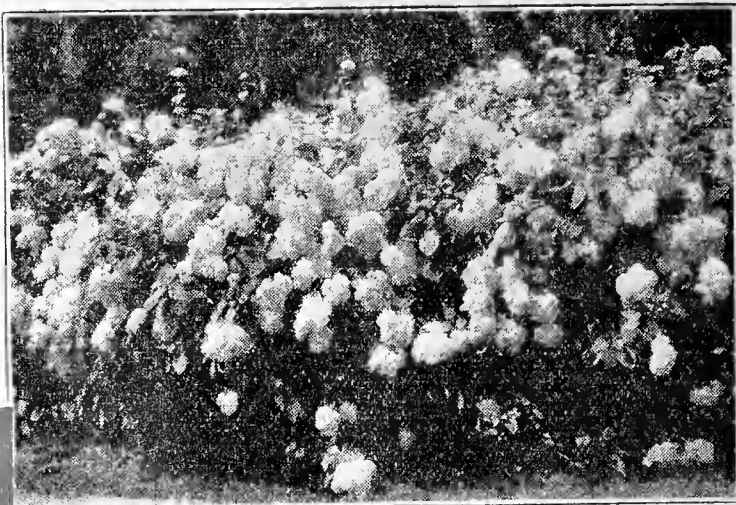

JAPANESE SPINDLE TREE—5/6'. Taller shrub with interesting corky, winged branches. Yellow flowers in May and June. Brilliant red foliage in Fall. A distinctive plant of merit. Very hardy.

HYPERICUM—Golden 2'. The best dwarf shrub for border or foundation planting. Dense, globular shaped bush with bluish green foliage and clear yellow flowers. You'll like it. 15/18".

TAMARIX—Spanish 4/5'. One of the most beautiful shrubs! Dense mass of graceful glaucous filmy foliage with coral pink panicles.

PRUNUS TRILOBA—5/6'. The double, pink flowering plum. As lovely as the Almond but more vigorous and hardy.

\$5.00 invested in good Shrubs adds \$50.00 or more to the value of your property. Shrubs live for years with very little care and no upkeep cost. At Berry's new, low prices, everyone can properly landscape their home grounds. After all—"It's not a home until it's planted!"

NOTE: Figures after shrub name indicate height at maturity. Most shrubs can be pruned lower as desired.

ALTHEA

5-6 ft. A lovely fall flowering shrub—thrives in moderate climates. Strong, upright grower. Choice of Red, Pink or Purple.

BARBERRY

Japanese. 3-4 ft. Very useful, hardy shrub for foundation, border or corner planting. Thrives anywhere—sun or shade. Small plants for hedges on page 57.

BARBERRY

Red Leaved. 3 ft. Like Japanese but with brilliant red foliage when planted in full sun.

BUTTERFLY BUSH

3-4 ft. Beautiful spikes of fragrant, lilac-purple flowers in late summer. Has perennial habit in severe climates.

CHERRY

Flowering—See page 66.

CRAB

Flowering—See page 66.

DOGWOOD

Red Twiggied. 5-6 ft. Very hardy and vigorous. Succeeds anywhere. Spreading habit. Desired for its brilliant red branches in winter.

DOGWOOD

Golden Twiggied. 4-5 ft. Similar to Red—equally hardy and desirable. Bright yellow branches.

DEUTZIA

Pride of Rochester. 6-8 ft. Large, double white flowers in great profusion. Compact, upright habit. Not recommended in severe climates.

ELDER

Golden. 5-8 ft. Big, broad bright yellow leaves. For color contrast as specimen or in groups. Hardy, vigorous, desirable.

FORSYTHIA

Golden Bell. 6-8 ft. Upright branches covered with brilliant yellow flowers before the leaves. A very useful, hardy, strong growing shrub—we recommend it.

FORSYTHIA

Weeping. 4-6 ft. Like Golden Bell except with graceful, drooping branches. Useful in mass plantings, for screen on banks, etc.

HEDGES

See page 57.

HONEYSUCKLE

Bush. 12-15 ft. Best for background or screen planting. tall hedges (see page 57), etc. If pruned severely, excellent for foundations. Very vigorous, hardy and useful. Choice of Red, Pink or White.

HYDRANGEA

Pee Gee. 4-6 ft. Magnificent large conical shaped white bloom in summer, with pinkish cast in fall. Thrives anywhere — very popular.

HYDRANGEA

Hills of Snow. 3-4 ft. Best shrub for shade—thrives anywhere. Masses of large round white bloom in early summer. Very good!

LILAC

Old Fashioned. 8-12 ft. Our Grandmothers' favorite! Loads of lovely, fragrant lilac bloom. Hardy.

NEW FRENCH LILACS

2 to 3 ft. Each 59c—4 for \$2.00

Nature's loveliest Shrubs. These new, grafted, hardy French Lilacs bloom the second year. Attractive shrubs that bloom profusely and do not sucker from the roots like the old fashioned lilacs. Note the large size at these low prices.

CONGO—Single. Beautiful wine red. 1 of the 10 best lilacs.

HUGO KOSTER—Single. Large Panicles deep lavender, tracings of pink. Very beautiful, new.

PRESIDENT LOUBET—Double. One of the best red lilacs. Medium height, symmetrical.

MME. LEMOINE—Double. Best large flowering white.

BELLE DE NANCY—Double. Large, satiny rose-pink showing white in center. Finest pink.

CHARLES X—Single. Rich, reddish purple. Not new but very desirable.

LUDWIG SPAETH—Single. Lovely deep purple. Very desirable.

Hardy SHRUBS

There is a great difference in Shrubs!

We offer only 2 or 3 year, northern grown, transplanted rootpruned and cut-back shrubs to insure good roots and well furnished tops. Take advantage of these lowest prices in years—plant those shrubs this year. Order Berry's guaranteed quality for extra value.

LILAC

Persian Purple. 6-8 ft. Handsome foliage and striking reddish-purple bloom in Spring. Hardy and vigorous — blooms young.

LILAC

Villosa. 6-8 ft. A good late lilac. Attractive upright shrub with pale lilac bloom. Strong, hardy and useful.

LOCUST

Flowering. 4-6 ft. Attractive foliage with long, graceful clusters of pea-shaped, rose colored flowers in June. Suckers from roots—excellent for mass planting, erosion control on steep banks, etc.

MULBERRY

Russian. See pages 57 and 66.

PRIVET

See Hedges, page 57.

QUINCE

Japanese Flowering. 3-4 ft. Brilliant orange scarlet blooms with first leaves, early spring. Glossy, dark green foliage. Hardy and vigorous. Spreading habit, excellent for foundation planting.

RUSSIAN OLIVE

10-16 ft. An interesting, hardy, rugged shrub with silver grey foliage and branches. Can be kept pruned to 5-6', if desired.

SNOWBALL

Old Fashioned. 6-10 ft. Another old favorite that thrives anywhere. Loaded with pure white flower balls in early summer.

SNOWBERRY

3-5 ft. Superior for shade — thrives anywhere without care. Graceful arching branches loaded with attractive berries in Fall. Very useful. Choice of white or red.

SUMAC

Glabra. 6-8 ft. The best of this rugged family of picturesque, hardy shrubs. Glorious red fall coloring.

SYRINGA

Mock Orange. 6-8 ft. Old favorite! Large, sweet scented white flowers in late Spring. Very useful and hardy.

SYRINGA

Lemoinei. 3-4 ft. Semi-dwarf but hardy and strong. Like Mock Orange.

SYRINGA

Virginal. 4-6 ft. The newest and best Mock Orange. Unusually large, double, very fragrant white flowers in June and all summer. Hardy anywhere. Extra good!

VIBURNUM

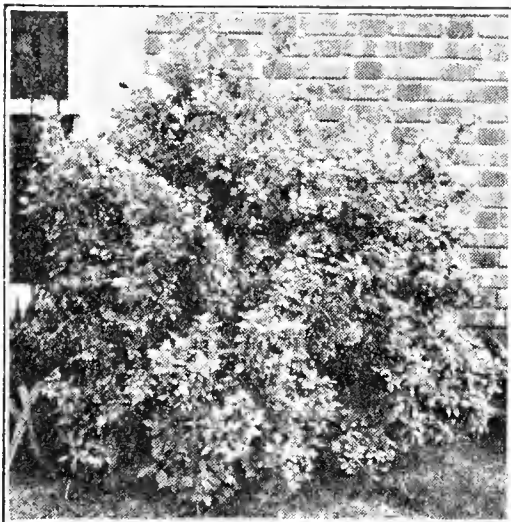

Cranberry. 6-10 ft. Strong growing hardy shrub desired for its heavy crop of red berries. 12/18".

WEIGELA

Rosea. 5-7 ft. A stalwart, upright, hardy shrub of great value. Lovely pink bell-shaped flowers in May and June.

WEIGELA

Dwarf Pink. 3-4 ft. Another good, hardy, compact, dwarf shrub. Attractive green leaves edged with yellow. Pink bloom in great profusion in late Spring. 12/18".

GRAPES

THE EASY MONEY CROP

Big, strong, 2 year Vines—extra well rooted. Vines that will start to bear the second year and yield a full crop the third year. Save time—insure biggest crops—buy Berry's better Vines.

CONCORD. The best commercial grape for the Middle West. Vines vigorous, extremely hardy and dependable bearers of large crops of big, blue-black fruit.

MOORE'S EARLY. Two weeks earlier than Concord. This large blue-black full flavored grape brings premium prices on any market.

NIAGARA. Enormous bunches of large greenish-white, sweetly flavored fruit. Best white for market—good shipper. Requires some protection in severe climates.

BETA. The hardiest of all grapes—consistent bearer of juicy black fruit for jelly, juice or wine. Rich, full flavored but rather tart for table use. Fine for Arbors.

AGAWAM. A large dark red grape with rich aromatic spicy flavor. Not as hardy as Caco but a heavy consistent bearer in temperate climates.

These new varieties have been carefully tested and are of unusual merit. Highly recommended. Try them all!

HEAVY. 3-4 ft. ¾ to 1½ in. caliper. Postpaid: Each 79c; 4 for \$2.89; 10 for \$6.79.

CORTLAND APPLE. Sprightly tang of Jonathan, rich flavor of Delicious, with fine qualities of McIntosh. Vigorous, hardy tree. Early, heavy bearer. A superb apple.

YELLOW DELICIOUS APPLE. Considered even better than Red Delicious. Superior in flavor, texture and keeping qualities. The very best golden apple!

HALEHAVEN PEACH. Newest and best early freestone. Strong, thrifty grower, very hardy—heavy bearer of exceptionally fine flavored yellow peaches.

BOSC PEAR. Truly a winter pear. Sells at premium on any market. Best keeper and shipper. Fruit—large juicy, full flavored and fine textured. Hardy as Douglas. You'll like it!

APRICOT PLUM. A freestone plum with the delicious flavor of an apricot. Absolutely hardy. Strong grower. Early bearer of big crops of luscious fruit.

OKA SWEET CHERRY. The only hardy Sweet Cherry. Bears consistently even in severe climates. Not as sweetly flavored as the Tartarian or Honey Dew Cherry but much more hardy.

SPECIAL. One each of the above new varieties—the 6 for only \$4.00.

SAVE MONEY BERRY PAYS ALL POSTAGE OR EXPRESS

PEAR

Mail Size—2½ to 3½ ft. 44c Each. Prices—Pear, Plum and Apricot.

Prepaid Prices	Each	4	10	20
2 Yr. (2½'-3½')	44c	\$1.65	\$3.89	\$ 7.75
3 Yr. (4'-6')	69c	2.65	6.45	12.75

DOUGLAS. Best for Middle West. Vigorous and hardy. Often bears second year. Considered blight proof. Fruit large, golden yellow with blush. Fine texture and flavor for eating or canning. Good keeper.

CLAPP'S FAVORITE. A very large yellow and dull red late summer pear. Juicy and full flavored. Recommended for home or orchard planting. Try it!

BARTLETT. Favorite commercial variety. Heavy bearer of large, juicy high flavored fruit. Strong growing tree—fairly hardy. Best for eating or canning.

KIEFFER. Hardest Pear—will thrive wherever Apples succeed. Heavy bearer, very young. Extra large golden yellow fruit should be ripened in cool, dark place. Excellent for canning, baking, etc.

APRICOT

SUPERB. The hardest Apricot but will not bear consistently in severe climates. Medium size, light salmon color. Rich, juicy full flavored. Best, most productive of the hardy Russian Apricots.

PLUM

PRICES—SAME AS PEAR

ABUNDANCE. The hardest Jap Plum! Yields big crops of large, pinkish red, full flavored fruit. Fine for eating or canning. Tree, strong, well shaped and long lived.

BURBANK. Another excellent Jap Plum! Tree strong, round with sprawling habit—hardy. Fruit—good sized, luscious flavored, bright cherry-red.

BLUE DAMSON. The old favorite little blue plum for richest flavored preserves. Good, long lived, hardy tree.

GERMAN PRUNE. Large, dark purple, sweet and good. Excellent for eating or canning. Not dependably hardy in severe climates.

WANETA. The best hardy plum—thrives in cold climates. Extra large, reddish purple fruit with yellow flesh of good quality. Usually bears second or third year.

UNDERWOOD. A very hardy big red plum of fine quality and rich flavor. Good, strong, early bearing tree.

STOP those sweeping hot winds in summer or the cold driving wintry winds. Plant fast growing trees around your building and feed lots.

Plant different varieties and grow your own fence posts and all the wood you need to burn. Plant slower growing hard wood trees with the fast growers, for a permanent grove. Plant several hundred while the price is still so cheap!

These small trees should NOT be planted after April 20th.

DRILLS, PLOWS, SPRAYERS, INSECTICIDES

SPRAYERS

HUDSON PERFECTION

Compressed air sprayer. A high grade implement. Gives very satisfactory service. Four gallon capacity. Riveted and soldered. Shipping weight 11 lbs. Brass tank No. 110 B, \$7.95 f.o.b. Clarinda. Galvanized Tank No. 110 G, \$5.95 f.o.b. Clarinda.

Hudson Modoc Sprayer and Force Pump. Use in bucket or small tank. Develops 150 lbs. nozzle pressure. A superior double acting pump. Price \$3.35 f.o.b. Clarinda. Shipping weight 6 lbs.

Extension Rod for Perfection of Modoc. Two feet long. Postpaid, Brass 65c, Iron 45c.

Hudson Major Duster for powdered insecticides. Equipped with strainer and up or down nozzle. Price 98c, Postpaid.

Vaughan's B-7 Sprayer

A well made small sprayer for liquid insecticides. Fine for home garden. Light in weight. Easy to use. Postpaid, 80c.

SPECIAL OFFER

Vaughan's Sprayer (value 80c) and 1 Oz. Bottle of Spray material (Red Arrow or Liquid Slug Shot, Value 35c). Both, postpaid, only \$1.00.

IMPLEMENTS

GRAND COMBINATION IMPLEMENT No. 201

Hill and Drill Seeder and Single or Double Row Plow

Parts are made of the best material, properly designed and carefully fitted together. Finish is very attractive. This is a field-tested tool which gives real satisfaction, used in any of the four ways.

Standard Package. One in wood box, handles bundled separately. Shipping weight, 56 lbs. Price, \$13.19, f. o. b. Clarinda.

Hill and Drill Seeder No. 205. Like the above except no cultivator equipment, \$11.50 f.o.b. Clarinda. Garden Cultivator No. 1. Light and strong. Five steel teeth and cutter bar. 20 lbs., \$2.95 f.o.b. Clarinda.

Berry's High Wheel Plow No. 248. Sturdily built. Adjustable for pitch of tools. Double pointed shovel, five tooth cultivator and clover sweep. \$3.35 f.o.b. Clarinda.

Landslide Plow for 248. Price, 60c f.o.b. Clarinda.

CYCLONE SEEDER

Sows grass and clover and small grains evenly. Rate of seeding easily regulated. Sturdily built. Sows 30 to 60 acres a day. Thousands in use and giving satisfactory service. Price, \$2.25 each.

HORN SEED SOWER

Special spouted bag holding about one-half bushel; straps over shoulder. Seed flows down spout through a split cap. All you have to do is walk along and move the tube back and forth. Price, 90c, postpaid.

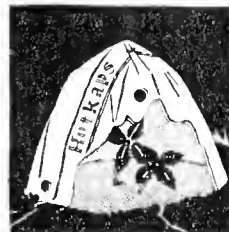

HOTKAPS

For Earlier Crops—Larger Yields

Gives a miniature hot house for each plant. Permits setting out cabbage and tomato and other tender plants two to three weeks earlier. Forces growth of plants and increases yields 10 to 25 per cent. Earlier crops bring premium prices and are the pride of all good gardeners.

Hotkaps are made of light, strong, specially waxed paper. Easily set out. They protect plants against insects, birds, rain, frost, hail and wind. Can be set over seed or growing plants. Your garden will be the marvel of the neighborhood with Hotkaps to help it along.

Prices Postpaid, a package of 100 with stiff paper setter and tampoer \$2.60. A 250 size package with setter and tampoer \$4.00. Special steel setter and tampoer \$1.70. Not prepaid, 1,000 Hotkaps only, \$9.75. (Weight 28 lbs.)

INSECTICIDES

RED ARROW

The Non-Poisonous Spray

Red Arrow Insect Spray is highly concentrated; simply mix with water and spray. Kills all kinds of insects such as Aphids, Cut Worms, and many others. Will not injure or discolor tender foliage nor leave poisonous residue. Postpaid prices: 1 oz. bottle, 35c; 1/4 pt. bottle, \$1.00; 1 pt. can, \$2.00.

HAMMOND'S SLUG-SHOT

Is the best insect destroyer ever offered for destruction of potato bugs, worms and insects that chew. Is simply dusted lightly on. Nothing superior for killing cabbage worms. Non-poisonous. Postpaid prices: 1 lb., 25c; 5 lbs., \$1.00. Not prepaid: 5 lbs., 75c; 10 lbs., \$1.25.

LIQUID SLUG SHOT

Non-Poisonous. Teaspoonful makes quart of spray. Kills chewing insects, controls sucking insects by contact. 1 Oz. Bottle, 35c; 6 Oz., \$1.00. Postpaid.

HAMMOND'S PEST KIT

Every gardener—large or small—should have this kit. Contains powder and liquid insecticides and spray gun—all that is needed to combat insects and diseases of flower and vegetable plants. Kit (Actual Value \$1.25). Postpaid, 95c.

INOCULATION

For Garden Seeds

Garden peas and beans, and sweet peas should be treated with McQueen's Inoculator, which is nitrogen-fixing bacteria for inoculating legumes. Assures and increases the crop, hastens maturity, and enriches the soil. A small investment that pays large dividends. Postpaid: Garden size, 15c; 1/2 bu., 35c; 1 bu., 50c.

PRUNING SHEARS

For pruning grape vines, small fruit, trimming hedges, etc. We offer a high quality forged shear that will stand hard usage. SPECIAL at 60c, Postpaid.

BERRY'S LAWN MIXTURES

GENERAL CHOICE MIXTURE

This makes a fine smooth lawn in the northern half of the United States. Contains chiefly Blue Grass, Red Top, White Dutch Clover and Rye Grasses. The quicker growing grasses provide a nice green stand while the slower kinds are coming on. It is our most popular mixture, because it gives such wonderful satisfaction. Postpaid price: 1 lb., 30c; 3 lbs., 90c; 5 lbs., \$1.25; 10 lbs., \$2.25. A pound sows about 500 square feet.

See page 45 for straight Blue Grass.

TERRACE MIXTURE

This mixture contains deep rooted grasses. They hold the soil firmly and resist drought. Select this for terraces and sloping places. Soil on terraces is often filled in dirt of low fertility. It will pay you to fertilize your ground well. You cannot have a nice lawn on poor soil. Postpaid price: 1 lb., 40c; 3 lbs., \$1.00; 5 lbs., \$1.50; 10 lbs., \$2.90. All seed is thoroughly cleaned and tested.

SHADY-SPOT MIXTURE

This contains grasses naturally adapted to growing in shade. Fine for grounds shaded by trees or for buildings. In heavy shade a light application of lime in addition to fertilizer will improve results. This is a dandy mixture. Postpaid price: 1 lb., 35c; 3 lbs., \$1.00; 5 lbs., \$1.60; 10 lbs., \$3.00.

WHITE DUTCH LAWN CLOVER

The small white clover so popular for lawns. This may be mixed with any lawn grass seed you have on hand or sown on an old lawn in the early spring. Very drought resistant. Helps soil fertility. Seed is very small. A pound sows 1,000 or more square feet, depending on how heavy percentage of clover is desired. Postpaid price: 1 lb., 50c; 3 lbs., \$1.25; 5 lbs., \$2.00; 10 lbs., \$3.75. See page 36 for larger quantities.

SOUTHLAND MIXTURE

Contains grasses adapted to the south, including Bermuda Grass and Southern Blue Grass. Makes a beautiful lawn for such sections. We do not consider this hardy enough for our northern trade. Like all our lawn mixtures the seed has been cleaned, tested and guaranteed to satisfy. Postpaid price: 1 lb., 40c; 3 lbs., \$1.10; 5 lbs., \$1.60; 10 lbs., \$3.00.

DELICIOUS VEGETABLE SPECIALS

Green Stringfree Bean

BERRY'S GREEN STRINGFREE BEAN

We know our customers appreciate something extra good and we want you to try this superb bean. The quality is unsurpassed. The long wide thick pods cook up tender and the flavor is wonderful. The flesh is fine grained, without fiber and absolutely stringless. Give these beans a fair chance in some good soil and you'll grow a crop of beans you can talk about. The bushy plants are large and thrifty and how the beans do set on them. It is a very early variety too and will give you one of the first crops of beans in the neighborhood. For quality, flavor and productiveness we are positive it cannot be surpassed. Be sure to try some this year.

Lot No. 121X—Postpaid prices:
Pkt., 10c; ½ lb., 25c; 1 lb., 45c;
2 lbs., 75c.

BERRY'S Tenderflesh Carrot

Here is a carrot that is something new. Better and finer than any of the old kinds you may have been growing. Gone is that coarse grained, thick, poorly flavored core. In its place is the most delicious crisp tender flesh, delicately flavored. This coreless variety is an improvement so outstanding as to win enthusiastic approval of all lovers of carrots.

Here is one of the finest of health giving vegetables at its best. It has a distinctive cylindrical shape with practically no taper. The tops are small. The flesh has a distinct rich orange color. We consider it the finest carrot for home gardens. Excellent for markets as it is a fine forcing variety and a very early maturing strain. By all means grow some this year.

Lot No. 012X—Postpaid prices: Pkt., 10c; oz., 25c; ¼ lb., 60c; ½ lb., \$1.00; 1 lb., \$1.75.

Tenderflesh Carrot

BERRY'S EARLY WONDER TOMATO

Most everyone wants an early tomato that has real quality. This is the one that we consider the very earliest good tomato. It is earlier than the commonly known early varieties and surpasses them in quality. If you want a Tomato that has real merit try this one. The color is a deep, glossy, bright brilliant red. The skin is smooth. The thick meat is finely flavored. The fruit is nearly round and large in size. Has a small seed cavity and is very firm. Vines are vigorous and bear enormous crops. This is truly a magnificent variety, —a beauty and a wonder. Show the folks a thing or two by growing some Berry's Early Wonder this year. Have the first ripe tomatoes.

Lot No. 156X—Postpaid prices:
Pkt., 10c; oz., 40c; ¼ lb., \$1.50; ½ lb., \$2.75; 1 lb., \$5.00.

Early Wonder Tomato

Beat-Em-All Radish

BERRY'S BEAT-EM-ALL RADISH

The earliest of the extra early. Ready 15 to 18 days after planting. A real table dainty. Crisp, fine appearing, snappy flavor. Beautiful red top with white tip. A leader and a favorite. Unbeatable for home or market. Grow Berry's specials and have an outstanding garden this year.

Lot 725X—Postpaid Price: Pkt., 10c; oz., 20c; ¼ lb., 40c; ½ lb., 70c; 1 lb., \$1.25.

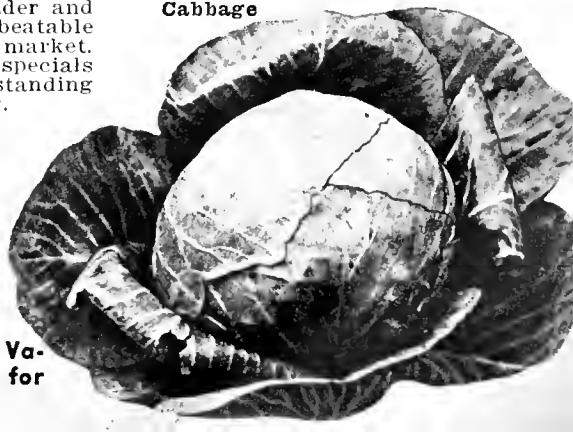

BERRY'S EARLIBEST CABBAGE

We'll challenge the nation with this variety, for earliness, quality and productiveness. A roundhead type cabbage that starts with a bang, heads in a hurry and is ready for the table before most kinds curl up its center leaves. The heads are firm and solid too. The color is bright green. The flavor sweet and delicious. Plants are small and compact. May be planted closer together for it is not so leafy. You can't beat it for home garden or early market.

You'll get a lot of enjoyment out of growing such a variety. Beat the neighborhood with a display of these fine solid, round headed Earlibest Cabbages. It's extra good. We recommend it highly.

Lot 971X—Postpaid Price: Pkt., 10c; oz., 35c; ¼ lb., \$1.10; ½ lb., \$2.00; 1 lb., \$3.75.

Earliest Cabbage

One Packet of Each Variety on this Page for 40c Postpaid

SUPERB QUALITY SELECTIONS

SWEET JUMBO ONION

This onion will bring you a size and a quality such as you have probably never grown before. First you will find their size astonishing. Great big balls of golden yellow. Because of their size this is one of the heaviest yielders you can grow. Expect the biggest crop you ever produced. They are good keepers. Then when you cut through this golden skin you will find a very white flesh. This has the sweetest mildest taste you can imagine in an onion. For quality and productiveness none can surpass it. Plant some this year. **Lot 524X, Postpaid price: Pkt. 10c; Oz., 40c; ¼ lb., \$1.10; ½ lb., \$2.00; 1 lb., \$3.75.**

Sweet Jumbo Onion

HYBRID DELICIOUS SWEET CORN

Sensationally early. Matures 8 to 10 days before most kinds. Exquisite rich delicious flavor. Golden yellow color. Disease resistant. Prolific yielder. Sturdy grower. Very uniform. Brings a new era in Sweet Corn growing. Be sure to grow some.

Lot 982X. Postpaid price: Pkt., 10c; ½ lb., 30c; 1 lb., 50c; 2 lbs., 85c.

Hybrid Sweet Corn

Supreme Wonder Pea

SUPREME WONDER PEA

A revelation in quality. A wonder in production. The leader of dwarf varieties. Grows vigorous dark green vines about 15 inches high. They become simply loaded with pods. These pods are packed with dark green peas. We have never tasted peas so tender, so sweet, so delicious. Their appearance and flavor will tempt the poorest appetite. By all means grow some.

Lot 364X. Postpaid price: Pkt., 10c; ½ lb., 25c; 1 lb., 40c; 2 lbs., 65c.

BERRY'S MAMMOTH MELTING SUGAR MELON

A watermelon that for sheer deliciousness takes the prize. A bite of its scarlet stringless flesh fairly melts in your mouth. Its cool sugar-sweet juice has a spice that brings back memories of childhood. They are big fellows too. Grow 20 to 25 inches long weighing 40 to 60 lbs. They sure are beauties. Dark green color. Thin, tough rind. Creamy colored seed.

This is a very prolific melon. Hardy vigorous vines

often bear 6 to 8 fine melons each. Earliest maturing melon of its size we have ever seen. Fine for extra early planting. Give your family a treat by growing this melon. Its wonderful quality makes it a fast repeat seller on home markets. It's a dandy.

Lot 153X. Postpaid price: Pkt., 10c; oz., 25c; ¼ lb., 60c; ½ lb., \$1.00; 1 lb., \$1.75; 5 lbs., \$8.00.

FALL APPLES

WEALTHY. America's Favorite! Hardy, red Fall Apple—delicious flavor, extra juicy. Strong tree—long lived. Fruit keeps until Xmas.

MAIDEN BLUSH. Well known as hardy Fall cooking apple.

MONEY CROP—WINTER APPLES

N. B.—Varieties * are not recommended for commercial planting north of Clarinda.

MCINTOSH. Red. Extra hardy, strong, long lived tree. Fruit uniformly well shaped and colored. Juicy, full flavored. Especially recommended for Northern States.

STAYMAN'S WINESAP. The extra large, hardy Winesap. Fine for eating or cooking. Good keeper.

ROME BEAUTY. New red. Favorite commercial apple in Michigan and New York. Excellent keeper. Delightful flavor—eating or cooking.

NORTHWEST GREENING. Keeps until Spring. Excellent for eating or cooking after Xmas. Tree—hardy, bears young.

EXTRA RED DELICIOUS. America's sweetheart! Supreme in flavor, texture and keeping qualities. Young bearing trees, thrive anywhere.

JONATHAN. Most profitable apple for Middle West. Heavy, consistent bearer of rich, juicy, tart, good keeping apples.

***TOLMAN'S SWEET.** The sweetest apple. Thrifty tree. Fruit full-flavored sweet, fine texture—good keeper. Fine for eating, cooking or pickling.

***GRIMES GOLDEN.** Distinctive in flavor and texture. America's favorite yellow apple for home or orchard planting.

***GANO.** Improved Ben Davis. Better color, better flavor better texture—more hardy and heavier bearer.

***YORK IMPERIAL.** Heavy bearer of big red apples. Fruit firm, good texture and flavor, good keepers.

***BLACK TWIG—MAMMOTH.** Extra large, deep red apple—resembles Winesap. Late keeper—good eating.

CRAB APPLES

WHITNEY. A wonderful large early Crab for eating, canning or pickling. Tree very hardy, bears very young.

HYSLOP. Rich, deep red color—medium sized. Unsurpassed for jelly, pickles or butter. Plant several.

RED SIBERIAN. The favorite small tart Crab for pickles and jelly. Tree hardy and ornamental—bears young.

SURE CROP

BLAKEMORE
New, early market berry. Extra vigorous grower, heavy bearer, very drouth resistant, healthy and good plant maker. Recommended for Northern States.

AROMA
Very best late market variety in moderate climates. Fruit extra well flavored, well colored and firm. Good shipper — excellent canner. Late.

SENATOR DUNLAP
Old reliable favorite for home or market. Strong, extra hardy grower—heaviest yielder of big, solid, red berries. Mid-season.

Prices—Above 3 Varieties

THORO-BREDS

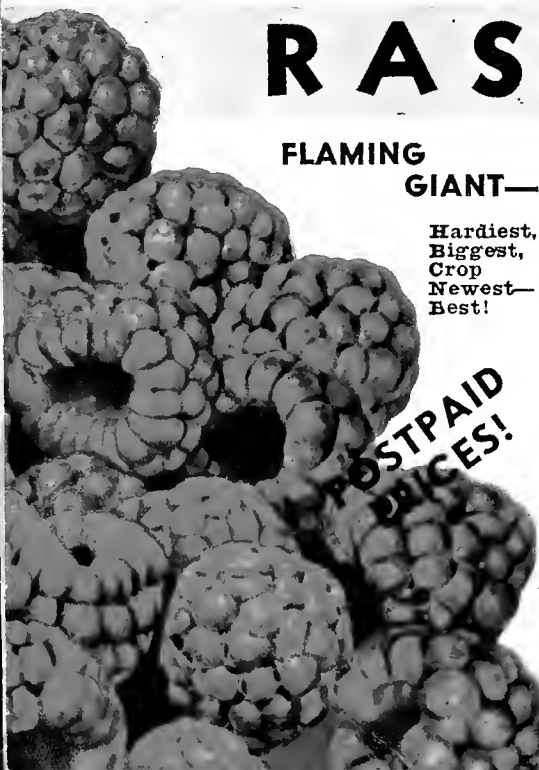

DORSETT
Pictured above. Best of the newer Strawberries. Big, bright red, extra solid, rich flavored berries. Plants very vigorous, hardy and healthy. Try it!

FAIRFAX
Another new variety of great merit—darker red than Dorsett but fruit not quite as large. Has produced over 5,000 quarts per acre in moderate climates. Very good!

PREMIER
Famous for flavor and huge crops in any soil or climate. Berry's plants are true early strain—heavy bearers, big red berries.

Prices—Above 3 Varieties

Corn Belt World Brand Grimm

Strictly extra fancy quality Grimm. The price guaranteed the lowest obtainable on such beautiful seed. This unquestionably is our biggest dollars worth. U. S. Verified origin seed. Fine large berries. Excellent color. High purity. Strong Germination. New Crop Seed. Super Hardy Grimm. Genuine Corn-Belt stock. (See page 38.)

Highly Satisfactory

Expect a lot when you order this World Brand Corn-Belt Grimm. You will get beautiful seed. You will receive seed that is extra winter hardy, vigorously alive. It abounds with the energy that produces strong, sturdy plants. Such seed is most economical because it always satisfies. This seed is selected and purchased with care. U. S. Verified origin tag certifies as to place where grown. Growers furnish sworn affidavits as to its genuineness. The seed is cleaned, tested, graded, sacked and sealed under strict supervision. Here is real Grimm at the lowest price for such fine quality.

Save \$2.00 to \$3.00 per bu.

Comparisons will prove that in many cases the savings are greater. They may run to \$5.00 or more. Consider the quality. Check only with the best. There is no seed that can produce better stands than this World Brand. We want your business and have made this price so low that it is clearly to your interest to trade with us. Benefit from our early purchases and our direct selling policy. You can save with surety and satisfaction on this Corn Belt World Brand Grimm.

Grimm is in great demand. Its finer growth and super-hardiness are characteristics more and more farmers are demanding. Supplies of Grimm are going fast. There is practically no seed left in growers' hands. Buy early to share a matchless value like this.

LOT JUST-RITE RED CLOVER

Priced Very Low

Because it contains some Alfalfa Seed

Alfalfa cannot be separated from the clover. This cuts down percentage of pure red clover, thereby lowering the price materially. It does not, however, damage the seed. From a practical standpoint it serves just as well. In fact, many farmers are mixing a fourth to a third alfalfa with their red clover seedings. This generally produces much heavier yields and establishes alfalfa on the land. This lot contains around 25% hardy Alfalfa. Makes a very dependable seeding at a very low cost. We had a value like this last year that gave wonderful results.

Thoroughly Dependable Seed

This is re-cleaned new crop seed. All hardy stock, adapted throughout the nation. Good color, purity, size and germination. A very serviceable lot, guaranteed to please. This lot is not quite as smooth as the sample of Lot Leader enclosed but for practical and economical purposes it is very satisfactory.

With Red Clover seed production short and prices working steadily higher, this lot Just-Rite is truly a sensational value. A real bargain that thrifty buyers will be quick to appreciate. Share in the big savings by ordering just as early as you possibly can.
